PERMITS ISSUED BY WORK CLASS (03/01/2026 TO 03/31/2026)

Description: 1. 14+ step 5-6 mil vinyl floor installation with the same color of basement flooring material, the side and raisers parts will be gray semi gloss paint, matching the existing color.

2. All new walls will include wood frame (2x4x10) materials, labor, and delivery of all wood materials. For bottom line of frame, 2x4x10 treated wood will be installed. We will create the office room and the guest room. 1/2" thick lightweight drywall will be installed for all the basement walls. Ceiling at this basement will be fully finished with drywall, patched and sanded, then painted with 1 coat of primer and with 2 coats of ceiling white paint; materials and labor will be included.

3. All basement electrical work: installation of outlets, switches, and can lights, in the areas need and however many needed (up to 28 to 30 can lights), will be done by the village code by a professionally licensed electrician. For bathroom and kitchen, we will do separate each 20 amp line according to the code.

4. To make the bathroom shower, standard 60x33 inch custom shower pan will be used, made with a concrete floor with mosaic tile, which will be customer selected mosaic floor tile (if the customer will need special tiles material, they will buy; otherwise, we will get a regular \$5-6 per sq ft mosaic tiles). The shower drain and the toilet main drain lines will be connected to one line which will be professionally moved to the corner. Wall tiles' size will be 12x24 porcelain tile which will be included (If the customer will want to buy expensive wall tiles, they will need to pay the difference from the 12x24 porcelain tile). All the bathroom accessories, such as toilet paper and towel holders, mirror, cabinet handles, will be customer bought. Shower door will not be included in this price (separate price). All hot and cold water line, pvc drain, and air line pipes for the bathroom will be done by a licensed plumber. After installing the shower and the toilet, we will check what size vanity cabinet will fit there (30 inch or 36 inch vanity cabinet). We will install white or gray color vanity with a calacatta quartz top and ceramic sink, including plumbing material and labor.

5. We will make L shape kitchen 60 to 68 inch on one side and the other side around 60 to 70 inch kitchen with sink cabinets, have space on one side towards the corner for the refrigerator, and make the right side the stove area, install all plumbing drain lines, hot and cold water lines, and drain to the ejector pump area. Install separate 4 inch exhaust hood line to the outside of the house, install base and wall cabinet, and then install hood which will be bought by the customer (all the appliances, such as stove, hood, and fridge, will be the customer's purchase). We will professionally install the appliances. After installing 8 kitchen cabinets, we will install white carrara quartz countertop with undermount stanley

steel sink included (all the plumbing materials and sink will be included, the customer will only need to buy their preferred kitchen and vanity faucets).

6. After finishing the walls, install all the new basement doors: guest room door, office room door, office room closet door, bifold door inside the back of the office room, utility room door, radon storage closet door, and sump pump closet door. All the doors will be painted with 2 coats of white semi-gloss paint. The new door trims will be 3 – 3-1/2 inch high baseboard trim and painted with 2 coats of white semi-gloss paint.

7. After installing the walls, drywalls will be patched and painted with 2 coats of the customer's preferred color. The ceiling will be painted in 2 coats of white ceiling paint color.

8. Shower glass door material will not be included in this price because we don't know which brand shower door is customer's preference. The homeowner will buy that themselves or will need to order custom shower door from a glass door company.

9. For all of the basement's outside wall area, R-15 insulation will be installed after framing and eclectic work is done, but before is closed with drywall. All the office room walls will also be insulated help with noise cancelation.

PERMITS ISSUED BY WORK CLASS (03/01/2026 TO 03/31/2026)

ADDITIONAL INFORMATION:

10. In this price, a new ejector pump and a new battery-operated sump pump are not included. Only installation is included if you buy sump pump materials.

When we start remodeling the basement, if we find any cracks on your foundation, then for fixing those foundation cracks will be a separate cost, extra, which will be fixed by a basement crack fixing company, and they will give a warranty for their job. All others, carpenter's job, electric and plumbing, we will do according to the code, and give 3 year warranty for carpenter job, drywall and paint, with the exception of storm flooding damage and physical damage.
