<i>Description: We're installing a 12x14 wooden Gazebo, with aluminum roof. Each post are hollow. But one post which is going to be the one closest to the electricity outlet is going to have a electrical line going through it. Because after the structure is build the gazebo is going to have a air fan on the top and a bluetooth speaker which is why we're having the electrician run his wire through one post, he's going to run the wire from outside the house he's going to install a new box run he's electrical line from there to the nearest post. Each post are going to be sitting on top of a concrete post which is 42 inches tall and 12 inches diameter tube. The gazebo is going to be 10'3" tall. The gazebo is going to be approximately 11 feet away from the house. This project is currently with the paver patio project we're currently working on the gazebo is going sitting on top on the new paver patio.
