STREET# 10

STREET N. BRAINARD STREET

ADDITIONAL PHOTOS OR INFORMATION

Significant Features

Hipped roof w/ modillion cornice; center full height portico w/ massive paired stone Ionic columns and triangular pediment; stone entry w/ garland and round arch multi-light transom; stone corner quoins; round arch 2nd story window openings with voissoirs; red face brick exterior with buff brick base

Historic Information

[from A GUIDE TO CHICAGO'S HISTORIC SUBURBS, p. 408]

"This relatively small but quite massive structure shows that, at North Central College, the library was a serious place. It has pairs of Ionic columns flanking the doorway and supporting the pediment which is made of sheet metal, as is the cornice. In the block to which that frontispiece is attached are pairs of arched windows with the extrados of the arch traced in limestone, corresponding to the frontispiece and to the quoins and mud sill of the brick structure."

ADDITIONAL PHOTOS OR INFORMATION

Significant Features

Hipped roof with front gable; 2 story 3-sided front window bay with center leaded glass windows; full front hipped porch w/ classical columns on shingled knee wall; north side rounded oriel bay with conical roof; historic 1/1 wood & leaded glass windows; north and south hipped dormers

Historic Information

House received plaque from the Naperville Heritage Society in 2006. The house was built in 1908 as a parsonage for Second Evangelical Church. The Jaeck family purchased it from the church and later deeded it to their daughter and son-in-law, Minnie & William C. Scherer.

STREET N. BRAINARD STREET

ADDITIONAL PHOTOS OR INFORMATION

Significant Features

North section is original building, middle section is either original or very early addition (but has been recently altered and added to), south section is historic (c. 1890) addition; mansard roof with modillion cornice and paired scrolled brackets on original, north section; projecting square bay in center of original building (north section) with copper pinnacle on roof; rusticated limestone exterior; round arch and segmental arch window openings; flat arch lintels on first story, flanged segmental arch dormers

Alterations

Original raised front entry was in center of north section—steps to entry have been removed, and entry has been closed with balcony; entry on south (c. 1890) addition was also raised, but has been filled in with ground level window (not historic); top two stories (including mansard roof) of center section are addition from 1998 renovation; south section originally had hipped roof—mansard is an historic alteration; vinyl replacement windows in original openings; replacement entry doors in middle section (probably in altered openings); below grade entry doors on east elevation; elevated patio addition to north elevation

Historic Information

From the DuPage County Cultural and Historical Inventory (1993-1996):

"Old Main was the original building of the present campus of North Central College. It was built in 1870 [note—this date conflicts with the plaque on the building that says "class of 1879"] after the college was moved from Plainfield to Naperville. The college was founded by the Evangelical Association. This one building once held all the classrooms, a chapel, meeting halls, a men's dormitory, library, and an apartment. The building was originally heated by fireplaces and stoves. When the south wing was added in 1891, a heating system was installed. A music department and women's dormitory were also later added. In 1873, the cost of attending college here was approximately \$50, including tuition, room, board, fuel, and laundry."

Building was renovated in 1998---[from THE SUN, 10/9/1998, p. 4]:

"The 'new' Old Main has an additional 5,000 square feet, provided by two floors built to connect the north and south towers....At one time, Old Main was North Central College. Built in 1870, when the college moved to Naperville from Plainfield, Old Main was constructed without the benefit of blueprints. To get from one tower to the other, you had to go down steep stairs to the bottom of the building and back up again. 'It was a building with character that became a character,' Wilde said. People lived, worked and attended classes in the old building."

ILLINOIS URBAN ARCHITECTURAL AND HISTORICAL SURVEY CONTINUATION SHEET

STREET # 135

STREET N. BRAINARD STREET

ADDITIONAL PHOTOS OR INFORMATION

Significant Features

Hipped roof with paneled frieze; historic 2/2 flattened arch wood windows on front and south elevations with elaborate incised wood surrounds & center keystones; double entry doors with flattened arch transom and incised wood surround; oval north window; two story north bay with 1/1 wood windows; two story south side square bay; three-sided south window bay with historic 1/1 windows

Historic Information

[from A GUIDE TO CHICAGO'S HISTORIC SUBURBS, p. 402]

"...this is a good example of a cubic, Italianate building from the 1870s. Especially notable are the window surrounds which have feet and shoulders and nice incising in the upper parts and the keystone."
