

Naperville Renewable Energy Program

Create a Better Tomorrow

You can make a difference for future generations by choosing to enroll in the City of Naperville's Renewable Energy Program. This exciting program makes it possible for Naperville residents and business owners to purchase clean energy produced through natural means such as wind and solar. More energy independence and fewer air pollutants means healthier air and a safer community for everyone.

Many similar communities have successfully made a difference utilizing renewable resources. It is time for everyone to unite behind this effort, which has an environmental benefit equivalent to planting more than one million trees or not driving 15 million miles per year. You can make a difference for as little as \$5 per month.

Create a better tomorrow and sign up for the City of Naperville's Renewable Energy Program today.

How it Works

An additional charge of as little as \$5 to your monthly electric bill covers the added expense of delivering 200 kilowatt hours (kWh) of clean and renewable energy to Illinois' electric grid. You are ensured the same quality and reliable service as always.

To get started, simply fill out the form below and present it at the City's Finance Department, 400 S. Eagle St.

For more information, call (630) 420-6059 or visit www.naperville.il.us/renewable.aspx.
