

Report from the April 19, 2022 Senior Task Force Meeting

On Tuesday, April 19, 2022, the Naperville Senior Task Force (STF) hosted a meeting with representatives from the Gorman & Company LLC and Mercy Housing Lakefront teams. Similar to the Accessible Community Task Force meeting earlier in the month, the STF engaged both teams in a comprehensive conversation to learn more about their experience, design ideas and service plans to meet the needs of Naperville seniors at the site.

Key areas of discussion included transportation, affordability and universal design features to make the property accessible to all who live there and visit, as well as the quality of supportive programming. The STF concluded the meeting by indicating that the two main concerns of seniors are long-term affordability of the units and access to transportation.
