<b>Description:</b> Build a new bathroom in the basement. Frame for a 6x8 bathroom. Cut concrete for rough plumbing to be tied into the underground sewer. Plumbing work will consist of drainage, venting and water supply for a toilet, shower, vanity and wet bar sink. Electrical work will consist of running new power from the panel for lighting, GFCI receptacles, and exhaust fan. General construction will consist of framing the 6x8 bathroom, installing drywall, doors and trim. Bathroom exhaust fan will be routed through the joist space and vented on the exterior of the home through the siding. LVP flooring will be used for the bathroom floor. The shower will be a 4x4 standing shower insert. Finished bathroom will have a standing shower, toilet, vanity, and small linen closet. In a room next to the bathroom lower cabinetry will be installed in a U shape. Countertops will be install with a small sink for a wet bar.

<b>Description:</b> We will be painting and installing new flooring throughout the main two floors. The kitchen will remain in its current layout but we will be installing new luxury cabinetry along with countertops and new appliances. The only other change being made to the current layout is the shower in the master bathroom will be moved next to the current tub in order to create a wet room. No additional fixtures are needed as we will be moving the current shower fixtures. There will be an infared sauna installed where the shower currently is (it is a kit) and will require 120v. This will be the only electrical work. Electrical and plumbing permit request to follow.
