<p><i>Description: We will be replacing the service meter and interior service panel.</i></p> <p><i>Current issues with service meter is: it's detached from the home. Load conductor conduit is protruding through the meter socket and making contact with internals of meter housing. Meter is below height threshold.</i> <i>Solution: install new meter bank (pedestal style) for underground service to meet height threshold. Old service conductors will need to be extended due to height difference.</i></p> <p><i>Current issue with service panel:</i> <i>Panel is over loaded with circuits. Many circuits tapped into main breaker. Improper wiring color code. Neutrals and grounding shared. Many disconnects are exterior of the panel. Old breaker.</i> <i>Solution: we will install a new panel with new breaker. Clean up over loaded circuits and land them on proper breaker size. Remove double tapped circuits and dedicate them to their own circuits. Separate neutrals and grounding wires.</i></p>
