RMIS-0618-2024	RESIDENTIAL: OTHER IMPROVEMENTS	ELECTRICAL	ISSUED	04/25/2024	115 HOPI CT, NAPERVILLE, IL 60563
	<i>Description: Proposed to upgrade the existing 100 amp electrical panel to 200 amp. The power company will disconnect the power to the house. We will disconnect the wiring from the outside pedestal going into the existing panel in the basement. We will mark all the wires in the existing panel. We will remove the existing panel from the basement wall. We will install a new 200 amp electrical panel. We will install a new outside meter bank for the new 200 amp panel. We will install new wiring from the meter bank to the new 200 amp electrical panel. We will hook up the existing wiring from the circuits to new breakers in the panel. We will properly install a ground rod outside if one does not already exist. We will run a new ground in conduit from the new electrical panel across the basement and we will properly bond and jump the water meter. We will have the power turned back on test the circuits we hook up and label the panel. We will adapt the BX going into the electrical panel that is close to junction boxes. We will cut the BX back three to four feet from the electrical panel and adapt to electrical junction boxes and run piping and wire to the new electrical panel.</i>				
	<i>We propose to install power for a car charger in the garage. We will run a new electrical pipe from the electrical panel to the other part of the basement above the drop ceiling. We will run and secure the piping over to the right corner of the stairs. We will drill up through the wall into the bedroom at the top right of the stairs. We will run piping up the corner of the room to the ceiling. We will run piping along the ceiling until we can get to the garage wall. We will drill a hole through the wall up high and install a junction box. We will run piping through the wall into the garage. We will run the piping along the ceiling over to the back corner of the garage. We will install a new electrical junction box in the back corner of the garage. We will pull new wiring from the electrical panel over to the new electrical junction box in the garage. We will install new customer supplied type 2 car charger on the new electrical junction box. We will install a new properly sized breaker for the EV car charger. We will test the new EV Car Charger for proper operation.</i>
