

Water Street District Construction Project

The Riverwalk will be closed from the covered bridge eastward through Main Street.

Webster Street will remain open to provide access to the Municipal Center and Township Offices. Temporary closures may occur intermittently.

Township Offices

Water Street and its accompanying sidewalks will be closed for the entirety of the project.

The alley will be closed for a portion of the construction. Parking will be provided at the temporary parking lot.

Future Site of Temporary Parking Lot

CONSTRUCTION DETAILS

During completion of the project, Water Street will be closed to all vehicle and pedestrian traffic. Webster Street and the Webster Street entrance to the Municipal Center parking deck will remain open to motor vehicles and pedestrians. However, temporary street closures or lane reductions may be needed for short intervals due to construction.

The alley between Water Street and Aurora Avenue will close for a portion of time during the project. Due to the alley closure, a temporary parking lot for the businesses fronting Aurora Avenue between Webster and Main streets will be located near the corner of Webster Street and Aurora Avenue.

Additionally, the portion of the Riverwalk adjoining the development that extends from the south end of the covered pedestrian bridge to the east side of Main Street will be closed during the project.
