

Anticipated Project Schedule

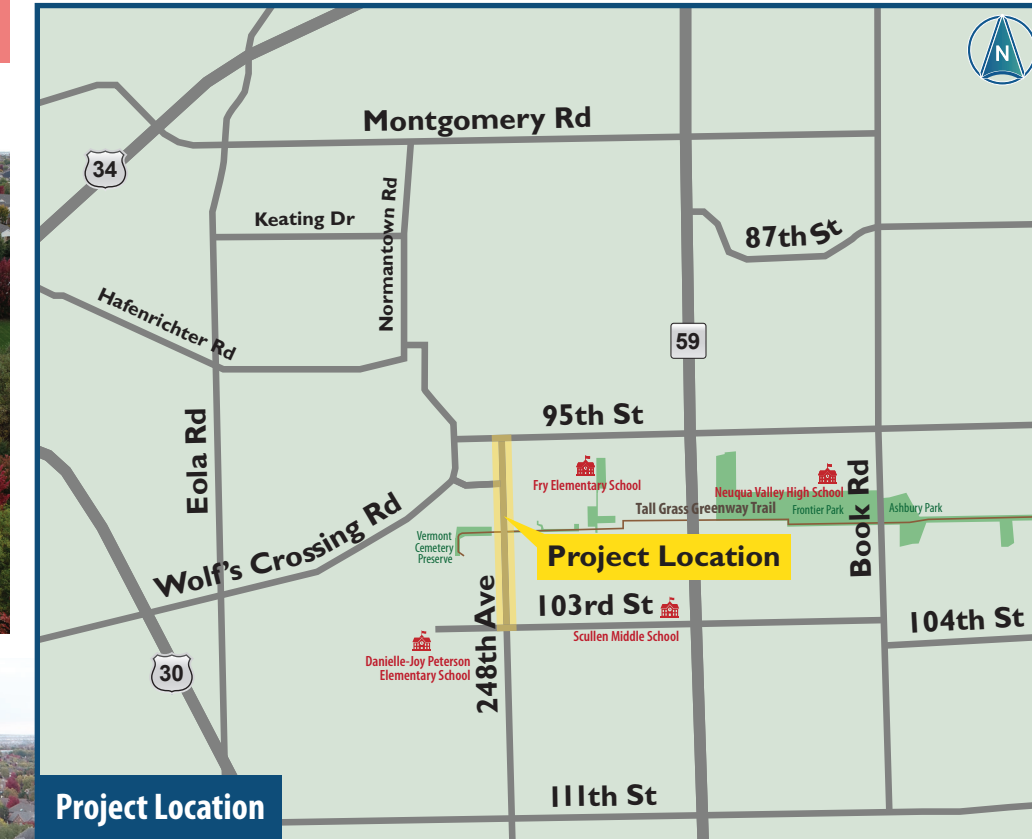

* Dependent on availability of funding and project readiness.

November 7, 2019

5:00 to 7:00 P.M.
 95th Street Library
 Meeting Room A/B
 3015 Cedar Glade Road
 Naperville, IL 60564

Welcome

The City of Naperville welcomes you to the Public Information Meeting for the potential improvements for 248th Avenue between 103rd Street and 95th Street. The meeting is conducted in an open house format. We invite you to inspect the exhibits on display, talk with the study team members and provide your verbal and written input.

248th Avenue Improvement

PUBLIC INFORMATION MEETING SCHEDULED

The public is invited to an open house-style informational meeting about potential improvements to 248th Avenue. The meeting will take place from 5 to 7 p.m. on Thursday, Nov. 7, in Meeting Room A/B of the 95th Street Library, 3015 Cedar Glade Road. The purpose of this meeting is to present existing conditions in the area and gather input on needs. No proposed concepts will be shared.

The City has identified the need to improve the portion of 248th Avenue that runs from 95th Street to 103rd Street. The goal of this project is to create a better driving experience for motorists, as well as better recreational experiences for bicyclists and pedestrians.

The project scope may include improving the roadway, installing new pavement, curbs and

Existing Conditions

Project Goals

Reduce Congestion and Improve Mobility, Access, and Safety

Encourage and Increase Use of Alternative Modes of Transportation

Increase Safety for Bicyclists and Pedestrians

Identify Purpose and Need with Input from Public

Complete Required Steps to be Eligible for Federal Funding

Federal-aid Project Phases

Any transportation project involving the use of Federal funds must follow a project development process consisting of three phases.

Phase I includes extensive environmental and design studies to determine an improvement plan that will provide the desired level of safety and operation while considering social, economic, environmental, and cost factors. After a preliminary improvement plan is approved, Phase II Engineering (Contract Plans) and Right-of-Way Acquisition would begin. During this phase, detailed construction plans would be developed and any necessary land would be acquired for the project. Phase III is the physical construction of the project.

Although Phase I Engineering is being funded by the City of Naperville, it is anticipated that Federal funds will be used for construction of the project.
