BUDGET
OVERVIEW

BUDGET MESSAGE & HIGHLIGHTS

OCT. 10, 2025

Honorable Mayor Scott Wehrli & the Naperville City Council:

On behalf of the City of Naperville, we are proud to present the proposed 2026 Annual Operating Budget and Capital Improvement Program to you. Compiling the 2026 budget was, in many ways, a continuation of the efforts made in 2025, with several ongoing considerations and themes from last year influencing our recommendations.

PROPOSED BUDGET & CIP: **\$685.13M**

↑ **6.8%** FROM 2025 BUDGET

\$173.83M GENERAL FUND

CAPITAL PROGRAM **\$190.25M**

... **0.5506** ANTICIPATED TAX RATE

↓ FROM CURRENT RATE OF **0.5960**

The 2026 budget is recommended at \$685.13 million, reflecting an overall increase of 6.8% from the 2025 budget.

Investments in our utility infrastructure and transportation improvements mainly drive this growth. On the operating side, rising health insurance costs have impacted personnel expenses across most funds. With a recommended property tax levy of \$59.73 million after debt service abatements and continued incremental growth included, we expect a tax rate decrease from 0.5506 compared to the current rate of 0.5960.

2026 BUDGET CONSIDERATIONS

The 2026 budget theme, *Money with a Mission*, reflects our ongoing approach to financial management, emphasizing conservative budgeting and revenue forecasting. As stewards of taxpayer dollars, the City believes every dollar should serve a purpose. This means that funds included in the budget are allocated to projects or services with sufficient resources and achievable within the budget's timeframe.

Ultimately, this philosophy allows the City to focus on high-priority projects that align with our mission and priorities, many of which take several years to complete. It also helps the City prioritize the long-term financial needs of existing services to maintain stability in service delivery and ensure that new services or programs have a long-term funding source in place before implementation.

Along with the City's mission and five priority areas - the economy, mobility, natural environment and community design, safety, and utilities - the City analyzes current trends and recurring themes to set guidelines for the upcoming year's budget. Major considerations for the 2026 proposed budget are described below.

Moderating Revenues

As the COVID-19 pandemic eased, the City experienced a significant rise in certain revenues, with double-digit growth rates that greatly surpassed budget estimates. The rebound in retail sales tax, food and beverage tax, and hotel and motel tax signaled that the City's economy was recovering from the challenges of 2020.

However, some revenue streams that declined during the pandemic have not returned to their pre-pandemic levels, and others are beginning to slow in their growth rate. Some sources are now declining year over year because of shifting behaviors and technological changes. These include commuter parking fees as hybrid work policies remain in place, franchise fees as consumers move away from cable television, telecommunications taxes as more people cancel landline phones, and local use taxes as the state updates its approach to online purchases.

Ultimately, this makes the City more dependent on the ongoing success of other revenue sources, such as property taxes, sales taxes, and state-shared income tax revenue. Property tax is the most consistent revenue source; however, most of the City’s services and capital projects are funded through sales and income taxes, which are more susceptible to economic fluctuations and now carry a larger share of the funding burden.

Naperville’s emphasis on revenue diversity has been beneficial during the Great Recession and the pandemic, and revenue trends and diversification efforts will continue to be important topics in 2026.

Aging Assets

Naperville has experienced significant growth over the past 30 years, with the City's population nearly doubling from 87,000 to over 150,000 since 1990. Along with that growth, there has been a corresponding increase in infrastructure and capital assets necessary to meet the community’s needs, such as streets, water mains, electric distribution lines, and sanitary and storm sewers.

Capital assets typically have a lifespan of 20 to 50 years, during which time they require regular maintenance and upkeep. Assets installed during periods of high growth are now reaching a point where they can no longer be maintained and must be upgraded or replaced.

Year	Maintenance	Upgrades/Replacement
2021	42%	58%
2022	38%	62%
2023	23%	77%
2024	20%	80%
2025	15%	85%
2026	14%	86%

Additionally, changes to regulatory requirements from the time of initial construction may require significant reinvestment in existing assets. Over the past five years, investment in capital has shifted significantly toward upgrades and replacements, especially in the utility and transportation sectors, leading to a higher-cost Capital Improvement Program moving forward.

State Legislation

In 2024, as part of the Fiscal Year 2025 state budget, the governor of Illinois signed a bill into law to eliminate the state’s 1% grocery tax on qualifying food items starting Jan. 1, 2026. The legislation also permitted municipalities to impose their own 1% local grocery tax, effectively replacing the lost tax revenue one-for-one.

The City's portion of state grocery tax revenue was estimated at nearly \$6.5 million. These funds traditionally support vital City services like public safety and public works, and other existing revenue sources could not have replaced the loss of this revenue.

Following the recommendation of the Financial Advisory Board and City staff, in September 2025, Naperville’s City Council approved implementing a 1% municipal grocery tax to replace the state’s grocery tax.

Investing in our Professional Staff and Maintaining Competitiveness

In addition to recurring union negotiations, the City recently completed a compensation and classification study for its non-union employees. This effort is part of the City's desire to attract and retain employees who are essential to our service delivery mission and provide competitive compensation. The 2026 proposed budget reflects costs associated with this study's outcome and negotiated union agreements.

National and Global Financial Climate

Economic and political uncertainty continues to make national headlines in 2025 due to escalating trade tensions and policy uncertainty. Instability at the federal and state levels can impact funding and services at the local level through unfunded mandates, fewer grant opportunities, and overall political and economic uncertainty. As such, Naperville leadership continues monitoring and preparing for potential impacts on local government.

One of the most noticeable impacts is in the healthcare sector. Rising healthcare costs, higher prescription drug prices and usage, general inflation, and federal policies have all led to increased rates in both public and private health insurance markets. The City's medical insurance premiums will increase by 18.5% in 2026, a sharp increase from the 6.9% rise in 2025.

The Federal Reserve is projected to continue lowering interest rates to 3.50% by the end of 2025 and 3.25% by the end of 2026. A significant driver of the 2025 rate cut is a slowing labor market and easing inflation. According to the Bureau of Labor Statistics, over the 12 months ending in September 2025, the consumer price index increased by 2.9%.

Strength in the local economy continues to be driven by strong retail sales, rising property values, and low unemployment. Naperville once again held its position as the top suburb for total retail sales in 2024, with nearly \$5 billion in retail sales. The City is particularly strong in the retail sectors of dining and drinking, grocery, home improvement, and auto and gas sales. Economists predict that the U.S. outlook for 2026 remains uncertain due to rising tariffs and political tensions.

Naperville's Equalized Assessed Value (EAV) for tax year 2025 is estimated at \$10.85 billion, an increase of 10% from the prior year. This growth results from continued development and appreciation of existing property values. Although economic uncertainty poses challenges, developers continue seeking residential and commercial development opportunities in Naperville.

Finally, unemployment remains low in Naperville and compares favorably to unemployment statewide. According to the Illinois Department of Employment Security, the unemployment rate for the area that includes Naperville was 4.6% in August 2025, lower than the previous year's 5.7% rate and the state's August 2025 4.7% unemployment rate.

BUDGET OVERVIEW & HIGHLIGHTS

The 2026 City of Naperville budget is recommended at \$685.13 million, an overall increase of 6.8% from the amended 2025 budget of \$641.65 million. The total budget comprises \$663.30 million in expenditures, an overall increase of 6.5%, and an additional \$21.83 million in transfers between budget funds. Interfund transfers are 15.1% higher due to an increase in the transfer from the Phosphorus Fund to the Water Utility Fund as recommended in the Water Utilities' 2024 rate study. Other factors driving the 6.5% increase include a significant increase in medical premiums, purchased utilities, and capital investment.

	2025 Budget	2026 Budget	Change (\$)	Change (%)
Revenues				
Revenues	596,617,926	631,405,313	34,787,386	5.8%
Interfund Transfers (In)	21,168,637	24,667,137	3,498,500	16.5%
Revenue Total	617,786,563	656,072,450	38,285,886	6.2%
Expenditures				
Expenditures	622,680,609	663,295,663	40,615,055	6.5%
Interfund Transfers (Out)	18,967,990	21,834,434	2,866,444	15.1%
Expenditure Total	641,648,599	685,130,097	43,481,499	6.8%

During budget preparations, departments were instructed to “hold the line” on operating budgets because of the uncertainty caused by the sunset of the statewide grocery tax and increasing health insurance costs. Additionally, the City’s Budget Team collaborated with departments to identify unused funds by comparing actual spending to the 2026 budget requests, highlighting areas of underspending that could be reduced or eliminated. This effort resulted in nearly \$1.5 million in budget savings across several General Fund departments. The 2026 proposed budget reflects no new personnel and only limited new budget requests outlined below.

Public Safety

The Police Department has requested \$150,000 in the budget for a Drones as First Responders (DFR) initiative. This program would deploy a drone to certain high-priority calls to assist emergency personnel in gathering intelligence to help formulate a measured and informed response before officers arrive. The estimated cost of this program is \$150,000 annually.

Specialty Planning Studies

Two areas of the City recently underwent extensive evaluation for potential future opportunities at these locations. The first was the Council-directed review of City-owned properties surrounding the Naperville train station, commonly known as the 5th Avenue Area, and the second was the Naperville Development Partnership’s I-88 Corridor study. TED has included \$150,000 in its budget for follow-up consultant work for either 5th Avenue or the I-88 Corridor. Financial and staff resources are available to complete only one study in 2026. As a result, staff will seek guidance from the City Council to determine which area should be prioritized.

City Website

The City Manager’s Office has requested \$100,000 for professional services related to a website redesign. In addition to changing website usage patterns and advancements in technology since the launch of the City's current site a decade ago, the Department of Justice has mandated that governments of Naperville’s size ensure their websites and mobile apps comply with WCAG 2.1 AA standards. These standards are widely accepted digital accessibility guidelines to ensure people with disabilities can appropriately access their government’s digital services. This project will assist Naperville with compliance in this area.

Our staff is core to our service delivery mission, and personnel expenses account for a significant portion of the budget proposal. The 2026 budget supports a 3% cost-of-living adjustment, a 1% merit pool increase for non-union employees, union wages in line with negotiated agreements, and an additional \$308,000 in potential wage adjustments to support the compensation and classification study. The budget also supports an 18.5% increase in employee health insurance and increases in the required contributions to Fire, Police, and IMRF pensions.

The 2026 budget is supported by \$656.07 million in revenues, an increase of 6.2% compared to the 2025 budget. The increase in revenues is primarily related to a planned \$58 million bond issuance for utility infrastructure. This includes \$10 million for the Electric Utility and \$48 million for the Water Utility, \$3 million of which is an interest-free loan from the ILEPA to finish Water’s lead service line replacement efforts in 2026. Additionally, an electric rate increase averaging 5.1% across rate classes and water and wastewater rate increases of 12% and 10%, respectively, are recommended and reflected in the budget based on consultant-led rate studies. In the General Fund, the 2026 budget reflects the 1% municipal grocery tax that goes into effect on Jan. 1, 2026. This replacement tax is expected to generate \$6.5 million, the same amount as the current state tax, next year.

PROPERTY TAX

In Naperville, property taxes primarily fund the City’s long-term obligations, such as public safety and IMRF pensions and debt service payments. This tax is also the primary funding source for the Naperville Public Library and Naper Settlement operations. The 2026 budget includes a total tax levy of \$59.73 million, an increase of \$856K, or 1.5%, over last year.

The 2026 budget recommendation continues to take advantage of incremental EAV growth, including new development, to maintain a low tax rate. EAV growth is estimated at 10% in 2025. Assessments are expected to continue increasing due to irregular residential sale prices in the years after the pandemic. Based on the estimated EAV of \$10.85 billion, the resulting property tax rate would decrease to 0.5506 compared to the current rate of 0.5960.

GENERAL FUND OVERVIEW

The General Fund budget totals \$173.83 million for 2026, an increase of \$7.41 million, or 4.5%, over the 2025 budget. Personnel costs primarily drive the General Fund budget, and rising salary, pension, and health insurance costs account for most of the increase.

Expenditures are balanced by \$173.95 million in revenues. Overall, General Fund revenues remained strong in 2025; however, several key revenues, such as franchise fees, telecommunications tax, and local use tax are projected to moderate or decline further in 2026 and beyond. In the 2025 budget,

General Fund revenues were projected to increase by 6.0%. However, total revenues for 2026 are projected to increase by a more modest rate of 4.4%, led by property taxes, utility taxes, and state income tax increases.

	2025 Budget	2026 Budget	Change (\$)	Change (%)
Revenues				
Revenues	160,743,769	168,346,141	7,602,372	4.7%
Interfund Transfers (In)	5,813,089	5,599,889	(213,200)	-3.7%
Revenue Total	166,556,858	173,946,030	7,389,172	4.4%
Expenditures				
Expenditures	161,730,884	170,275,358	8,544,474	5.3%
Interfund Transfers (Out)	4,696,308	3,558,632	(1,137,676)	-24.2%
Expenditure Total	166,427,192	173,833,990	7,406,798	4.5%

Consistent revenue growth over the past several years has outpaced spending in the General Fund. The result is a rising General Fund cash balance, which has grown from \$18.81 million in 2018 to \$63.35 million at the end of 2024. However, based on year-end estimates for 2025 and budget projections for 2026, the cash balance is expected to moderate to around \$68.04 million.

ELECTRIC UTILITY FUND OVERVIEW

The 2026 budgeted revenues for the Electric Utility Fund total \$177.84 million. This is an increase of \$11.41 million, or 6.9%, from the 2025 budget. The utility commissioned a rate study in 2024 to establish rates that would support increased capital investment while stabilizing declining cash balances in light of lower energy sales in recent years. For 2026, revenue forecasts include a 5.1% average rate increase across the various rate classes, which results in \$162.27 million in electric charges. The utility also plans to issue \$10 million in new debt to support infrastructure investment.

	2025 Budget	2026 Budget	Change (\$)	Change (%)
Revenues				
Revenues	158,929,903	167,841,444	8,911,541	5.6%
Other Financing Sources (Bonds)	7,500,000	10,000,000	2,500,000	33.3%
Revenue Total	166,429,903	177,841,444	11,411,541	6.9%
Expenditures				
Expenditures	165,452,025	175,929,297	10,477,272	6.3%
Interfund Transfers (Out)	1,394,191	1,377,523	(16,668)	-1.2%
Expenditure Total	166,846,216	177,306,820	10,460,604	6.3%

The Electric Utility Fund's budgeted expenses total \$177.31 million for 2026, an increase of \$10.46 million, or 6.3%. Purchased electricity is the utility's largest expense and is projected at \$112.40 million for 2026. The utility will also invest significantly in capital upgrades totaling \$27.27 million.

WATER & WASTEWATER FUND OVERVIEW

The 2026 budgeted revenues for the Water & Wastewater Fund total \$151.21 million, an increase of \$27.97 million, or 22.7%, from the 2025 budget. An additional \$6.54 million in transfers is included, representing an increase of \$3.68 million, or 128.6%.

Revenues in the Water & Wastewater Fund primarily comprise user charges for water and wastewater. The Utility's 2024 rate study recommended increases to both water and wastewater rates to support significant expansion in capital investments. The recommended rate increases are 12% for water and 10% for wastewater. Based on these recommendations, water charges are budgeted at \$61.88 million, an increase of \$5.06 million, or 8.9%. Wastewater charges are budgeted at \$33.16 million, an increase of \$2.57 million, or 8.4%.

	2025 Budget	2026 Budget	Change (\$)	Change (%)
Revenues				
Revenues	120,375,827	144,668,303	24,292,476	20.2%
Interfund Transfers (In)	2,863,000	6,543,450	3,680,450	128.6%
Revenue Total	123,238,827	151,211,753	27,972,926	22.7%
Expenditures				
Expenditures	136,959,661	160,384,122	23,424,461	17.1%
Interfund Transfers (Out)	1,941,245	1,830,488	(110,757)	-5.7%
Expenditure Total	138,900,906	162,214,610	23,313,704	16.8%

The 2026 budgeted expenses for water and wastewater services total \$162.21 million, an increase of \$23.31 million, or 16.8%. Purchased water for resale to customers represents the single largest operating expense and is projected at \$32.09 million. The utility will continue the expansion of its Capital Improvement Program in 2026, with planned investments totaling \$89.80 million, up from \$70.80 million in 2025.

INVESTING IN OUR COMMUNITY'S CAPITAL NEEDS

The City of Naperville's Capital Improvement Program (CIP) represents Naperville's commitment to planning and maintaining assets linked to the City's mission and to long-term investment in the City's infrastructure. The CIP provides the City's long-range financial plan, complementing the annual budget, which provides a short-term financial plan to fund operations.

The 2026 CIP is valued at \$190.25 million, a 6.1% increase from the 2025 approved program of \$179.38 million. Significant capital investments are being made across several categories, with the most notable being in the water, wastewater, and transportation spaces. Planned water and wastewater infrastructure-related projects are the highest-cost area, accounting for 48.2% of the 2026 capital budget. Transportation infrastructure investments account for \$38.6 million of the 2026 capital budget, representing an increase of nearly 31% compared to the approved 2025 budget.

	2025	2026	Change (\$)	Change (%)
Buildings & Facilities	10.65	8.88	(1.77)	-16.6%
Electric Utility	29.15	27.25	(1.90)	-6.5%
Parks & Recreation	5.16	3.59	(1.57)	-30.4%
Stormwater	1.14	3.96	2.82	247.4%
Technology	21.94	8.11	(13.83)	-63.0%
Transportation	29.49	38.60	9.11	30.9%
Vehicles & Mobile Equipment	9.64	8.11	(1.53)	-15.9%
Water & Wastewater Utility	72.21	91.77	19.56	27.1%
Total	179.38	190.25	10.89	6.1%

\$ in millions

Some of the more noteworthy capital projects to be undertaken next year include:

- Major road construction projects, including the Annual Street Maintenance Program (\$12.0M), North Aurora Road underpass improvements (\$13.48M), Municipal Parking Lot Maintenance (\$2.25M), South 40 Improvements (\$1.22M), and 248th Improvements (\$1.98M).
- Upgrades to the public safety mobile radio network (\$3.0M), security camera upgrades (\$1.35M), and municipal data center upgrades (\$950K).
- Kings Terrace water main replacement (\$9.30M), Saybrook phase 3 water main replacement (\$6.18M), Maplebrook phase 3 water main replacement (\$3.87M), and water main replacements on Ogden Avenue (\$2.61M).
- Various improvements to the water distribution system, including the Lead Service Replacements (\$3.30M), North Elevated Tank & Water Reservoir Coating (\$2.5M), and Central Elevated Tank Rehabilitation (\$1.16M).
- Springbrook revitalization improvements include South Plant Capacity Upgrades (\$20.36M), South Plant RAS/Grit Improvements (\$7.41M), and Cloth Media Disc Filter Upgrades (\$1.90M).
- Electric system improvements, including Tollway Substation improvements (\$6.32M), cable replacement program (\$3.75M), SCADA & DERMS implementation (\$1.43M), and storm hardening and system resiliency (more commonly known as the overhead to underground conversion project) (\$1.0M).
- Enhancements to municipal facilities, including Station 4 Training Facility Renovation (\$2.74M), the Police Department Building Renovation (\$1.01M), and the Train Station platform, walkway, and stairwell repair program (\$500K).

Major CIP Funding Sources

Below is a chart breaking down the funding sources available to support the 2026 CIP.

Of the \$190.25 million budgeted for the 2026 CIP, \$132.25 million in funding was identified to support the 2026 program. Examples of major funding sources include home rule sales tax (\$23.16 million), state and local motor fuel taxes (\$9.67 million), and federal and state grant funding (\$9.53 million). Other sources include utility charges and existing cash balances. This represents nearly 70% of the total cost, leaving \$58 million in the capital program unfunded. The unfunded projects recommended for borrowing are broken into the following project categories:

As a reminder, the City issues debt on a reimbursement basis. Therefore, bonds will only be issued if the overall capital program cannot be funded through identified sources. The amounts noted above are estimates, and the City aims to use debt to finance capital projects only when necessary.

Paying Down Debt

Over the past 10 years, the City has reduced its general government debt by more than 50% using home rule sales tax as a funding source for capital projects. The chart below shows the City's existing debt service by fund. The City's property tax levy comfortably supports governmental debt service of \$8 to \$10 million annually. The declining debt service for 2026 through 2045 allows the City to continue funding capital projects through debt issuance without negatively impacting the property tax levy.

Conclusion

The planning and foresight of both past and current elected officials continue to guide the City's budget development process. We believe the proposed 2026 budget demonstrates Naperville's dedication to the responsible management of the City's funds. As we approach 2026, staff will keep monitoring financial trends and respond as needed with the flexibility and transparency that are core to our financial philosophy.

Sincerely,

Douglas A. Krieger
City Manager

Raymond Munch
Director of Finance

26 BUDGET OVERVIEW ...

The City of Naperville's annual budget is a detailed plan for funding the city government's various programs, services, and initiatives. It is an official document outlining the funds needed to deliver services and programs to residents and businesses in Naperville. The annual budget serves as a short-term financial plan to cover the year's operations, maintenance, and capital projects. Additionally, the City provides a Capital Improvement Program (CIP) as part of its long-term financial planning system.

The City's budget is made up of three parts:

1. Maintenance & Operating Funds

Ongoing/recurring costs associated with providing core City services, such as police, fire, public works, and utility services, as well as maintenance of existing assets. Accounts for most recurring revenues and expenses of the organization.

2. Capital & Debt Service Funds

Supports the costs for one-time capital expenditures, maintenance of existing capital assets, and the repayment of debt issued for capital improvements undertaken in prior years.

3. Special Funds

Specialized expenditures for programs or services above or outside the City's core functions, usually driven by revenue sources received by the City for a specific function. Created for a specific purpose and usually driven by a statutory restriction on the use of revenue.

Besides the overall structure of the budget, the three parts are divided into 39 funds that separate revenues and related expenditures by function. Governmental finance uses funds to account for expenditures and revenues. Over time, the number of funds can change; some may be closed if they no longer serve their purpose, or new ones might be created. The chart below shows the various City funds that make up the three parts of the City's budget. A matrix in the budget document illustrates how departments are related to these funds.

Maintenance & Operating Funds	
Commuter Parking Fund	Electric Utility Fund
General Fund	Self-Insurance Fund
Solid Waste Fund	Water & Wastewater Utility Fund
Capital and Debt Service Funds	
Capital Projects Fund	Downtown Parking Fund
Debt Service Fund	Phosphorous Removal Fund
Motor Fuel Tax Fund	SSA Funds
Road & Bridge Fund	Water Street TIF Fund
Special Funds	
Community Development Block Grant Fund	ETSB Fund
E-911 Surcharge Fund	Foreign Fire Insurance Tax Fund
Food & Beverage Fund	Naper Settlement Fund
Library Funds	State & Federal Drug Forfeiture Funds
SSA Funds	Test Track Fund
Block 59 & Heinen Business District Funds	Renewable Energy Fund

BREAKDOWN OF THE 2026 BUDGET DOCUMENT

Budget Overview

This section explains the major themes and considerations used in developing the annual budget recommendation. It also provides information about the City's financial situation and main budget highlights, including key changes and an overview of the City budget. Methods used to estimate revenues for each budget year rely on historical financial data, forecasts from external sources like the Illinois Municipal League (IML), trends in new developments, government actions and laws, and economic conditions. This section also offers an overview of the City's fiscal policies, budget development guidelines, and budget structure.

City Overview

This section provides information about the City of Naperville, including its mission and values, a community overview and relevant data, economic development plans that impact the budget, organizational structure, and priorities.

Maintenance and Operating Funds Overview

This includes detailed revenue and expense information at each fund level. The information consists of 2024 actuals, 2025 budget and year-end estimates, and the proposed 2026 budget with dollar and percentage changes. Each fund also has line-item details for the 2026 budget.

Capital and Debt Service Funds Overview

This includes a high-level review of the 2026-2030 Capital Improvement Program (CIP). The section consists of five-year and annual summaries of the CIP and provides a breakdown of projects by funding source, project type, department, and project category. The section also includes detailed revenue and expense information at each fund level, including 2024 actuals, 2025 budget and year-end estimates, and the 2026 budget with the dollar and percentage changes.

Special Funds Overview

This includes detailed revenue and expense information at each fund level. The information consists of 2024 actuals, 2025 budget and year-end estimates, and the 2026 budget with dollar and percentage changes. Each fund also has line-item details for the 2026 budget.

Department Overviews

This section includes detailed information for each operating department across all operational and capital expense funds. The operating expenditure section includes 2024 actuals, 2025 budget and year-end estimates, and the 2026 budget with dollar and percentage changes. Each department overview includes a description of service priorities, headcount, goals, and a breakdown of expenses by function and fund allocation.

The document ends with a list of acronyms and a glossary of terms to assist readers in understanding the terminology used throughout the budget.

26 BUDGET DEVELOPMENT GUIDELINES & CALENDAR ...

NAPERVILLE'S BUDGET PROCESS

Naperville's Annual Operating Budget and Capital Improvement Program (CIP) establishes the annual financial framework that supports the City's mission to provide services that ensure a high quality of life and maintain a dynamic business environment while creating an inclusive community that values diversity.

Since 2016, the City has operated on a calendar-year budget cycle. Quarterly updates on revenues, expenses, and emerging budget trends are presented to the City Council during regularly scheduled public meetings throughout the year.

In 2025, the City's Budget Team adjusted the timeline for budget preparations to allow more review time for submissions at both the Finance and City Manager levels. The budget development process now begins in June instead of July and follows the policies and priorities established by the City Council through the City's Priorities Plan. Methods used to estimate revenues for each budget year depend on historical financial data, forecasts from external sources like the Illinois Municipal League (IML), trends in new developments, government actions and legislation, and economic conditions.

In June, a budget kick-off meeting is held with all departments, Naper Settlement, and the Naperville Public Library. Important deadlines are communicated at the same time. During the summer, Naperville's Budget Team also meets with the City's Director Leadership Team (DLT) to discuss initial revenue trends and the specific guidelines departments should follow when preparing their budget recommendations. The Budget Team is also available to meet with department liaisons who prepare budget submissions regarding key dates and any updated processes.

Each City department prepares its operating budget and CIP recommendations based on past needs, new priorities, and specific guidelines for the year. For 2026, revenue estimates, staff requests, and new budget proposals were due in mid-July, with operating and capital budget submissions due at the beginning of August.

Recommendations go through two review rounds, first with the Finance Department and then with the City Manager's Office. These reviews evaluate operational changes, discuss department goals, and analyze recommendations. In consultation with the Finance Department, the City Manager makes the final recommendation to the City Council through the proposed budget published in mid-October.

Before the proposed budget is released, Finance staff will hold the first of three workshops with the City Council in late September to discuss the context behind major capital budget drivers. This provides enough time to explain individual capital improvement projects, the reasons for this work, and longer-term trend assessments.

After the proposed budget is published, additional workshops take place in October and November to lay the foundation for the official budget adoption process. Following these workshops, the City Council conducts a public hearing and is asked to approve the annual budget during its regular meeting on the first Tuesday in December. Once the budget is adopted, there is another public hearing and decision on the annual property tax levy at the City Council's regular meeting on the third Tuesday in December. To meet state requirements, both the budget and tax levy must be approved before January 1 of the following year.

PUBLIC INPUT & COMMUNICATIONS

Community Survey

Every few years, the City of Naperville surveys residents to better understand the community's needs and perspectives, evaluate resident satisfaction with service levels, and ensure the organization's focus aligns with the community's priorities. Survey results guide updates to the City's Priorities Plan, which focuses efforts on the areas most valuable and important to residents. In turn, the Priorities Plan influences the City's budget development. The primary statistically valid survey is complemented by an open-participation survey, allowing residents to share their opinions on topics that should receive financial focus in the coming years.

In-Person or Written Comments

Public input and transparency are essential parts of the budget development process. Public forums are held at all budget workshops, and the public can speak on budget-related items listed on a City Council meeting agenda. The public can also submit written comments for the official record. A public hearing is held during the meeting when the City Council votes to approve the budget.

Online (Social Media & Website)

Naperville's operating and capital budgets are provided in full on the City of Naperville's website at www.naperville.il.us/budget. The City also posts about the budget on its Facebook and X social media channels.

Newsletter

The City's resident newsletter, Naperville Connected, is received by all households with their utility bills. It features an article in December or January of each year that provides context around the upcoming year's budget. The newsletter is also posted at www.naperville.il.us/connected.

Video

The public can watch videos of City Council meetings and workshops live or on demand through the City's online streaming media archives at naperville.legistar.com/Calendar.aspx.

2026 Budget Process	2025 Timeline
<u>Analysis and Communication to Policy Makers</u> Quarterly reports to City Council discussing revenues and expense trends as the baseline for 2026 budget discussions	January through September
<u>Department CIP Development</u> Departments evaluate current CIP, refining existing projects and adding new projects for 2026 and beyond	June 11 through August 1
<u>Financial Information Preparation</u> Prepare information for use in budget development, including prior years' budget to actuals and projected revenues for 2026	June through July
<u>Budget Kick-Off</u> Finance Department provides an overview of the budget process, including timelines for deliverables	June 11
<u>Department Budget Entry</u> Departments enter operating budgets into financial database	June 11 through August 1
<u>First Round of Budget Review</u> Finance reviews department budget requests, coordinates meetings with departments, and makes preliminary revisions	August 4 through August 22
<u>Second Round of Budget Review</u> Collaborative review of department operating budgets and CIP, which includes all department heads and the CMO	September 3 through September 15
<u>City Council Workshop #1</u> Overview of Capital Improvement Program	September 29
<u>Publish Tentative Budget</u> Issue 2026 tentative budget for public inspection	October 10
<u>City Council Workshop #2</u> Overview of operational resources and anticipated needs	October 28
<u>City Council Workshop #3</u> Review of 2026 proposed budget	November 10
<u>Estimate Property Tax Levy</u> Provide City Council with an estimate of property tax levy due and notice of intent to adopt a tax levy	November 18
<u>City Council Budget Approval</u> Hold a public hearing on the tentative budget and pass an ordinance adopting the annual budget	December 2
<u>City Council Tax Levy Approval</u> Conduct Truth in Taxation hearings and pass an ordinance adopting tax levies	December 16

26 FISCAL POLICIES ...

The proposed 2026 budget complies with all relevant fiscal policies outlined below.

ACCOUNTING POLICIES

Reporting Entity

The City of Naperville, Illinois, incorporated in 1857, is a home-rule community operating under a Council/Manager form of government. The City Council is composed of the Mayor and eight council members. The City provides numerous services to the community, including police, fire, an electric utility, a water and wastewater utility, development and transportation services, public works, and general services.

Basis of Budgeting

The City of Naperville uses accounting procedures and principles following Generally Accepted Accounting Principles (GAAP). The accounting for the Governmental Fund Types, the Expendable Trust Funds, and the Agency Funds follow the modified accrual basis of accounting. Under this basis, revenues are recognized when susceptible to accrual, e.g., both measurable and available. “Measurable” means the transaction amount can be determined, and “Available” means collectible within the current period. Property tax revenues are recognized in the year due and collected. The City’s Proprietary Funds and the Pension Trust Funds follow the accrual basis of accounting, whereby revenues are recorded as earned, and expenses are recorded when incurred. Because there is no significant fluctuation in accrued revenues and expenses from year to year, the budget is prepared on the same basis of accounting.

Fund Accounting

The City utilizes fund accounting to account for the diverse nature of its activities. Each fund is established to account for a specific type of activity and is accounted for as a separate entity. The operations of each fund are accounted for with a separate set of self-balancing accounts that comprise its fixed assets, liabilities, fund equity, revenues, and/or expenses, as appropriate.

FINANCIAL MANAGEMENT POLICIES

Operating Budget Policies

The City’s budget must be funded at a level adequate to ensure the continuation of service levels within the budgetary guidelines established each year by the City Council.

Revenues must be estimated at realistic but conservative levels and consistent with historical trends. Comparisons with other years include the two preceding years, total budgeted revenue for the current year, and the amount anticipated for the current year.

Expenditures must be itemized separately for each City department or agency. Comparisons with other years include the two preceding years, total budgeted spending for the current year, and the amount anticipated for the current year.

The City will pass a structurally balanced operating budget each year, defined as a budget with total expected revenues equal to total planned spending. In other words, operating expenditures should not exceed the amount of operating revenues. If necessary, the fund balance may be appropriated by Council authority, and the appropriation shall be limited to the amount by which the fund balance is estimated to exceed the 20% reserve requirement in the General Fund and the 30-day reserve requirement in the Utility Funds at the beginning of the budget year.

As do any requests for additional personnel, existing personnel levels must be analyzed and justified each year.

Capital Budget Policies

Any proposed capital expenditures must be detailed and justified by each individual department.

The budget shall provide a financial plan for all funds for the year. It shall contain a general summary, detailed estimates of all anticipated revenues and expenditures, and detailed use of any funds appropriated from the accumulated fund balance for each fund.

The City budgets capital projects on a project-length basis. The initial project budget is determined when the Capital Improvement Program (CIP) is adopted. When additional appropriations are requested, the city council approves any modifications to increase the appropriation for a project.

The CIP is a five-year plan to acquire, develop, and/or improve the City's infrastructure. The projects included in the CIP are prioritized, and the means for financing each shall be identified when the Council approves the program. The first year of the CIP is considered the capital budget, which becomes the basis for the City's debt issuance. The City Council, upon advice from the City's financial advisor, may consider incurring debt to fund multiple years of the CIP.

Operating revenue is used to fund capital projects when and where applicable. Projects that are part of the CIP also utilize bond proceeds. Bond proceeds for capital projects are accounted for annually and over the project's life. Any unspent project appropriations for the designated project are returned to the bond fund contingency account and re-appropriated to new projects annually when the CIP is updated yearly. These funds become the "B" prior issues funding source defined in the CIP. In addition, other funding sources, such as grants and additional funding from other governments, are utilized annually to fund specific CIP projects.

Budget Transfer Policies

With approval by the City Manager, the Budget Officer may transfer any unencumbered appropriation balance or portion thereof between general classifications of expenditures within an office, department, or agency. Notwithstanding the specific number of full- and part-time employees identified in any budget, the City Manager may authorize hiring additional replacement employees to replace an existing employee to assist in cross-training for maintaining the continuity of city services. The City Manager's authority to allow the hiring of additional replacement employees is limited to 30 days, and the existing approved budget is sufficient to cover the additional replacement employee cost. Upon the recommendation of the City Manager, the City Council may authorize the transfer of any unencumbered appropriation balance or portion thereof from one office, department, or agency to another.

Appropriations Lapse at End of Year

All appropriations shall lapse at the end of the budget year to the extent that they shall not have been expended or lawfully encumbered.

Supplemental Appropriations

At any time in any budget year, the governing body may, under this Section, make supplemental appropriations to meet a pressing need for public expenditure. Such appropriation shall be adopted by the favorable votes of at least a majority of the City Council. The total amount of all such appropriations made in any budget year shall not exceed the sum of unanticipated actual revenue in excess of the budget estimates, plus transfers from other appropriations and the fund balance.

(Naperville, Illinois, Municipal Code, Ord. 74-30, 4-29-1974; Ord. No. 14-024, § 1, 3-18-2014)

Reserve Policies

Reserve policies must be set that provide adequate protection for the future. The City Council has set General Fund Reserves at 20% of the approved budget appropriations. Effective April 15, 2003, each Utility Fund maintains a reserve equal to 30 days of operating expenditures, excluding capital and debt service payments.

DEBT MANAGEMENT POLICIES

The City of Naperville faces continuing capital infrastructure requirements to meet the increasing needs of its citizens. The costs of these requirements will be partially satisfied by issuing various types of debt instruments. In January 1993, the City of Naperville adopted a formal debt management policy. The purpose of this policy is to provide a functional tool for debt management and capital planning and to enhance the City's reputation for conservatively managing the debt. The City's Financial Advisory Board reviews the policy every three years. The policy was amended in 1997, 2008, 2010, and most recently in September 2013 to include revenue bonds, conduit financing, and American Recovery and Reinvestment Account financing vehicles. Per this policy, the City shall pursue the following goals:

- Maintain an AAA credit rating for each general obligation debt issue and an Aa2 credit rating for each revenue bond debt issue.
- Take all practical precautions to avoid any financial decision that will negatively impact current credit ratings on existing or future debt issues.
- Effectively utilize debt capacity in relation to City growth and tax burden to meet long-term capital requirements.
- Consider market timing.
- Determine the amortization (maturity) schedule that best fits the overall debt structure of the City's general obligation debt and related tax levy when the new debt is issued. For the issuance of revenue bonds, the amortization schedule that best fits the enterprise fund's overall debt structure and related rate structure will be considered. Consideration will be given to coordinating the length of the issue with the lives of assets, whenever practicable, while considering repair and replacement costs of those assets to be incurred in future years as an offset to the useful lives and the related length of time in the payout structure.
- Consider the impact of such new debt on overlapping debt and the financing plan of local governments, which overlap or underlie the City.

- Assess financial alternatives to include, whenever feasible, categorical grants, revolving loans, or other state/federal aid.
- Minimize debt interest costs.

INVESTMENT POLICIES

The City's investment policy - adopted in August 1996 - applies to the cash management and investment activities of the City of Naperville. The policy is reviewed by the Financial Advisory Board every three years and updated as needed.

The primary objectives of the City's investment activities are the preservation of capital and liquidity, maximizing investment income, and conforming to all state and local statutes governing the investment of public funds. The City Council delegated the responsibility for managing the City's investment portfolio to the Director of Finance.

The City seeks to ensure the preservation of capital in the overall portfolio. The objective is to mitigate credit risk and interest rate risk. The City will minimize credit risk by investing City assets in the safest types of securities; pre-qualifying the financial institutions, brokers, intermediaries, and advisers with whom the City does business; and via security diversification. The City minimizes interest rate risk by structuring the investment portfolio so that securities mature to meet cash requirements for ongoing operations and by investing operating funds primarily in shorter-term securities. In addition, the investment portfolio is to remain liquid to meet all operating requirements that may be reasonably anticipated. This is accomplished by structuring the portfolio so securities mature concurrently with cash needs to meet anticipated demands.

Except for the police and fire pension funds or other financial assets bound by separate governance documents held by various fiscal agents and trustees, all city funds shall be administered following the provisions of this policy. The police and fire pension funds or other financial assets bound by separate governance documents held by fiscal agents and trustees shall be administered according to the contractual and statutory requirements of the respective funds.

REVENUES BY MAJOR FUND CATEGORY

Total citywide revenues from all sources are budgeted at \$656.07 million for 2026. Most revenues are dedicated to the General and Utility Funds, which comprise 77% of total revenues. Overall, 2026 revenues are increasing by 6.2% from the 2025 budget.

EXPENSES BY MAJOR FUND CATEGORY

Total citywide expenditures, including all Maintenance and Operating Funds, Special Funds, and Capital and Debt Service Funds, total \$685.13 million in 2026. Overall, the 2026 budget appropriations are 6.8% greater than the 2025 budget.

CITYWIDE REVENUES BY SOURCE

Charges for electricity, water, and wastewater account for 40% of citywide revenues. Electric charges make up the largest portion at \$162.56 million. Water and wastewater charges are projected at \$97.14 million. Taxes comprise the next largest portion of revenue projections, with state-shared taxes totaling \$93.63 million and property taxes at \$62.10 million.

CITYWIDE EXPENSES BY TYPE

Most expenses are related to purchased power and water, as well as personnel costs. These expense categories total \$341.63 million, or 50% of the total budget.

Notes to Change in Balance:

- 1 Decrease due to use of fund balance for current year capital expenditures
- 2 Decrease due to use of fund balance for current year operating expenses
- 3 Increase due to current year revenues for use in future years
- 4 Pay down of existing due to/due from General Fund

CITY OVERVIEW

26

WELCOME TO NAPERVILLE

A STORY 194 YEARS IN THE MAKING.

The City of Naperville was founded by Captain Joseph Naper in 1831 and has a historic past as the oldest settlement and original county seat of DuPage County. The Village of Naperville was incorporated in 1857 with Captain Naper as its first president. In 1890, Naperville incorporated as a City, operated under the commission form of government beginning in 1912, and adopted the Council-Manager form of government in 1969 due to a court-ordered special election.

NAPERVILLE 2027

INVESTING IN OUR COMMUNITY PRIORITIES

BRINGING OUR VISION & VALUES TO LIFE.

21 TO 23

In 2021, the City underwent a strategic priority planning process to ensure that its organizational focus aligned with the community's priorities. These priorities would guide the City's goals and objectives through 2023 and serve as a foundation for the budget process.

With community input, City leaders created priorities in five categories, including financial stability, housing choice, infrastructure and utilities, public safety, and sustainability. These priorities also served as a foundation for annual budget discussions. Much was accomplished during this three-year period, and the stage was set for ongoing and long-term progress in these areas.

24 TO 27

While the same vision and values behind the Bridge to 2023 Priorities Plan continue to guide the organization, a 2023 community survey provided an updated look at community sentiment about valued services and community amenities. The results of the survey were overwhelmingly positive, with at least 95% of residents reporting a favorable impression of the overall quality of life in Naperville and 94% approving of opportunities for education, arts, and culture in the city.

Drawing on these most recent survey results, the City has redefined its goals to target future improvements toward those areas that are of the highest value and importance to residents. These focus areas include utilities, safety, economy, mobility, and natural environment and community design. Targeted goals in these areas will be accomplished over two to five years. Regular reporting will occur at City Council meetings to provide goal updates.

ECONOMY

ENVIRONMENT &
COMMUNITY DESIGN

SAFETY

UTILITIES

ECONOMY

PROMOTE DEVELOPMENT OF THE LOCAL ECONOMY AND BE A GOOD STEWARD OF
CITY TAX REVENUES

GOALS

- 1 In order to maintain financial resilience and sustainability, the City will evaluate overall revenue diversification by Dec. 31, 2026.
- 2 In order to facilitate the development of the I-88 Corridor to best meet the needs of current and future Naperville residents, the City will provide support to I-88 corporate representatives, real estate development professionals, and the Naperville Development Partnership (NDP) in the creation and implementation of an I-88 Tollway Study.

PERFORMANCE MEASURES

Associated Goal	Action Item	Timeframe	Current Status
1	Evaluate electric, water & wastewater utility rates and recommend rates to support operating & capital needs	Q4 2024	Completed with the 2025-2027 rate studies.
1	Assess impact of Grocery Tax repeal & evaluate revenue replacement options	Q2 2025	Completed with September 2025 approval by the City Council to adopt a local replacement for the grocery tax.
1	Evaluate General Fund revenues & establish guidelines to ensure long-term diversification of revenues	2025	Ongoing as part of the 2026 budget process. Staff has analyzed several revenue sources & identified issues that are being addressed or need to be addressed. This includes certain fees that have not been re-evaluated in several years.
1	Assess impact of motor fuel tax decline & evaluate revenue replacement options in coordination with IDOT	2026	Pending action at the state level.
2	Provide support in the creation & implementation of an I-88 study	2025 & beyond	- Two-pronged approach includes business retention & attraction. - May 2025: report released with an economic development strategy to support growth and future planning in the I-88 corridor.

OPERATING PROCEDURES

MOBILITY

RESIDENTS CAN MOVE ABOUT THE COMMUNITY WITH EASE
IN A VARIETY OF MODES

GOALS

- 1 In order to appropriately scale transit service in Naperville, the City will establish transit priorities and advocate in upcoming regional transit reform & funding processes.
- 2 In order to improve traffic flow on major streets, the City will complete an update to the Road Improvement Plan by Dec. 31, 2025.
- 3 In order to improve the ease of walking & travel by bicycle, the City will complete an update to the Bicycle and Pedestrian Plan by Dec. 31, 2026.

PERFORMANCE MEASURES

Associated Goal	Action Item	Timeframe	Current Status
1	Advocated for fair governance and sustainable funding sources in transit deliberations	2025	• Transit advocacy through partner organizations and discussions with legislators representing Naperville
2	Complete an update to the Road Improvement Plan	Q4 2025	• More than 500 comments received from the public at the beginning of 2025. • Presented existing conditions & public comment overview to the Transportation Advisory Board. • Draft plan created & includes 15 intersection improvements & five road widening/extension/modifications. • Transportation Advisory Board recommended plan approval in September 2025; will be presented for City Council approval at an upcoming meeting.
3	Complete an update to the Bicycle and Pedestrian Plan	Q4 2026	• Consultant chosen in summer 2025. • Fall/winter 2025: public engagement begins (a portion of public feedback obtained as part of the Road Improvement Plan). • Final approval on track for 2026.

NATURAL ENVIRONMENT & COMMUNITY DESIGN

ENSURE A WELL-DESIGNED COMMUNITY THAT VALUES THE NATURAL ENVIRONMENT

GOALS

- 1 In order to maintain the Riverwalk's cultural, environmental and economic impact, the City and its community partners will implement the Riverwalk 2031 Master Plan.
- 2 In order to improve water quality and develop sustainable green infrastructure, the City will establish and measure the impacts of the Native Vegetation Management Program through 2028.
- 3 In order to further engage the community in preserving the environment, the City will increase the marketing of opportunities for residents and businesses to actively participate in conservation and environmental sustainability initiatives.

PERFORMANCE MEASURES

Associated Goal	Action Item	Timeframe	Current Status
1	Implement the Riverwalk 2031 Master Plan	Through 2031	• Eagle Street Gateway completed in Q4 2025. • Riverbank stabilization/native planting projects completed by the Naperville Park District. • 2031 Master Plan document being updated. • Planned for 2026: 430 S. Washington St. Park. • Planned for 2027: South extension of the Riverwalk from Hillside Road to Martin Avenue.
2	Establish and measure impacts of a Native Vegetation Management Program	Through 2028	• 6 City-owned sites (23 total acres) with existing native vegetation prepped in 2024 & 2025. • 13 additional sites evaluated & one additional site added in 2025. Two sites planned for 2026. • Long-term maintenance plans developed & budgeted. • Educational signs created to raise awareness.
3	Increase opportunities for the community to participate in conservation & sustainability initiatives	Through life span of Priorities Plan & beyond	• Renewable Energy Program: 156 awards, \$234,328 • IMEA Energy Efficiency: 336 residential & commercial awards, \$309,765 • Electric Lawn Equipment Incentive: 186 of 200 • Conservation @ Home: 40 certifications in 2024 & 2025, 124 site assessments as of Sept. 2025 • Food scrap composting pilot in summer 2025: 286 65-gallon carts collected; extension to end of year • Clothing/textile recycling pilot in summer 2025: 26,800 lbs. of material collected; now permanent

COMPLETE - PART OF OPERATING PROCEDURES

SAFETY

PROVIDE A SAFE AND SECURE COMMUNITY FOR ALL NAPERVILLE RESIDENTS AND BUSINESSES

GOALS

- 1 In order to maintain the highest quality public safety departments while in a nationwide hiring shortage, the city will identify opportunities to expand the recruitment pool and enhance the flexibility in the Police and Fire hiring process.
- 2 In order to improve disaster mitigation, preparedness, response and recovery, the City will create a multi-year Emergency Management and implementation plan by June 30, 2025.
- 3 In order to increase community involvement, partnership and awareness in crime prevention and overall public safety, the City will provide at least eight public safety education and community engagement opportunities annually.

PERFORMANCE MEASURES

Associated Goal	Action Item	Timeframe	Current Status
1	Identify additional recruitment methods & marketing opportunities for Public Safety hiring. Review and pilot two tactics.	Q4 2025	- Targeted recruitment approach by focusing on local opportunities with community colleges & universities. - Working with Naperville North and Central students on ways to promote police and fire cadet programs and introduce students to career opportunities in public safety.
1	Identify opportunities to increase the applicant pool by examining the hiring requirements for entry-level public safety positions	Q4 2026	- Added route for pre-hospital RNs to test and become paramedics. Three RNs included in the spring 2025 fire academy (50% of participants) successfully passed the academy. - Changed the requirement for police applications to 20, with appointment age at 21.
1	Assess the efficiency of the Board of Fire and Police Commission processes and update rules and regulations as necessary	2026	- Evaluating current rules and regulation to determine if necessary and/or could be achieved by other methods, such as standard rule. - Created & communicated quarterly testing calendar to ensure commissioner availability on established test dates.

COMPLETE - PART OF OPERATING PROCEDURES

PERFORMANCE MEASURES (CONT.)

Associated Goal	Action Item	Timeframe	Current Status
2	Create a multi-year Emergency Management and implementation plan	Q4 2025	- Currently working toward this item, including: - Recruitment for a new Emergency Manager. - Working with the Water Utilities to share the South Water Facility space for Emergency Management Agency (EMA) storage, deployment & training. - City leadership participating in emergency management & preparedness training.
3	Provide at least eight public safety education and community engagement opportunities annually	2025 (and each year after)	- Engagement opportunities provided in different formats, including virtual, in-person, presentations, and interactive sessions. VIRTUAL - webinars on the latest scams impacting Naperville residents & how to protect themselves, traffic safety, and safety on college campuses. A holiday safety presentation is planned before the end of 2025. IN-PERSON PRESENTATIONS - home fire prevention INTERACTIVE EVENTS - spring & fall Citizen Police Academy & fall Citizen Fire Academy, annual Public Safety Open House, National Night Out (39 neighborhoods), Public Safety Open House

 NOT STARTED/DEPENDENT ON ANOTHER ENTITY'S ACTIONS

 IN PROGRESS

 COMPLETE - PART OF OPERATING PROCEDURES

UTILITIES

PROVIDE INFRASTRUCTURE, ELECTRIC SERVICE, AND WATER/WASTEWATER SERVICES THAT ARE RELIABLE AND SAFE

GOALS

- 1 In order to ensure the reliable delivery of power beyond 2035, the Electric Utility will publicly evaluate the City's option to procure energy and associated services.
- 2 In order to protect the health and welfare of our customers and meet regulatory requirements, the Water Utilities will complete upgrades and expansion of the Springbrook Water Reclamation Center and lead service line removals by 2030.
- 3 In order to preserve water resources and mitigate unnecessary rate increases, the Water Utilities will work to reduce non-revenue water by 2.5% of purchased water by Dec. 2027.

PERFORMANCE MEASURES

Associated Goal	Action Item	Timeframe	Current Status
1	Publicly evaluate energy procurement options for after the City's current contract with IMEA ends in 2035	2025 and beyond	• Public meetings & workshops in 2025 discussing renewal contract w/current provider. • City Council declined to sign proposed contract & directed staff to negotiate 9 points with IMEA. • RFP for renewable energy drafted & brought to Council in September 2025.
2	Continue & complete upgrades and expansion of Springbrook by 2030	2030	• Items completed: UV disinfection (2024) • Items in progress: Influent pump station & South Plant force main (2025), South Plant return activated sludge/grit removal improvements (2026), South Plant upgrades (2027) • Items still to begin: Nutrient removal & North Plant aeration improvements (bidding/construction 2026), Cloth media disc filters (engineering 2026)
2	Complete lead service line removals	2030	• 87 lead services replaced in 2024, 63 to date in 2025 • 205 lead services remain. • City formally submitting for a \$3M no-interest IEPA loan that would allow Naperville to complete all replacements next year.
3	Reduce non-revenue water by 2.5% of purchased water	Q4 2027	• 1.5% reduction in 5-year rolling average for non-revenue water, as reported for 2023-2024 water year. • Spring 2025 leak detection survey results: 22 leaks found w/over 42M gallons of water loss. Saw a return on investment for the survey in approx. 70 days.

OVERVIEW OF THE
MAINTENANCE
& OPERATING
FUNDS

26

26 GENERAL FUND ...

The General Fund is the City of Naperville's primary operating fund. It accounts for resources used to pay for services traditionally associated with local government, including police and fire protection, public works, transportation, engineering, and development. Support services such as legal and financial services, information technology, human resources, community services, and communications are funded primarily through the General Fund.

Revenues in the General Fund come from various sources, including a variety of taxes: property, sales, income, real estate transfer, and utility. Dollars are also generated from charges for services like ambulance services, licenses, permits, fees, and other miscellaneous revenues. Although revenue diversification is a key principle across all City funds, Naperville's General Fund has a wider range of revenue sources than most other funds. This is important because the fund includes several sources that are more vulnerable to economic fluctuations. Stable sources like property tax help balance fluctuations in other revenue streams.

REVENUES

The General Fund is expected to generate revenues of \$173.9 million, representing a 4.4% increase over the previous year. The following is a review of the primary revenue sources.

LOCAL TAXES - OVERALL INCREASE OF \$11.9 MILLION, OR 22.3% ...

Municipal Grocery Tax

The State of Illinois traditionally imposed and collected a 6.25% sales tax on general merchandise and a 1% sales tax on qualifying food, drug, and medical appliances. The 1% sales tax is informally known as a "grocery tax" because it is charged on food traditionally purchased at a grocery store to take home, prepare, and consume.

In 2024, as part of the Fiscal Year 2025 state budget, the governor of Illinois signed a bill into law eliminating the grocery tax on qualifying food items effective Jan. 1, 2026. The legislation also allowed municipalities to implement their own 1% local grocery tax, essentially serving as a one-for-one replacement for the otherwise lost tax revenue.

The City's share of state grocery tax revenues was estimated at nearly \$6.5 million, with these dollars historically funding essential City services like public safety and public works. Following the recommendation of the Financial Advisory Board and City staff, in September 2025, Naperville's City Council approved the implementation of a 1% municipal grocery tax as a replacement for the state's grocery tax. The local tax will begin being collected on Jan. 1, 2026, to prevent any gaps in revenue. This replacement tax is expected to generate \$6.5 million, the same amount as the current state tax, in 2026.

Property Tax

In Naperville, property taxes primarily fund the City's long-term obligations, such as public safety and IMRF pensions, as well as debt service payments. This tax also covers a small portion of the City's general operational expenses and is the primary funding source for the Naperville Public Library and Naper Settlement operations.

Annual property tax collections consistently exceed 99% of the total amount levied and have rarely dipped below that mark, even during economic downturns, making this Naperville's most stable revenue source. The General Fund portion of property taxes for 2026 is estimated at \$31.85 million, a 4.9% increase from 2025.

Real Estate Transfer Tax

The City levies \$1.50 per \$500 on property sales. Real estate transfer tax data shows that commercial and residential sales volume has remained consistent for the past two years. Though higher mortgage rates have slowed the real estate market, interest rates are expected to decrease in late 2025 and into 2026, which should result in improved sales activity. The 2026 real estate transfer tax revenue is estimated at \$5.0 million, a slight increase of \$376,000 from the 2025 budget.

Utility Taxes

Utility taxes are levied on the use and consumption of electricity, natural gas, and water utilities. Revenues are projected to rise by 23.9%, or \$3.63 million, in 2026. This notable percentage is largely due to a one-time Electric Tax rate correction affecting commercial electric customers, which is expected to generate about \$2.08 million. Nicor's Natural Gas Tax is also forecasted to increase by \$1.0 million. Taxes in this category mainly depend on consumption and prices, so changes in prices and usage patterns directly impact revenue in this sector.

STATE-SHARED TAXES – OVERALL DECREASE OF \$4.98 MILLION, OR 5.8%

Retail Sales Tax

The City's portion of retail sales tax, collected and remitted by the state, is estimated to decrease by 3.5% next year to \$52.44 million. Development incentive rebates will further reduce revenues by \$275,930 in 2026 for a net revenue of \$52.16 million.

Legislative actions at the state level contribute to the projected decrease in this category; however, this is offset by the reclassification of sales tax revenue to another revenue stream. The state's 2026 elimination of its 1% grocery tax, which amounts to \$6.5 million in state-shared revenues for Naperville, will be offset by the City's 1% Municipal Grocery Tax that takes effect on Jan. 1, 2026. Since the Municipal Grocery Tax is considered a local tax, its revenues will now be recorded in that category, with no overall change to total General Fund revenues.

After accounting for the reclassification of grocery tax revenue, overall sales tax is projected to increase by 2.5%.

State Income Tax

State income tax revenues shared through the Local Government Distributive Fund (LGDF) are estimated to increase to \$26.95 million, or 2.0% higher than in 2025. The LGDF plays a crucial role in keeping local taxes low and assists in providing essential services to Naperville residents, businesses, and visitors. Low unemployment and strong corporate profits continue to fuel growth in this area. The municipal share remains at 6.47%.

Use Tax

A use tax is imposed in Illinois on the privilege of using any item of tangible personal property purchased at retail, regardless of location. The state maintains a 6.25% use tax rate, which is redistributed to municipalities on a population basis. Recent legislation changes have impacted how online sales are taxed, resulting in a significant decline in use tax in 2025, offset by gains in sales tax revenue. In 2026, use tax is projected at \$559,280, an 85.5% decline from the 2025 budget.

CHARGES FOR SERVICE – OVERALL DECREASE OF \$71,480, OR LESS THAN 1%

...

Ambulance Fees

Ambulance fees, the largest contributing revenue source in this category, are budgeted at \$9.3 million for 2026, reflecting a slight increase of \$100,000. The Fire Department will pilot an in-house ambulance billing program, which is expected to generate additional revenue compared to the current third-party vendor's handling of this program.

Other Charges

Other charges for service will increase slightly, for a total budget of \$2.45 million. This is due to increased Police Department service charges related to school resource officers and special event services.

FINES AND OTHER FEES – OVERALL INCREASE OF \$441,175, OR 30.5%

...

Fines

Public safety fines and ordinance violations are budgeted at \$1.23 million for 2026, an increase of \$160,000, or 14.9%, from the 2025 budget. This is due to adjustments made when looking at trends in revenue relating to false alarms and parking violations.

Service Fees

The service fee category includes revenue generated from engineering, entitlement, and plan reviews. Service fee revenue is projected to increase \$260,000, or 136.8%. Engineering and plan review fees have increased \$150,000 and \$75,000, respectively, due to anticipated development activity.

LICENSES AND PERMITS – OVERALL INCREASE OF \$155,325, OR 7.2%

...

Permit Fees

Commercial permit fees are estimated to increase by \$225,000, or 33.3%, while residential permit fees will remain flat at \$710,000. These estimates are based on anticipated development activity.

Business Licenses

Business-related licenses, such as liquor, tobacco, and those for local contractors, are projected at \$687,325 in 2026, a 7.7% decrease from 2025. The decline is attributed to the Municipal Code change that no longer requires applicable employees to receive state-mandated Beverage Alcohol Sellers and Servers Education and Training (BASSET) certification through the City.

EXPENSES

General Fund expenditures total \$173.83 million, an increase of \$7.40 million, or 4.5%, above the 2025 budget. Significant changes to spending are noted below.

SALARIES AND WAGES – OVERALL INCREASE OF \$5.48 MILLION, OR 6.1%

Salaries and Benefits

The 2026 budget does not include any new personnel requests. Salaries are budgeted at \$95.41 million, reflecting a 6.1% increase from the previous year. This increase reflects all negotiated increases for union employees, a 3.0% cost-of-living adjustment, and a 1% merit increase for non-union employees. The budget also reflects \$185,000 for non-union wage adjustments as identified in the 2025 compensation and classification study.

Overall, benefits and related expenditures will increase by \$2.94 million, or 7.6%, primarily due to an 18.5% increase in medical plan premiums. Insurance premium costs are split between the City and employees; the employee contribution is capped at 15% and the City's contribution absorbs the remaining cost. As a result, employer contributions to the City's medical plans increased by \$1.78 million to account for the remaining increase.

Related Expenses

For 2026, IMRF contributions will increase by \$318,665, or 14.3%, as a result of the IMRF rate increase from 7.06% to 7.80%. The required contribution to the Police and Fire pensions also increases by \$105,000. The General Fund continues to support these full contributions with additional contributions made by the Food & Beverage Fund.

PURCHASED SERVICES – OVERALL INCREASE OF \$199,755, OR 1.0%

Contractual Services

Contractual services are increasing by \$434,900, or 2.4%. The increases are most significant in Public Works' contracts related to snow removal, street light maintenance, tree trimming, and other contracted services.

Architectural & Engineering Services

Architectural and engineering services are declining by \$121,000, or 25.6%, below the 2025 budget. This decrease results from a reduction in long-range roadway improvements as most of the services to update the Roadway Improvement Plan were completed in 2025. Bridge program management expenses were also reduced based on scheduled inspections.

Equipment Maintenance

Equipment maintenance costs are decreasing by \$634,771, which is 29.1% below the 2025 budget. A reduction in citywide radio maintenance, thanks to onboarding Naperville's new radio system, primarily drives this decrease. The first three years of annual maintenance were included in the initial capital cost; however, the City will need to plan for that expense to resume in 2029.

Software and Hardware Maintenance

Software and hardware maintenance expenses will increase by \$735,645, or 12.1%. This increase includes technology services related to the Police Department's real-time information center and increased maintenance costs related to various IT software licenses. Licenses for Adobe Acrobat products were also consolidated in Information Technology's budget in 2026.

Other Contractual Services

In the other contractual services category, HR services decrease by \$57,765, or 9.3%, primarily related to a reduction in temporary staffing support in these areas.

Other Purchased Service costs are decreasing by \$235,145, or 9.8%. The decrease is related to administrative fees related to credit card processing and ambulance billing fees, as well as reduced education and training costs across various City departments.

PURCHASED ITEMS – OVERALL DECREASE OF \$89,445, OR LESS THAN 1%

...

The decrease in purchased items is mainly attributed to a \$178,670, or 4.8%, decrease in operating supplies, primarily in the public safety and public works areas. Revenues and expenses associated with refuse carts were moved from the General Fund to the Solid Waste Fund. Additionally, Police and Fire reduced uniforms, protective gear, and equipment by \$119,380. Fuel for the City fleet was also reduced by \$91,000, or 5.3%, based on forecasted prices and usage.

Offsetting these reductions, the City's utilities expenses increased \$146,370, or 6.1%, related to electric, water and sewer, natural gas, and telephone costs.

GRANTS & CONTRIBUTIONS – OVERALL DECREASE OF \$5,000, OR LESS THAN 1%

...

Contributions to outside entities that provide ancillary city services remain consistent from the prior budget year.

INTERFUND TRANSFERS – OVERALL DECREASE OF \$1.14 MILLION, OR 24.2%

...

The decrease in 2026 interfund transfers is related to the elimination of the General Fund's \$1 million transfer to the Self-Insurance Fund for pending litigation. The Self-Insurance Fund includes all workers' compensation settlements, general liability, and associated legal services for claims. For the past few years, the City has transferred additional funds into the Self-Insurance Fund to account for anticipated expenses associated with several cases that were recently resolved.

Other expenses in this category include the two-thirds City share of maintenance costs for the Downtown Maintenance & Marketing Fund (Special Service Area 36), which totals \$1.5 million.

26 ELECTRIC UTILITY FUND ...

Naperville owns and operates its own public Electric Utility, serving approximately 64,000 customers and focusing on proactive asset maintenance to help ensure reliability. Sustainability is a key part of its efforts, including offering customers an optional Renewable Energy Program and a utility dashboard to monitor their energy use patterns.

The utility's most significant cost is the electricity it purchases for its customers. In 2007, Naperville entered into a contract with the Illinois Municipal Electric Agency (IMEA), a not-for-profit organization, to supply the City with energy and services through Sept. 30, 2035. The IMEA was formed in 1984 and provides energy and services to 32 municipalities throughout the State of Illinois. The City's goal for this long-term procurement was to provide stable energy prices to the City and reduce potential risk from the future power market. A diversified portfolio shields the City and other IMEA members from some of this market volatility. However, many factors, including weather, natural gas prices, government regulation, electric usage patterns, alternative energy, and the overall energy market, influence the energy cost in our region.

The Electric Utility Fund accounts for all revenues and expenses of the Electric Utility, including capital costs.

2025 – 2027 ELECTRIC RATES

Naperville's Electric Utility reviews rates every three years to match charges with service costs. In 2024, the utility partnered with Utility Financial Solutions (UFS) to establish appropriate rates starting in 2025 that will support the utility's service and improvement plans through 2027.

Current trends influence how rates are set for the future. Since 2021, the utility has seen lower-than-expected energy sales as more customers use energy-efficient appliances and install solar panels in their homes and businesses. Regardless of electricity usage levels, Naperville's electric system and equipment demands stay constant. Reliable service depends on having the appropriate financial resources to maintain the system, repair or replace equipment, and invest in new technologies.

The lingering effects of the COVID pandemic have also affected the utility industry. Long lead times of up to three years, instead of weeks, to order and receive transformers, cables, and switches have required the utility to keep more items on hand at higher costs to ensure availability when needed.

Finally, cables and equipment installed during Naperville's high-growth decades of the 1980s and 1990s are beginning to reach the end of their usable life. To reduce power outages, more resources must be spent replacing those items. The utility must balance this maintenance with newer projects, such as burying the City's remaining overhead electric lines.

Considering these factors, the 2024 rate study proposed average rate increases of 6.5% in 2025 and 5.1% in 2026 and 2027.

REVENUES

The 2026 budgeted revenues for the Electric Utility total \$177.84 million. This is an increase of \$11.41 million, or 6.9%, from the 2025 budget. The following is a review of the primary revenue sources.

Electric Charges

Electric charges make up most of the utility's revenue at 91%, or \$162.27 million. Charges include electric charges for general services, residential, small and large commercial, transmission, and metered lighting. The estimated increase is approximately \$7.81 million, or 5.1% more than the 2025 budget, and aligns with revenue projected in the rate study.

Fees

This revenue source includes installation fees for new developments and electrical upgrades. Other budgeted fees cover reimbursed capital work related to new developments, such as the Polo Club. Installation fees are projected to increase by \$925,000, or 30%. A substantial increase is expected for new service installation fees in 2026. However, if any of this work is delayed or not completed, these revenues would not be realized in 2026, nor would the associated expenses.

Bond Proceeds

The 2026 budget includes \$10 million for bond proceeds within the Electric Utility Fund. This new debt would be issued in 2026 to help fund capital investments within the utility. This money will be borrowed on a reimbursement basis, so if the level of capital investment in 2026 is less than anticipated, the full \$10 million might not be bonded.

Other Revenues

The remaining revenue sources include charges for service, interest and investment income, rents and royalties, and other reimbursements. These revenues total approximately \$1.13 million, an increase of \$187,654, or 20%, from 2025. This is primarily attributed to anticipating receipt of a grant for roughly \$700,000 in 2026.

EXPENSES

The 2026 budgeted expenses for the Electric Utility Fund total \$177.31 million, an increase of \$10.46 million, or 6.3%. Significant expenses are as follows.

Salaries and Benefits

Salaries are budgeted at \$17.68 million, reflecting a 10.3% increase from the previous year. This increase reflects all negotiated increases for union employees, a 3.0% cost-of-living adjustment, and a 1% merit increase for non-union employees. The budget also reflects \$47,000 for non-union wage adjustments as identified in the 2025 compensation and classification study. Benefits are increasing by \$786,407, or 17.5% above 2025, mainly attributable to a significant rate increase across all medical plans.

Purchased Services

This category has an increase of \$317,290, or 3.8%. Increases across the Architect and Engineering Services and the Building and Ground Maintenance space primarily drive the increase. The proposed Purchased Service budget across the Electric Utility Fund largely aligns with the need to continue substation and relay maintenance.

Purchased Items

Purchased items increase slightly by \$39,110, or 2.0%. The increase in the budget for Equipment and Parts primarily drives the increase. As costs rise and delayed items and equipment start to arrive, the expenses in this category are expected to increase.

Capital Outlay

The total planned capital outlay in 2026 is \$27.74 million, a decrease of \$2.52 million, or 8.3%. The main driver of this reduction is an effort to stabilize the utility's cash balance. However, major investments are still anticipated in 2026, including \$6.32 million for the tollway substation upgrade, \$3.75 million for cable replacement, and \$1.22 million for substation emergency repair and replacement item purchases.

Debt Service

Based on the current debt schedule, debt payments will decrease in 2026. The total outstanding debt is \$18.85 million and is scheduled to be paid off in 2045. The 2026 budget includes issuing up to \$10 million in new debt for capital improvements.

Purchased Electricity

This is the largest line item in the utility's budget, accounting for 63% of total expenses. The cost for 2026 is expected to total \$112.40 million, an increase of 10.5% compared to the 2025 budget. The 2026 budget for Purchased Electricity allows this budget to align more with the actual expenses experienced in recent years.

Interfund Transfer

Internal services include technology and replacement costs, vehicle maintenance, and a portion of the City's general liability. These expenses will decrease by \$16,668 in 2026, or 1.2%.

26 WATER & WASTEWATER FUND ...

Naperville's Water & Wastewater Utility (referred to in this document as the Water Utilities) is one of Illinois's largest combined utility systems. The City of Naperville provides water to over 45,478 customers, wastewater services to more than 44,101 customers, and serves an overall population of more than 150,000. The City's water supply is sourced from Lake Michigan via the Jardine Water Purification Plant and purchased through the DuPage Water Commission. Naperville previously provided water through a network of 25 underground wells; eight remain in service for emergency standby use.

The utility takes pride in providing safe, reliable, and cost-effective water and wastewater services, while fully adhering to all water quality standards outlined in the Safe Drinking Water Act. Water supplied by the City meets all standards set by the Illinois Department of Public Health (IDPH), the United States Environmental Protection Agency (USEPA), and the Illinois Environmental Protection Agency (IEPA).

All financial activities for the utility are processed through the Water and Wastewater Utilities Fund.

2025 – 2027 WATER/WASTEWATER RATES

The Water Utilities conducts rate studies on a three-year cycle to ensure charges align with service costs. Carollo FMG, a third-party consultant, conducted a rate study in the summer of 2024 to determine the appropriate rates to charge in 2025 to support Water's service and improvement plans in 2027.

The Water Utilities are in the middle of several major infrastructure projects that influenced this rate study. Over the coming years, the upgrade program for water and wastewater systems will expand significantly due to regulatory demands and the aging of the utility's infrastructure. The data supporting these needs was collected through a 2020 asset assessment of the water distribution network, which revealed that the City is over 50 miles behind on water main replacements. Although replacement efforts have increased from one mile to three miles of pipe annually, they still fall short of recommended levels. Ongoing initiatives aim to boost the water main replacement rate to reduce breaks and service interruptions.

In addition, a 2021 asset evaluation of the Springbrook water treatment plant identified several now-underway improvements necessary to meet new mandated environmental standards and capacity expansion. This is the largest capital improvement project in the City's history and will continue until 2030.

The 2026 budget requests are built against the rate structure the study recommended. In conjunction with this rate study, a fund review showed that accounting efficiencies could be realized and interfund transfers could be minimized by moving away from a separate capital fund for the Water Utilities. As of Dec. 31, 2024, the Water Capital Fund has been retired, and all financial activities required to support the Water Utilities have been budgeted within the Water & Wastewater Utility Fund itself.

REVENUES

The 2026 budgeted revenues for the Water Utilities total \$151.21 million, an increase of \$27.97 million over the 2025 budget. Primary revenue sources are noted below.

Water Charges

Water charges comprise 40.9% of the Water Utilities' revenues, totaling \$61.88 million. The estimated increase is approximately \$5.06 million more than the 2025 budget. This aligns with the recommendations outlined in the 2024 rate study and includes all capital-related charges, which are budgeted at \$1.20 million.

Wastewater Charges

Wastewater charges make up 21.9% of the Water Utilities' revenues, totaling \$33.16 million. This increase is approximately 8.4% more than the 2025 budget. The majority of increases are tied to commercial and residential customer charges, which align with the rate study recommendations.

Bond Proceeds

Bond proceeds account for 31.7% of the Water Utilities' revenues, totaling \$48.00 million. This new debt will be issued in 2026 to help fund capital investments within the utility. The money is borrowed on a reimbursement basis, so if the level of capital investment does not meet the budget, the full amount may not be bonded.

EXPENSES

The 2026 budgeted expenses for this fund total \$162.21 million. The following is a review of significant costs.

Salaries and Benefits

Salaries will increase by \$694,339, or 6.6%. This increase reflects all negotiated increases for union employees, a 3.0% cost-of-living adjustment, and a 1% merit increase for non-union employees. The budget also reflects \$76,000 for non-union wage adjustments as identified in the 2025 compensation and classification study. Benefits are increasing by \$554,925, or 16.4%, mainly attributable to a significant rate increase across all medical plans.

Purchased Services

Purchased services are increasing by \$1.79 million, or 16.3%. Most of this increase is related to operational service, estimated to increase by \$1.17 million, and architectural and engineering services, estimated to increase by \$877,845, for the utility's capital improvement projects. This increase is in line with the rate study recommendations.

Other increases in this area include an increase in administrative service fees of \$74,530 due to credit card fees and an increase in postage and delivery of \$60,800 due to postage rates.

Other Professional Services decreased by \$213,505, of which \$187,425 was due to Network Penetration testing being moved to the General Fund.

Purchased Items

Purchased items are projected to increase by \$200,799, or 4.1%. The majority of this increase is attributable to electric costs, which are projected to increase by \$140,713. Additionally, natural gas costs are increasing by \$21,281, equipment parts by \$16,000, and operating supplies by \$15,315.

Purchased Water

Purchased water is projected to increase by \$755,146. Based on historical usage and the DuPage Water Commission rates, purchased water costs are projected at \$32.09 million, representing a 2.4% increase over the 2025 budget. This aligns with the rate study recommendation.

Capital Outlay

The 2024 rate study once again confirmed that significant capital needs continue to exist for the Water Utilities and supports the collection of appropriate revenues to fund these needs. Costs associated with capital improvement programs were previously housed in the Water Capital Fund, which was retired in December 2024. These costs are estimated at \$89.8 million for 2026.

Grants & Contributions

Grants and contribution expenses have seen no change in spending. \$93,750 is associated with Water's portion of funding provided to the Naperville Development Partnership for economic development services. \$20,000 is tied to utility bill assistance, and the remaining \$125,000 is tied to different cost-sharing reimbursement programs.

Debt Services

The Water and Wastewater Fund will provide \$5.18 million to repay existing debt, including the 2025 debt issuance. This represents a \$432,900, or 9.1%, increase over the previous year.

Interfund Transfers

Interfund transfers are how the utility pays for services other City departments provide, including technology, fleet repair, maintenance, and legal services. That amount is projected to decline by \$110,757.

26 COMMUTER FUND ...

The Commuter Parking Fund covers the costs of maintaining, operating, and regulating parking spaces for the City's two commuter train stations. It also funds upkeep for the pedestrian walkways connecting the parking areas to the train stations and platforms and supports multi-modal access to the stations.

The fund supports services such as snow and ice removal to improve commuter safety, maintenance of the Naperville train station depot, surrounding platforms and tunnels, and management of the daily fee parking program.

26 SELF-INSURANCE FUND ...

The Self-Insurance Fund supports a risk management method in which a calculated amount of money is set aside to compensate for potential future loss. The fund was created in 1977 when the City became self-insured. It is a clearinghouse for all types of insurance required by the City, including medical, dental, general liability, workers' compensation, auto liability, life, and unemployment.

The City's medical claims are limited to a specific stop-loss limit, meaning the City is responsible for a specific cost for any individual claim. Once the limit is reached, a stop-loss insurance policy pays additional claims submitted on behalf of an employee. Property, workers' compensation, and general liability insurance policies are also maintained with stop-loss policies. In addition to the insurance policies mentioned above, the City has a separate program for fidelity bonds.

26 SOLID WASTE FUND ...

The Solid Waste Fund includes the refuse and recycling contract between the City of Naperville and Groot Industries, along with the revenue collected per household each month for refuse and recycling services. This fund was created in 2020. Previously, the General Fund accounted for the expenses related to this contract and the per-household revenue.

OVERVIEW OF THE
**CAPITAL
& DEBT SERVICE
FUNDS**

26

26 CAPITAL PROJECTS FUND

The Capital Projects Fund was created to finance capital improvements to City assets as needed, including vehicles, major equipment, and technology. Proceeds from the City's home rule sales tax (HRST), first implemented on Jan. 1, 2016, are used exclusively for funding capital upgrades to government assets, which helps reduce the City's dependence on debt. The initial 0.5% HRST rate increased to 0.75% on July 1, 2018. Other sources of funding include contributions from other governments, private developers, and grants.

26 DEBT SERVICE FUND ...

The Debt Service Fund was created to collect property taxes and other monies to pay the principal and interest on general government bonded indebtedness. Principal and interest for enterprise debt are paid directly by the fund that incurred the debt. Currently, scheduled bond and interest payments are made to retire the following general obligation (G.O.) bond issues: 2014, 2016, 2017, 2018, 2020, 2022A, 2024, and 2025.

As a home-rule community, the City has no legal debt limit. However, the City's Debt Management Policy describes the limits the City places on itself for issuing general obligation debt. The City carefully monitors how debt issuance impacts the tax rate. Thanks to a dedicated effort by previous Naperville City Councils, governmental debt has been reduced by more than 50% since 2016.

26 DOWNTOWN PARKING FUND ...

State statute allows the City to implement a food and beverage (F&B) tax within a defined location. The downtown F&B tax was established for the downtown area in September 2008, with 75% of restaurants agreeing to the tax. The City Council approved the tax at a rate of 1.50% for 25 years.

In September 2015, the City Council approved a 0.50% home rule sales tax to take effect on Jan. 1, 2016. To offset the implementation of the home rule sales tax, the downtown F&B tax was decreased by 0.50% to 1.0%. In March 2018, the Council approved increasing the home rule sales tax to 0.75% and subsequently reduced the F&B tax by 0.25% to 0.75%, ensuring that the total combined rate of the home rule sales tax and downtown F&B tax does not exceed 1.50%.

The downtown F&B tax pays for two-thirds of downtown parking deck construction and maintenance.

26 MOTOR FUEL TAX FUND ...

The Motor Fuel Tax (MFT) Fund utilizes revenues from the State of Illinois to support the City's annual Street Maintenance Improvement Program (MIP), which maintains the City's infrastructure and is integrated with the Capital Improvement Program. The state specifies permissible uses of these funds. The revenues help sustain and improve Naperville's quality of life by maintaining the City's roadway infrastructure.

The state distributes MFT in two parts: traditional MFT revenue and Transportation Renewal Fund revenue. Both are population-based distributions.

26 PHOSPHORUS REMOVAL FUND ...

Established in 2017, the Phosphorus Fund serves as a dedicated source of funding for upgrades at the Springbrook Water Reclamation Center (Springbrook). These upgrades include permit requirements mandated by the Illinois Environmental Protection Agency (IEPA), which oversees the City's Springbrook operations. The City must make improvements to reduce phosphorus discharge into the DuPage River from Springbrook by 2028.

The Water Utilities' rates include a graduated phosphorus surcharge for wastewater customers, which will fund half of the EPA-mandated improvements at Springbrook. Work on improvements has begun.

The 2026 Capital Improvement Program includes several projects at Springbrook necessary to meet the mandated phosphorus discharge limits. Those projects will be expensed to the Water Utilities Fund and supported by the Phosphorus Fund through an interfund transfer.

26 ROAD & BRIDGE FUND ...

The Road and Bridge Fund is a funding source for local road construction projects. The fund uses revenues from a \$0.04 local gas tax and revenues the City receives from four local township road districts: Naperville and Lisle in DuPage County and DuPage and Wheatland in Will County. Each township allocates a portion of its roadway funds to the City every year.

In August 2016, local gas taxes were exclusively allocated to the Road and Bridge Fund through Ordinance 16-107. The fund is supplemented by roadway damage fees collected by the City as part of the overweight truck permit process. Revenues help maintain and foster a quality living experience in neighborhoods by maintaining the City's roadway and bridge infrastructure.

SPECIAL SERVICE AREA 23

Naper Main

Special Service Area 23 (SSA 23) was created in 2007 to provide a financing mechanism to collect a portion of the debt service for the Van Buren parking deck addition, also referred to as Naper Main. In April 2012, the City Council approved a resolution to suspend the levy until November 2014. Naper Main was completed in late 2014, and the tax levy was reinstated.

This SSA has an economic incentive; the sales tax revenue collected by the City is rebated back to the property owner. The City then levies the SSA (owner), who uses the sales tax rebate to pay the property tax levy. The annual expenditures represent the required debt service payments, with the annual sales tax rebated from the General Fund.

SPECIAL SERVICE AREA 30

Downtown Streetscape (south side of Jefferson, Main)

Special Service Area 30 (SSA 30) was established to fund a capital project involving the design and construction of improvements to the streetscape in the Central Business District following new downtown standards. Work included installing new sidewalks, curbs, and parkway features as identified in the *Naperville Downtown 2030 Plan*.

SSA 30 covers areas along the south side of Jefferson Avenue between Main and Webster Streets, as well as both sides of Main Street between Jefferson and Jackson Avenues. The work was finished in late 2022. The City charged the 2022 construction costs to the Capital Projects Fund. SSA 30 offers a financing method to reimburse that fund for the property owners' 40% share of the project over 12 years, starting in 2023.

SPECIAL SERVICE AREA 31

Downtown Streetscape (redevelopment of 41 W. Jefferson) ●●●

Special Service Area 31 (SSA 31) was created to help finance City-required streetscape improvements following the redevelopment of 41 W. Jefferson Ave. Due to the costs involved in upgrading the streetscape to meet current City standards, the City considered using an SSA mechanism to finance these improvements.

The City reimbursed the property owner for the total costs related to the improvements in 2019. In 2021, it began levying property taxes to recover the amount, plus interest, over the next 15 years.

SPECIAL SERVICE AREA 35

Downtown Streetscape (Washington - Benton to Chicago) ●●●

Special Service Area 35 (SSA 35) was established to fund a capital project to design and construct streetscape improvements in the Central Business District following the adoption of new downtown standards. Work included installing new sidewalks, curbs, and parkway features as outlined in the *Naperville Downtown 2030 Plan*.

SSA 35 encompasses the east and west sides of Washington Street from Benton Avenue south to Chicago Avenue. Preliminary design and engineering work started in 2022, with construction beginning in 2024. The City is expensing engineering, design, and construction to the Capital Projects Fund. SSA 35 will provide a financing mechanism to reimburse that fund for the property owners' 40% share of the project over 15 years, beginning in 2024.

26 WATER STREET TIF ...

The Water Street Tax Increment Financing (TIF) District was created in December 2007 to establish a financing mechanism for the Water Street Redevelopment Project. The eligible costs under this TIF included land, stormwater, sanitary sewer, parking facilities, the service of public facilities and spaces pursuant to the act, and road improvements. Construction began in 2015 and was completed in 2017. The City invested \$18.12 million towards the project's completion through the issuance of General Obligation Bonds and funds from the Downtown Parking Fund.

The TIF's frozen valuation is \$1.79 million, and its current valuation is \$10.54 million. The City will collect the property's incremental tax value to pay the debt service over the TIF's life.

26 WATER CAPITAL FUND ...

The Water Capital Fund was established to monitor and track revenues and expenses related to the Water Utilities' capital needs. It was created following the Water Utilities' 2021 rate study, which identified significant capital needs due to aging infrastructure and changes in federal and state mandates for water and wastewater operations. A fixed capital charge was added to ratepayers' bills to support these needs and to ensure a dedicated funding source, unaffected by changes in water usage, was available.

In 2024, the Water Utilities conducted another rate study. This study confirmed once again that significant capital needs still exist in the utility. The study supported collecting appropriate revenues necessary to fund future capital improvements and support future debt service. In conjunction with this rate study, a fund review showed that accounting efficiencies could be realized and interfund transfers could be minimized by moving away from a separate capital fund.

As of December 2024, the Water Capital Fund was retired, and all financial activities required to support the water and wastewater capital projects are budgeted within the Water & Wastewater Utility Fund itself.

The background of the entire page is a photograph of an industrial facility, likely a water treatment plant. It features large white pipes, yellow overhead cranes, and workers in safety gear. The image is semi-transparent to allow the text to be read clearly.

FIVE-YEAR

CAPITAL IMPROVEMENT PROGRAM

PROJECT DETAILS
& SUPPLEMENTAL INFORMATION

26^{to}30

26^{TO} 30 CAPITAL IMPROVEMENT PROGRAM ...

The City of Naperville's Capital Improvement Program (CIP) represents Naperville's commitment to planning and maintaining assets linked to the City's mission as well as the long-term investment in the City's infrastructure. The CIP provides the City's long-range financial plan that complements the annual budget, which provides a short-term financial plan to fund operations. The City publishes the CIP as part of the annual budget; the two documents provide a comprehensive plan for financing the City's programs and enhancing Naperville's quality of life. This document summarizes all significant capital outlays anticipated over the next five years and includes project descriptions, financial requirements, and funding sources.

Projects may include land acquisition, the construction of new buildings, additions to or renovations of existing buildings, construction or reconstruction of streets, infrastructure for utilities, major equipment purchases, and technology upgrades, including software and hardware. While some projects are funded through current revenues, the size and magnitude of these projects have historically required the issuance of bond funds to supplement revenue streams.

During CIP preparation and review, staff sets priorities and identifies which projects can be accomplished each year within the limits of the City's control. The City also incorporates resource allocation, prioritization, external factors, and cost evaluation to arrive at the final capital program. As expected, the available data and expenditure estimates from earlier years are more precise than those of later years.

Budget Structure

Capital and debt service funds contain expenditures for one-time capital improvements, ongoing maintenance of capital assets, and the repayment of debt issued for capital improvements in prior years. Capital and debt service funds include the following:

- Capital Projects Fund
- Debt Service Fund
- Downtown Parking Fund
- Electric Utility Fund
- Motor Fuel Tax Fund
- Phosphorus Fund
- Road and Bridge Fund
- Special Service Area (SSA) Funds
- Water Street TIF Fund
- Water & Wastewater Utility Fund

Program Highlights

Five-Year Overview

The five-year CIP totals \$861.73 million and ensures that needed capital projects are supported to maintain existing infrastructure and accommodate the community's continued development and reinvestment. Below is the distribution by calendar year of the five-year CIP. Each year, the CIP request becomes more refined. Expenses in 2026 are based on engineering estimates or recent bid prices and accurately reflect the expected cost for the upcoming year. Conversely, expenses projected in 2030 are based on historical costs and foreseeable community needs, but are ultimately forecasts. For this reason, staff presents the City Council with a five-year overview of projects but limits the dollars requested to only those necessary to support the upcoming year. (See Exhibit 1 for a listing of projects by asset type.)

2026 Overview

The 2026 CIP is valued at \$190.25 million, a 6.1% increase from the 2025 approved program of \$179.38 million. (See Exhibit 2 for a listing of projects by department.) The CIP continues to reach new milestones as the City re-invests more in aging infrastructure and new capital programs. The graph below shows the value of the approved capital programs over the last 10 years. The 2020 CIP was amended at the outset of the COVID-19 pandemic, and the original and amended 2020 amounts are displayed on the graph.

2026 Changes

Significant increases in capital investments are being made across several categories, with the most notable being in the water, wastewater, and transportation spaces. Planned water and wastewater infrastructure-related projects are the highest-cost area, accounting for 48.2% of the 2026 capital budget. Transportation infrastructure investments account for 20.3% of the capital budget in 2026; significant investments include the North Aurora Road underpass, South 40 site development and traffic improvements, and 248th Avenue road improvements.

	2025	2026	Change (\$)	Change (%)
Buildings & Facilities	10.65	8.88	(1.77)	-16.6%
Electric Utility	29.15	27.25	(1.90)	-6.5%
Parks & Recreation	5.16	3.59	(1.57)	-30.4%
Stormwater	1.14	3.96	2.82	247.4%
Technology	21.94	8.11	(13.83)	-63.0%
Transportation	29.49	38.60	9.11	30.9%
Vehicles & Mobile Equipment	9.64	8.11	(1.53)	-15.9%
Water & Wastewater Utility	72.21	91.77	19.56	27.1%
Total	179.38	190.25	10.89	6.1%

\$ in millions

Project Categories

Five-Year Overview

Each project within the five-year CIP is assigned to one of eight categories. Categories are meant to help define the type of projects requested for capital investment. As the chart shows, construction and maintenance projects related to transportation infrastructure (roads, bridges, sidewalks, etc.) and utility infrastructure make up most of the City's next five years of capital spending at 86%. The project categories include:

- **Transportation Infrastructure** – Projects required to maintain and build upon existing infrastructure, including construction and maintenance projects for the City's roads, bridges, sidewalks, and traffic control systems.
- **Electric Utility Infrastructure** – All projects required to maintain Naperville's Electric Utility assets.
- **Water & Wastewater Infrastructure** – All projects required to maintain the City's Water Utilities, including water distribution, collection and pumping, and water reclamation.
- **Buildings & Facilities** – Projects such as building construction and renovations, roof replacements, parking deck maintenance, and all other work on city-owned facilities.

- **Technology** – Projects related to enhancing and maintaining the City’s technology platforms, such as the public safety computer-aided dispatch systems, land mobile radio network, and network security.
- **Parks & Recreation** – Projects that build and maintain recreational and other amenities that improve quality of life, such as the Naperville Riverwalk.
- **Stormwater** – Projects that improve the conveyance of stormwater throughout the City to mitigate safety hazards and prevent damage to public and private property.
- **Vehicles & Mobile Equipment** – Purchase of new and replacement vehicles for public services, such as police cars, fire trucks, and public works equipment.

Capital Upgrade and Capital Maintenance Projects

Capital programs are presented in the following two categories:

- **Capital Upgrade Projects** – One-time capital expenditures that create new assets or replace existing assets. This category includes capital outlays for new buildings, roadways, or technology.
- **Capital Maintenance Projects** – Expenditures that significantly extend the life of current assets, including the street maintenance improvement program (MIP), storm sewer lining program, sidewalk and curb replacement program, water meter replacement program, and the Electric Utility’s underground transmission and distribution program.

Over five years, capital maintenance projects make up 15% of the total capital program and are stable, with an average annual cost of \$25.87 million. Conversely, capital upgrade projects vary more from year to year, given their one-time nature. Over five years, capital upgrade projects make up 85% of the total capital program.

Department Overview

Five-Year Overview

Each department is responsible for capital projects that coincide with the citywide infrastructure that it oversees. The graphic below shows the five-year CIP broken down by department, illustrating the corresponding allocation of responsibility for capital project maintenance. Staying on theme with recent years, the needed investment in water and wastewater infrastructure continues to drive the City's five-year capital plan. However, significant investments will continue in the transportation space as construction on several large projects, such as the North Aurora Road underpass, gets underway.

Vehicles

The chart below breaks out the vehicle request listing by department. (See Exhibit 3 for a specific listing of all vehicles planned for 2026.)

Funding Sources

Five-Year Overview

The CIP leverages various funding sources. Over the past several years, the City has transitioned from growth to maintenance mode. Many CIP projects involve cooperation and participation with other governments, particularly road and bridge construction. While staff works diligently to identify appropriate funding sources for all projects, a portion of the annual CIP program is unfunded. The chart below identifies major funding sources for requested projects over the next five years.

2026 Funding Overview

Below is a chart further breaking down the funding sources available to support the 2026 CIP.

Funding sources include:

- **Utility Funds** — This includes the Electric Utility Fund, Water & Wastewater Utility Fund, and Phosphorus Fund. These funding sources pay for capital infrastructure re-investment. Funds are earned through utility rates and supplemented with borrowing as needed.
- **Capital Projects Fund** – Supported by funds from the City’s 0.75% home rule sales tax. Funds are dedicated to capital investment to reduce future borrowing. Funds may also include grants or contributions from other entities.
- **Motor Fuel Tax Fund** – Funds collected from the state’s motor fuel tax. Funds are used for road construction projects.
- **Road & Bridge Fund** – Funds collected from the City’s local gas tax. Funds are used for road construction projects.
- **Other Funds** –This includes funds from the user fees generated by the Commuter Parking Fund, food and beverage and home rule sales taxes raised in the Downtown Parking Fund, and property taxes levied for special service areas.

Projected Borrowing

Capital projects without a dedicated funding source are categorized as unfunded. These projects may require borrowing to complete. Of the \$190.25 million budgeted for the 2026 CIP, \$132.25 million in funding was identified to support the 2026 program. This represents nearly 70% of the total cost, leaving \$58 million in the capital program unfunded. The unfunded projects recommended for borrowing are broken into the following project categories:

The City issues debt on a reimbursement basis. Therefore, bonds will only be issued if the overall capital program cannot be funded through identified sources. The amounts noted above are estimates, and the City aims to use debt to finance capital projects only when necessary.

Debt Reduction

The City’s CIP includes recurring infrastructure maintenance programs that require funding at a semi-consistent level to ensure the same level of service year over year. Before 2016, recurring revenue sources were unavailable to support these programs fully. In 2015, the City passed an ordinance establishing a home rule sales tax at the rate of 0.50% and specified that the tax proceeds be directed to increasing the City’s cash reserves and reducing the City’s debt.

The home rule sales tax was reaffirmed in 2017. In early 2018, the City Council passed an incremental 0.25% increase to the tax, resulting in a total home rule sales tax rate of 0.75% throughout the City.

Staff projects that the home rule sales tax will generate \$24.19 million in 2026 to support capital projects, thus reducing the City’s reliance on debt. There are two methods to drive down debt: the first is to pay off existing debt, and the second is to reduce future borrowing requirements through dedicated funding sources for the CIP. Over the past 10 years, the City has reduced its general government debt by more than 50%.

The chart below shows the City’s existing debt service by fund. The City’s property tax levy comfortably supports governmental debt service of \$8 to \$10 million annually.

After an estimated \$1.03 million make-whole payment to the Downtown Parking Fund to offset the downtown food and beverage tax, \$23.16 million is available to fund capital projects. Staff recommends using that amount to reduce future borrowing requirements by funding capital projects. The \$23.16 million was assigned to capital projects within the Capital Projects Fund.

Debt is also utilized to support capital improvements within the City’s Electric and Water business enterprise funds. New debt is anticipated to be required to support a growing capital program across both the Electric and Water Utilities. Customer rates set by each utility directly support the Electric and Water utility debt service. Rates are evaluated every three years, and debt service requirements are a component of that evaluation process. The next rate studies will occur in 2027 to set rates from 2028 to 2030. Currently, both utilities maintain debt coverage ratios well below industry standards.

New Residential Electric Services and Metering

Project Number: EU001
Total Capital Cost: \$1,368,000.00

Department: ELECTRIC
Type: Capital Improvement

Timeline: 01/01/2026 to 12/31/2030

Request description:

This project provides residential customers with the infrastructure for receiving electrical service from the City. It includes installation of underground electrical cable and metering for services to new residential dwelling units.

Existing Residential Electric Services

Project Number: EU002
Total Capital Cost: \$1,909,000.00

Department: ELECTRIC
Type: Capital Improvement

Timeline: 01/01/2026 to 12/31/2030

Request description:

This project provides upgrades and relocation of electric service infrastructure to existing residential electric utility customers.

Underground Cable (Feeders) & Equipment

Project Number: EU014
Total Capital Cost: \$4,108,000.00

Department: ELECTRIC
Type: Capital Improvement

Timeline: 01/01/2026 to 12/31/2030

Request description:

Projects are designed to install and replace 12 kV feeder systems for the electrical distribution system. Sections of feeders that have multiple outages will be replaced to maintain reliability of service to customers. In future years, additional feeders will be planned in anticipation of load growth and improved distribution of existing load.

Substation Emergency Repair/Replacement Items

Project Number: EU022
Total Capital Cost: \$4,512,000.00

Department: ELECTRIC
Type: Capital Improvement

Timeline: 01/01/2026 to 12/31/2030

Request description:

This project supports the emergency replacement of capital equipment to maintain the reliability of the power delivery system at the substation. These funds are required for emergency replacement of damaged or malfunctioning equipment due to weather (flooding, ice, lightning, etc.), accelerated aging, and/or manufacturer defects.

34 and 138 KV Relay Improvements (and Substations)

Project Number: EU047
Total Capital Cost: \$2,864,500.00

Department: ELECTRIC
Type: Capital Improvement

Timeline: 01/01/2026 to 12/31/2030

Request description:

This project includes strategic, system-wide improvements to protective relay systems to reduce outages, enhance system reliability, and ensure compliance with North American Electric Reliability Corporation Standards. This project improves the reliability of service to all customers by replacing and coordinating relays that protect transmission lines, transformers, and distribution feeders. Projects include the upgrade of electro-mechanical relay protection to microprocessor-based relays to enhance reliability and comply with NERC testing requirements. 2026 - \$458,000EU 47: REPLACE CIRCUIT SHIELD RELAYS AND 3 138KV BREAKERS AT ROUTE 59 SUBSTATIONEU47: REPLACE 2 138KV BREAKERS AT MODAFF SUBSTATION AND INSTALL BREAKERSEU47: REPLACE L1000 RELAYS AS WELL AS ANY EM RELAYS AT THE STATIONEU47: REPLACE L1300 AS WELL AS ANY EM RELAYS AT THE STATIONEU47: INSTALL ATS ON SECONDARY FOR STATION AUX POWER 2027 - \$655,000EU47: EOC Upgrade FS7 to ESCEU47-SUBSTATION RELAY REPLACEMENT PROGRAM 2028 - \$626,000EU47: PHASE 2 DA FIBER ETHERNET SWITCHES-Ogden, Chicago, Royce, MeadowsEU47-SUBSTATION RELAY REPLACEMENT PROGRAM 2029 - \$563,000EU47-SUBSTATION RELAY REPLACEMENT PROGRAM 2030 - \$563,000EU47-SUBSTATION RELAY REPLACEMENT PROGRAM

Distribution Automation

Project Number:	EU049	Department:	ELECTRIC
Total Capital Cost:	\$2,839,000.00	Type:	Capital Improvement
		Timeline:	01/01/2026 to 12/31/2030

Request description:

This project involves the design, installation, and relocation of Distribution Automation (DA) Sectionalizing units at various points on the electric system. The project provides automatic 12.5kV feeder reconfiguration after a power line disturbance has occurred by isolating a faulted section of the feeder, reducing downtime, and minimizing the number of affected customers. 2026 - \$423,000EU49: PHASE 1 DA FIBER ETHERNET SWITCHES-Tollway, Westside, Forthill, Indian HillEU49: DA35 FIBER INSTALL TO WESTSIDE(Engineering-Design Phase)EU49: DA27 FIBER INSTALL TO FORTHILL(Engineering-Design Phase)EU49: DA54 FIBER INSTALL TO INDIAN HILL (Engineering-Design Phase)EU49: DA CONTROLLER UPGRADES PHASE 2(Construction Phase) Majority of materials procured in 2024EU49: DA Cellular Upgrades Phase 2(Construction Phase) Majority of materials procured in 2025EU49: PHASE 1 DA9 REPLACE 4132N231 WITH (2) PME9 DA(Design-Construction Phase) Worked with undergrounding of 90RA1 EU49: DA44 REPLACE 4234N742 WITH (1) PME9 DA(Design-Construction Phase) Worked with undergrounding of 90RB3 2027 - \$643,000EU49: DA35 FIBER INSTALL TO WESTSIDE (Construction Phase)EU49: DA27 FIBER INSTALL TO FORTHILL (Construction Phase)EU49: DA54 FIBER INSTALL TO INDIAN HILL (Construction Phase)EU49: DA53 FIBER INSTALL TO INDIAN HILL (Engineering-Design Phase)EU49: DA52 FIBER INSTALL TO INDIAN HILL (Engineering-Design Phase)EU49: DA10 FIBER INSTALL TO OGDEN (Engineering-Design Phase)EU49: DA10 FIBER INSTALL TO OGDEN PHASE 2(Engineering-Design Phase)EU49: DA12 FIBER INSTALL TO ROYCE (Engineering-Design Phase)EU49: PHASE 2 DA9 REPLACE 4132N292 WITH PME9 DA (Design-Construction Phase) Worked with undergrounding of 90RA1. 2028 - \$996,000EU49: DA53 FIBER INSTALL TO INDIAN HILL (Construction Phase)EU49: DA52 FIBER INSTALL TO INDIAN HILL (Construction Phase)EU49: DA10 FIBER INSTALL TO OGDEN (Construction Phase)EU49: DA10 FIBER INSTALL TO OGDEN PHASE 2(Construction Phase)? Cable Replacement Program

Project Number: EU052
Total Capital Cost: \$30,453,000.00

Department: ELECTRIC
Type: Capital Improvement

Timeline: 01/01/2026 to 12/31/2030

Request description:

This project includes refurbishing aging single and three-phase feeder cables and equipment through directional boring, cable replacement, and cable injection. Cable meeting the criteria for the number of outages in a year and an unacceptable duration of time is identified as a likely candidate for the cable refurbishment program. Significant portions of cable will be refurbished via cable injection, extending cable life for up to 30 years with minimal landscaping disturbance. EU52-CABLE REJUVENATION PROGRAM For CY 2026, subdivisions slated for cable replacement improvements include portions of DUPAGE RIVER EAST PHASE 2 and, PRAIRIE RIDGE KNOCK KNOLLS Subdivisions.

12 KV and SCADA Substation Automation (NTU Replacement Program)

Project Number: EU057
Total Capital Cost: \$520,000.00

Department: ELECTRIC
Type: Capital Improvement

Timeline: 01/01/2026 to 12/31/2027

Request description:

EU57-NTU REPLACEMENT PROGRAM This project uses technology to integrate all equipment within the substation - providing secure, reliable, and accurate information and remote control of substation equipment to system operators and substation field personnel. Automation systems installed at DPU-E substations allow various devices within the substation to communicate with each other as well as provide a secure method for system controllers and engineering personnel to access information from relays and other Intelligent Electronic Devices inside the substation. Replace Network Terminal Units (NTUs) with Remote Terminal Units (RTUs) at the following substations: SPRINGBROOK, ROUTE 59, WASHINGTON.

Electric Distribution Transformer Purchases (Emergency and Planned)

Project Number: EU065
Total Capital Cost: \$4,593,000.00

Department: ELECTRIC
Type: Capital Improvement

Timeline: 02/18/2026 to 12/01/2029

Request description:

This project provides for the purchase of electric transformers to maintain and expand the electric system. Transformers are purchased and stored at the Electric Service Center's warehouse storage yard and installed in the field as the need arises for new and replacement transformers.

Fiber Optic Cable for Metropolitan Area Network (MAN)

Project Number: EU066
Total Capital Cost: \$180,000.00

Department: ELECTRIC
Type: Capital Improvement

Timeline: 01/05/2026 to 12/31/2026

Request description:

This project leverages the city's existing electric Metropolitan Area Network (MAN) to provide communication services to other city departments and outside agencies. Projects supported by this project include the Metropolitan Area Network (MAN) servicing all City-owned and operated buildings including Naper Settlement, Naperville to Aurora Fiber Optic Communications for Radio System support, as well as SCADA for Water network which provides a reliable, high-speed communication backbone for DPU-W communication to water and wastewater sites.

 External Funding Sources: Expensed from Electric Utility INFRASTRUCTURE CIP Account 40251300-551502.
 Project Manager: DAN STEPHENS
 Asset Type: Electric Utility
 Impact on Operating Budget: Project is funded by customer rate revenue. Specifically the City Users that utilize this service.

Supervisory Control And Data Acquisition

Project Number: EU078
Total Capital Cost: \$262,000.00

Department: ELECTRIC
Type: Capital Improvement

Timeline: 01/01/2026 to 12/31/2030

Request description:

This project upgrades and enhances the Supervisory Control and Data Acquisition (SCADA) system that is used to monitor, control, and assess the health of the transmission, sub-transmission, and distribution systems. Supervisory Control and Data Acquisition is used to monitor and control various devices located in each substation as well as the Distribution Automation devices located on 12kV feeders. Key components of this system include the master station, workstations, video wall, and map board in the Electric Service Center, as well as the Remote Terminal Units (RTUs), transducers, meters, and relays located at each of the 16 substations. This project also will ensure the utility's compliance with NERC Critical Infrastructure Protection standards.

SWITCHGEAR EMERGENCY & PLANNED WORK

Project Number: EU089
Total Capital Cost: \$2,281,000.00

Department: ELECTRIC
Type: Capital Improvement

Timeline: 01/01/2026 to 01/31/2030

Request description:

Replacement of switches that fail inspections. To ensure reliable power delivery to its customers, the Electric Utility (Utility) installs high voltage switches at various points on the system. These switches allow Utility workers to isolate equipment and cable during planned maintenance, and reduce outage time when cable or equipment failure occurs. The Utility has over 700 switches installed which allows most customers to be fed from at least two sources of power.

Capital Costs	FY2026	FY2027	FY2028	FY2029	FY2030	Total

CABLE EMERGENCY AND PLANNED WORK

Project Number: EU090
Total Capital Cost: \$2,516,000.00

Department: ELECTRIC
Type: Capital Improvement

Timeline: 01/01/2026 to 12/31/2030

Request description:

EU90 funding is to repair and replace cable that has faulted over the course of the year. It is based on a 5-year average spend on responding to cable faults. The goal of this project is to restore power to our customers when emergent events happen.

SCADA AND DERMS IMPLEMENTATION

Project Number: EU092
Total Capital Cost: \$2,523,000.00

Department: ELECTRIC
Type: Capital Improvement

Timeline: 01/01/2026 to 10/01/2028

Request description:

EU92 - SCADA & DERMS Implementation – The Utility’s SCADA system becomes obsolete in 2028 and will no longer be supported by its vendor. As such, the Utility will begin the multi-year process of evaluating new technologies and executing the transition to a new SCADA system. The goal is to be on the new system and fully trained and functioning before the current system is obsolete.

MEADOWS TO WESTSIDE SUBSTATIONS TRANSMISSION PATH UPGRADE

Project Number: EU093
Total Capital Cost: \$8,300,000.00

Department: ELECTRIC
Type: Capital Improvement

Timeline: 01/25/2027 to 12/31/2028

Request description:

EU93 - Meadows to Westside Substations Transmission Path Upgrade – Currently, the Utility operates its system with a normal open at 70RT (Modaff Substation). The system is operated this way to prevent the Utility from being classified as a Transmission Operator (TO) per NERC/FERC regulation. There are some potential financial benefits to the Utility becoming a TO. In order to do so, significant investments are required in upgrading ratings along the transmission path from Meadows to Westside Substations. This project is earmarked for completing the equipment upgrades necessary to make closing the 70RT breaker financially viable.

Total Capital Cost: \$1,970,000.00

Department: FINANCE
Type: Capital Equipment

Timeline: 01/01/2025 to 12/31/2029

Request description:

This project proposes the replacement of the City's legacy utility billing software, which has been in use for more than 30 years. The new billing software will help manage all aspects of our utility services. The software will help adapt our services to the growing needs of our customers and technology changes by enhancing the City's daily experience through configurable business rules, powerful functionality and a focus on product usability. The 2026 Budget includes \$170,000 for consultant fees. The 2027-2029 Budget includes \$1.2M for software and \$200,000 per year for the consultant.

Fire Station Living Quarters Renovation

Project Number: MB226
Total Capital Cost: \$1,500,000.00

Department: FIRE
Type: Capital Improvement

Timeline: 06/07/2023 to 12/31/2025

Request description:

Seven of the City's 10 fire stations have open bunk room concepts that have mixed use of bathroom/shower facilities. A project is requested to upgrade to a modern type of facility that fosters gender equality. To accomplish this, greater compartments will need to be added to the existing build-out, with the ability to section off sleeping quarters from the normal population and align with new infection control challenges to lessen the spread of diseases and limit exposures for longer periods of time.

Station 4 Training Facility Renovation

Project Number: MB228
Total Capital Cost: \$2,736,037.00

Department: FIRE
Type: Capital Improvement

Timeline: 03/01/2025 to 12/31/2027

Request description:

The current Fire academy facilities, which include the basement of Station 4 and the former Hazard Waste Building (Station 44), are insufficient to accommodate the needs of the candidates and instructors that are stationed there. Currently, candidates utilize the basement of Station 4 to do their classroom work, which can only accommodate 15 people. The space is also used as a locker room and changing area, with male recruits using a corner of the classroom for locker purposes, and female cadets using an electrical closet. There are no shower facilities for cadets, and only two bathrooms are available, despite academy classes frequently having double-digit numbers of personnel plus instructors. The Fire department is proposing a CIP to renovate the basement of Station 4 to include locker rooms, bathrooms, and shower facilities. This renovation would require the removal of the classroom portion of the basement. To accommodate this renovation, the department requests a small addition on the back portion of Station 4 to rebuild the classroom space required to house cadets and instructors. This proposal is intended to be in conjunction with the planned renovation of Station 4, which includes updates to the bunk rooms and bathroom/shower facilities to save on time and expense.

CE164 Data Center Upgrade and Expansion

Project Number: CE164
Total Capital Cost: \$900,000.00

Department: INFORMATION TECHNOLOGY
Type: Capital Equipment

Timeline: 01/01/2023 to 12/31/2026

Request description:

This project upgrades basic infrastructure such as power, cabling, equipment racks, environmental systems, access systems, storage, etc. for the two major data centers and over a dozen data closets that house the City's information technology (IT) assets. This project will develop alongside projects managed by the City's Public Building Operations (PBO) group to maintain, upgrade, and improve various City buildings. This project will also include network connections and supporting equipment to upgrade Wi-Fi networks and expand coverage throughout City buildings.

Capital Costs	FY2026	Total

CE168 Network Segmentation Enhancement

Project Number:	CE168	Department:	INFORMATION TECHNOLOGY
Total Capital Cost:	\$300,000.00	Type:	Capital Equipment
		Timeline:	01/01/2023 to 12/31/2026

Request description:

This project will enhance network segmentation to help secure the City's information technology (IT) assets and network. This project will implement a network segmentation solution such as Cisco's Application Centric Infrastructure (ACI). This solution includes an application-centric policy model that decouples policy (security, auditing, service-level agreements (SLAs), user experience, etc.) from network topology and supports application mobility. Key features include Centralized and automated lifecycle management of Layer 4 through 7 network security policy across the entire data center networkOpen and extensible policy framework that supports a defense-in-depth security strategy and helps protect investmentsSecure hardware-enforced network and application segmentation and multitenancy with performance and scalabilityPolicy-based compliance with industry regulations such as Payment Card Industry (PCI) regulations and the Health Insurance Portability and Accountability Act (HIPAA)Deep visibility and accelerated threat response based on real-time network intelligence

Type of Project	Upgrade/Replacement
Project Manager	Ken Nelson
Asset Type	Computer Equipment
Impact on Operating Budget	This project will increase the operating budget to accommodate associated expenses for licenses, maintenance, and support.

CE169 Public Safety Uninterruptable Power Supply (UPS) for Information Technology (IT)

Project Number:	CE169	Department:	INFORMATION TECHNOLOGY
Total Capital Cost:	\$225,000.00	Type:	Capital Equipment
		Timeline:	01/01/2023 to 12/31/2028

Request description:

This project increases the reliability and resiliency of public safety information technology (IT) systems by deploying standard building-level uninterruptable power supplies (UPS) at each public safety building location: Police Department, Fire Admin building, and all Fire Stations. The benefits of this project include reduced IT problems from issues with power quality and power outages. The project envisions standard UPS products and configurations that receive regular preventative maintenance from the same vendor who maintains the generator systems at these locations. While generator systems do supply power during a power outage, the transition during a power outage from building power to running on generator power causes problems for most IT systems. The UPS system reduces or eliminates these IT problems during the transition to generator power. The UPS provides power for IT systems from a battery backup until generator power takes over. An added benefit is temporary power for key systems in the event of both a power failure and a generator failure. IT will work closely with Public Building Operations (PBO) as PBO and its vendors manage the generator and UPS equipment at these public safety buildings. This project will be coordinated with PBO's existing generator replacement program. Preliminary budgetary estimates are based on \$25k per building for the UPS, and \$25k labor per building for installation and wiring.

Capital Costs	FY2026	FY2027	FY2028	Total

Personal Computer (PC) Replacement Program

Project Number: CE172
Total Capital Cost: \$7,000,000.00

Department: INFORMATION TECHNOLOGY
Type: Capital Equipment

Timeline: 01/01/2025 to 12/31/2029

Request description:

The Information Technology Department is responsible for maintaining the City's technology hardware environment, including various types of Personal Computers (PCs) and peripherals such as docking stations, monitors and keyboards. These devices are used by all City staff and are comprised of desktop PCs, laptops, and ruggedized PCs for special applications in squad cars and utility vehicles. The IT Department has established a three-year replacement cycle for PCs and associated peripherals. This cycle effectively balances costs and performance. A longer cycle could result in outdated PCs that are incompatible with newer software, as well as performance issues due to normal wear and tear. Each year, IT staff collaborate with departments to develop a PC replacement program that addresses planned replacements and related needs. In addition to the replacement of existing PCs, new PCs are deployed for new employees, new vehicles, and in some cases, new solutions or applications to support municipal operations.

Capital Costs	FY2026	FY2027	FY2028	FY2029	FY2030	Total

IT Strategic Capital Replacement Program

Project Number: CE174
Total Capital Cost: \$4,000,000.00

Department: INFORMATION TECHNOLOGY
Type: Capital Equipment

Timeline: 01/01/2025 to 12/31/2029

Request description:

The IT department manages a technology portfolio that spans many categories. These categories include Computing Data Storage Core Networking Edge Networking Access Networking Firewalls/Security Appliances Infrastructure/Power Technology assets in these categories need periodic replacements for various reasons that include reduced reliability and performance, increased support and operating costs, and vendor-driven end of life issues. The IT department has worked to establish replacement cycles for these categories that are staggered over a period of years. This allows the IT department to plan for a capital budget that is more level over time, avoiding large peaks and valleys. This also affords the department more level utilization of staff over time. While the IT department makes every effort to plan accurately, planning technology needs and spending over a multiple-year horizon carries uncertainty. Unexpected issues occur and may require a change to the plan. By planning to address all categories regularly over years on a staggered basis, these unexpected issues should be accommodated without dramatic changes to the spending level of the plan.

LR080 Public Safety Land Mobile Radio Network

Project Number: LR080
Total Capital Cost: \$3,000,000.00

Department: INFORMATION TECHNOLOGY
Type: Capital Equipment

Timeline: 01/01/2023 to 06/30/2026

Request description:

The Land Mobile Radio (LMR) Network used by the Police Department, Fire Department, and other City departments is outdated and requires upgrading. The new radio technology standard will be upgraded to P25. A number of the LMR network components will be affected by this upgrade. These are listed below with estimated upgrade costs per component: Infrastructure cost: ~\$7.5M Radios (est. qty 1150): ~\$8M Dispatch equipment : ~\$1.8M Consultant - \$360K In 2023 a RF network design and implementation consultant was engaged to help define network design requirements and support the RFP process. In 2024 the RFP was awarded to Motorola Solutions for the implementation of the new P25 radio. Full installation and implementation of the installation of the network is estimated to be completed by the end of 2025. As of June 2025 there is some chance that project completion, and the associated costs, will slip into 2026. This is primarily because final system testing can not occur when trees have dropped their leaves. This is not an increase in project costs, just moving costs from 2025 to 2026. \$3,000,000 has been entered in 2026 costs as an estimate to account for this. There will be ongoing HW lifecycle capital costs for 2029-2040 for supporting ongoing software upgrades.

Capital Costs	FY2026	Total

Naper Blvd. Library Rear Building Storm Drainage and Emergency Exit Repairs

Project Number:	LB025	Department:	LIBRARY
Total Capital Cost:	\$165,000.00	Type:	Capital Improvement
		Timeline:	01/01/2026 to 12/31/2026

Request description:

Rainwater on the roof drains to gutters and downspouts. The downspouts then release the water on the ground. Significant erosion has taken place especially on the south elevation over the years where these downspouts empty. This rainwater heads directly toward the neighbor's houses that are lower in elevation. Furthermore, there seems to have been significant settling of the soils around the perimeter of the building exposing more of the foundation and in particular the black mastic waterproofing membrane on the foundation. This has created a back-pitch (ground pitches toward the building) situation along the west side that pushes more water toward the building. Library staff have periodically installed temporary piping to move water away from the building to help ensure the lower level stays dry, but a more permanent fix is needed. The Library plans to engage a civil engineer to design a permanent system for collecting the rainwater from the downspouts and moving it to a more appropriate place such as the detention area on the northeast corner of the property. Lastly, the stoop outside each of the emergency exits on the south elevation are not currently connected with sidewalks to the parking lot or public sidewalk so people exiting there will have a hard time getting to a safer place due to elevation change and ground sloping. This will be addressed during this project as well.

95th Street Library Boiler Replacement

Project Number: LB013
Total Capital Cost: \$360,000.00

Department: LIBRARY
Type: Capital Improvement

Timeline: 01/01/2026 to 12/31/2026

Request description:

The Library's central heating plant is powered by three PVI 28-WB-250A-PV gas fired condensing hot waterboilers installed in 2002 with 1,000 MBH input capacity. Each boiler is circulated by an inline pump. The primary boiler loop is circulated by (2) Bell & Gossett base mounted hot water pumps in a lead/stand by configuration. Each pump has a dedicated Danfoss variable frequency drive installed in 2002. The hot water system serves air handling unit hot water coils, VAV and fan powered box coils, and hot water terminal units throughout the building. There is a chemical pot feeder, but no side stream filter for chemical treatment. The three hot water boilers and the two primary boiler hot water pumps are 23 years old, beyond the end of their useful life so the Library is planning to replace them this year. Additionally, there is no side stream filter installed, so the Library is planning to install one at the recommendation of our contractors.

Total Capital Cost:	\$1,424,000.00	Type:	Capital Improvement
		Timeline:	01/01/2028 to 11/30/2031

Request description:

The preservation of the Martin Mitchell Mansion and other Settlement historic and modern structures that house and display artifacts is an ongoing, integral part of the museum's mission. This multi-year HVAC deferred maintenance improvement project is designed to incorporate planned environmental engineering recommendations for life-cycle equipment replacement. As existing systems age, they continue to be more costly to operate and maintain, and staff recommend this prioritized HVAC equipment operating system improvement approach. The first prioritized buildings are forecasted for 2028 with (4) prioritized buildings to include the Schulz, Paw Paw Post Office, Naper/Haight, and Meeting House HVAC systems for a forecasted cost of \$267,000. The Fort Hill Storage Facility HVAC is scheduled for updates and replacements, including software controls, in 2029, which are currently estimated at \$428,000. In 2030, the next (5) prioritized buildings are forecasted to cover the Murray/Hobson Law, Halfway, Daniels, Print Shop, and Schoolhouse HVAC system improvements at a forecasted cost of \$279,000.

Digital Collection Initiative

Project Number:	NS065	Department:	NAPER SETTLEMENT
Total Capital Cost:	\$2,400,000.00	Type:	Capital Equipment
		Timeline:	01/03/2028 to 11/29/2030

Request description:

The Digital Collection Initiative will build the necessary components (equipment, technology, software, and systems) for construction of a comprehensive Digital Collections Program which will digitize 8,000 items from the collection (roughly 10% of our holdings) with plans to digitize an additional 3% each year following completion of the initial three years of the initiative outlined herein. A key, public-facing component of this Digital Collections initiative is the Digital Exhibit Experience in the forthcoming Innovation Gateway (our new visitor's center and main entrance). The Digital Exhibit Experience, which will feature a large-format digital touchscreen wall highlighting digitized materials from our vast physical collection holdings, presenting many items from NHS collections to the public for the first time, and allows visitors to select subjects, themes and specific materials of interest and self-curate an exhibit experience catered to their interests. Digital Collections are vital to the mission and relevance of civic museums in the 21st century. Museum audiences today expect higher levels of digital accessibility to cultural institutions. This initiative seeks to bring us up to date as an accredited museum of the 21st century that is reflective of the innovative and forward-thinking community and brand that is Naperville, Illinois. Without a digital collections program, we are not fulfilling our commitment to the community and maximizing the potential of the visitor experience to our site. This initiative further aims to increase accessibility, access, visibility, and interactivity with our collections through innovative and engaging on-site digital exhibit experiences for visitors and through online exhibits and access to research collections for the community, the greater public, and scholars.

Request description:

The Naperville Police Department was built in 1990 and currently serves a working population of approximately 275 employees. Several areas within the police department have age-related issues, lack sufficient technology, and require security improvements. Remodeling the building to include security and technology upgrades will enable staff to perform their duties efficiently and securely. The department was thoroughly examined for needed repairs and remodeling. An architect examined the entire police facility and developed a comprehensive list of repair and remodeling recommendations to create a purposeful and systematic plan to address the projects over a several-year period. Security measures were implemented first with the installation of improved gates and fencing around the perimeter of the building in 2022. The patrol area was remodeled in 2023 and the investigations major case room and detective area were renovated in 2024. Then the locker rooms and the west side of the investigation area were completed in 2025. The PD will continue to evaluate the following areas based on the priorities of the department for the remaining years: 2026-Evidence & Crime Scene Area and Executive Conference Room & Office Areas 2027-Animal Control 2028-First and Second Floor Conference Rooms 2029-Range Expansion 2030-Training Room

Public Safety Memorial Wall

Project Number:	MB233	Department:	POLICE
Total Capital Cost:	\$2,000,000.00	Type:	Capital Improvement
		Timeline:	09/29/2023 to 12/31/2028

Request description:

The current Public Safety Memorial wall was built in 2002. It is a tribute to fallen police officers and firefighters, as well as those who have honorably retired after finishing their service to the city and citizens of Naperville. The wall has reached its max capacity and no longer has space for retired personnel from either police or fire. Both sides of the wall are a number of years behind for updating retirees. This project will expand the existing Fire and Police Department memorial that resides between the stations. The intent is to leave the existing memorial in-place and expand and improve the surrounding circular area to allow for a larger display and tribute to the first responders that have served in Naperville. The goal is to have the ability to expand throughout the years without losing space for future name additions to the memorial elements. The updated memorial contemplates key identifying elements that speak to the nature of the first responders and potentially introduces chronological elements to the memorial and the incorporation of seating areas.

Door Access System

Project Number: CE165
Total Capital Cost: \$1,600,000.00

Department: PUBLIC WORKS
Type: Capital Equipment

Timeline: 1/1/2026 to 12/31/2028

Request description:

For years, the City has used a Premisys door access system to manage secure access to various City buildings and locations. This project will design a new state-of-the-art system to provide and manage secure access to various City buildings and locations. In 2025, this project began with an initial requirements definition phase and analysis of solutions and components. Beginning in 2026, procurement and implementation of the solution will occur, replacing end-of-life equipment and integrating the door access system with the security camera system.

Capital Costs	FY2026	FY2027	FY2028	Total
Equipment Purchase	\$450,000.00	\$950,000.00	\$200,000.00	\$1,600,000.00
Implementation				\$0.00
Total	\$450,000.00	\$950,000.00	\$200,000.00	\$1,600,000.00

	\$1,600,000.00

Additional Information

Type of Project	Upgrade/Replacement
Project Manager	Marcie Schatz & Kelley Neal
Asset Type	Computer Equipment
Impact on Operating Budget	This project will increase the operating budget to accommodate expenses associated with system licenses, maintenance, and support.

Security Cameras

Project Number: LR076
Total Capital Cost: \$4,850,000.00

Department: PUBLIC WORKS
Type: Capital Equipment

Timeline: 1/1/2026 to 12/31/2029

Request description:

There are currently more than 450 cameras located throughout the City, including security cameras and cameras on traffic signals. Over the past five years, security cameras have been installed at Electric and Water sites, Police and Fire Stations, Naper Settlement, Municipal Center, and at select locations throughout the downtown. The growth in cameras, network connections, and video storage has led to a piecemeal expansion of supporting information technology (IT) assets. This project will design a new surveillance system based on current and future requirements that have been developed while expanding the current system. In 2024, we began our investment by hiring a security consultant to evaluate our current system and propose growth and infrastructure changes to improve the security of the City. This initiative brought to life the natural connection between cameras and access. With that, this project is being coordinated alongside the Door Access System project (CE 165). Evaluation of the current system and design for a new system was completed in 2025, and a RFP for the new system was initiated. Implementation of replacement cameras, software, and fiber connectivity will begin in 2026 to transform our current system to meet the needs of the City for 2026 and beyond.

Capital Costs	FY2026	FY2027	FY2028	FY2029	Total

Flooring at Municipal Facilities

Project Number:	MB145	Department:	PUBLIC WORKS
Total Capital Cost:	\$570,000.00	Type:	Capital Improvement
		Timeline:	1/1/2026 to 12/31/2030

Request description:

This project was established in 2017 to replace the flooring in municipal facilities that has exceeded its 20-year useful life. Staff estimates replacement costs to be between \$70 and \$80 dollars per square yard. This includes the cost of flooring, furniture moving expenses, and installation. The locations for replacement are evaluated annually and prioritized based on condition. In 2026, flooring in the common areas at Electric, Water, the Municipal Center and Fire Stations will be replaced.

Downtown Parking Deck Maintenance

Project Number: MB160
Total Capital Cost: \$1,100,000.00

Department: PUBLIC WORKS
Type: Capital Improvement

Timeline: 1/1/2026 to 12/31/2030

Request description:

The Chicago Avenue, Van Buren, and Water Street Parking Decks were built in 1986, 2001, and 2016 respectively. In 2022, a condition assessment of the parking decks was completed and a report was provided allowing staff to phase repairs to structural elements and waterproofing systems, program preventative maintenance and address safety issues. In 2025, joint and sealant repairs were completed on the Water Street Deck along with waterproofing and painting. In 2026, fire sprinkler piping replacement at the Chicago Avenue Deck will be completed, along with fire alarm, electrical and emergency equipment replacements at the Van Buren Parking Deck.

Municipal Facilities Roof Replacement

Project Number: MB176
Total Capital Cost: \$1,330,000.00

Department: PUBLIC WORKS
Type: Capital Improvement

Timeline: 1/1/2026 to 12/31/2030

Request description:

In 2017, a condition assessment of the roofs at 57 city facilities was completed. The documented results have enabled staff to develop an aggressive maintenance plan to extend the life of the roofs and replace only those roofs nearing critical condition. In 2026, the roof at the Water Department South Operating Center, Washington Substation, Van Buren parking deck stairwells, and the Lake Osborne Gazebo will be replaced.

Train Station Platform, Walkway and Stairwell Repair Program

Project Number: MB180
Total Capital Cost: \$800,000.00

Department: PUBLIC WORKS
Type: Capital Improvement

Timeline: 1/1/2026 to 12/31/2030

Request description:

Sections of pedestrian ways, tunnels, stairs, shelters and lighting at the downtown Naperville Train Station building are showing signs of deterioration and need repair. In 2019, staff performed a full inspection of the site and prepared a 5-year improvement plan to bring the areas to an acceptable condition. In 2026, funding is included to replace the lights on the 5th Avenue train station platforms. This project will include replacement poles, fixtures, cabling, and foundations. In addition, work will include train station sidewalk replacement and ADA improvements at the 5th Avenue Station.

Municipal Facilities Window and Overhead Doors Replacement

Project Number:	MB188	Department:	PUBLIC WORKS
Total Capital Cost:	\$500,000.00	Type:	Capital Improvement
		Timeline:	1/1/2026 to 12/31/2030

Request description:

Beginning in 2018, a phased approach to the replacement of the overhead doors at the fire stations with high-speed four-fold doors at the exit that operate at 11 feet per second was implemented. The doors entering the station are replaced with overhead sectional doors like what is currently in place. The new four-fold doors will improve emergency response times while at the same time significantly reducing energy and maintenance costs. The average age of the doors recommended for replacement is 23 years. Beginning in 2020, this program expanded to include all city facilities and in 2022, window replacement and repair was added to address leaking skylights and the large store front windows. In 2026, sectional and exterior access doors will be replaced throughout the City.

ADA Transition Plan Improvements

Project Number: MB204
Total Capital Cost: \$750,000.00

Department: PUBLIC WORKS
Type: Capital Improvement

Timeline: 1/1/2026 to 12/31/2030

Request description:

Working with the Advisory Committee on Disabilities and specialized professional support, staff developed an ADA Facility Transition Plan in 2015. This plan includes an inventory/assessment of existing conditions and a schedule for making the identified improvements to meet the 2010 ADA requirements. Staff will be making ADA improvements at municipal facilities. The work identified in the ADA Transition Plan is incorporated into related construction projects at the various city facilities. In 2026, ADA improvements will be made in conjunction with improvements planned at several Fire Stations and other city facilities.

Rooftop and HVAC Unit Replacement

Project Number: MB209
Total Capital Cost: \$1,200,000.00

Department: PUBLIC WORKS
Type: Capital Improvement

Timeline: 1/1/2026 to 12/31/2030

Request description:

This project seeks to replace rooftop air conditioning units and HVAC units at City facilities. The increased rate of failure and lack of availability of parts is making it increasingly costly and difficult to maintain these units. As the use of Freon continues to phase out, R-22 units will be replaced with efficient and environmentally friendly 410A units. In 2026, units at the Municipal Center, Police Department, Public Works Service Center, Fire Stations 3 and 4, and at the Water Utilities facilities will be replaced.

Municipal Facilities Garage Floor Restoration Program

Project Number:	MB211	Department:	PUBLIC WORKS
Total Capital Cost:	\$1,100,000.00	Type:	Capital Improvement
		Timeline:	1/1/2026 to 12/31/2030

Request description:

This project seeks to establish a method and schedule of maintenance and repair of the concrete surfaces in the vehicle and equipment storage garages at the Fire Stations, DPU-E, Public Works Service Center, and Police Department, as well as the public restrooms and stairways at the parking decks. Due to age, use, and environmental factors, the surfaces are showing wear and deterioration, resulting in trip hazards, spalling, and cracking. Garage floors are programmed for maintenance and restoration based on safety conditions. Work in 2026 includes Phase 5 of repairs to the Public Works Service Center garage floor and new flooring at Fire Stations 3 and 4, and the Police Department Sally port floor.

Municipal Facilities Exterior Restoration Program

Project Number:	MB212	Department:	PUBLIC WORKS
Total Capital Cost:	\$660,000.00	Type:	Capital Improvement
		Timeline:	1/1/2026 to 12/31/2030

Request description:

This project seeks to establish a method and schedule of maintenance and repair of exterior facades, soffit, fascia and gutter systems at 56 facilities. Due to age and environmental factors, the surfaces are showing wear and deterioration. In 2019, building envelopes were evaluated and programmed for maintenance and restoration based on condition. Locations were also prioritized based on the extent that other building components could be compromised in the event of a failure. In 2026, work will be completed at several Fire Houses and Electric and Water Utility locations.

Elevator Modernization and Repair

Project Number: MB216
Total Capital Cost: \$400,000.00

Department: PUBLIC WORKS
Type: Capital Improvement

Timeline: 1/1/2026 to 12/31/2030

Request description:

The City is responsible for the operation of 12 elevators in seven different facilities. With the exception of the Water Street Deck elevators, the average age is more than 20 years. A full inspection of all elevators was conducted in 2018 and a five-year plan to modernize specific units and replace components to bring these assets to code was developed. In 2023, a full inspection of all elevators was completed and a new five-year plan was developed to modernize specific units and replace components to bring these assets to code. Work in 2026 will be based on recommendations in the five-year plan and will include upgrades at the Van Buren Parking Deck.

Municipal Facility Improvements

Project Number: MB222
Total Capital Cost: \$1,700,000.00

Department: PUBLIC WORKS
Type: Capital Improvement

Timeline: 1/1/2026 to 12/31/2030

Request description:

The Municipal Center was originally constructed in 1991. In 2022, a workspace evaluation was conducted to develop a capital plan for the various City departments located in the Municipal Center. The goal was to examine the long-range space needs, security, building component, and sustainability improvements that are needed over the next 5 to 10 years. In 2026, blinds replacement, IT server room upgrade, office improvements, and sustainability improvements will be implemented.

Generator, Transfer Switch, and UPS Replacement

Project Number: MB223
Total Capital Cost: \$1,150,000.00

Department: PUBLIC WORKS
Type: Capital Improvement

Timeline: 1/1/2026 to 12/31/2030

Request description:

The City is responsible for the operation of 44 emergency generators to provide backup power for several functions, including E-911 and utility dispatching, critical computer operations, and residential subdivision waste/storm and water pumping. While these units receive cyclical maintenance and repairs as required, parts obsolescence and age are becoming a challenge. To continue to seamlessly support City functions, the City implemented a planned replacement program. In 2026, generators will be replaced at several fire stations.

Fuel System Repair

Project Number: MB234
Total Capital Cost: \$165,000.00

Department: PUBLIC WORKS
Type: Capital Improvement

Timeline: 04/01/2026 to 11/30/2026

Request description:

The Department of Public Works - Fleet Services Division maintains three fuel sites to supply the City's fleet with fuel. The fuel site located at the Public Works Service Center was built in 2008 and requires repairs to maintain regulatory compliance and provide safe and reliable fuel service. The needed repairs include the replacement of the overspill manholes, vapor recovery risers, interstitial risers, and level probe risers. The repairs will also include the installation of observation well manholes, entry boot repair kits, tank sump surface manholes, and heavy-duty retrievers for diesel hoses. The repairs will be completed by an authorized vendor in accordance with the regulations of the Office of the State Fire Marshal.

Annual Tree Planting Program

Project Number: PA020
Total Capital Cost: \$250,000.00

Department: PUBLIC WORKS
Type: Capital Improvement

Timeline: 1/1/2026 to 12/31/2030

Request description:

This project is for the multi-year tree planting program on arterial and collector streets that was approved by City Council in 2001 to help beautify roadways. There are approximately 2,500 sites on medians and public parkways identified for new planting. In 2025, DPW planted approximately 150 trees on Plank, Tree Farms, North Aurora Rd, Aurora Ave, Whispering Hills, and Burlington Ave. In 2026, trees will be planted on Springhill Dr., 95th Street, Ishnala Rd, Burlington Ave, and Naper Wheaton Rd.

Native Vegetation Management Program

Project Number: PA054
Total Capital Cost: \$1,300,000.00

Department: PUBLIC WORKS
Type: Capital Improvement

Timeline: 1/1/2026 to 12/31/2030

Request description:

Native vegetation provides significant benefits to the surrounding environment, including pollinator habitat, erosion protection from deep-rooted plants, water quality improvement through filtration of sediments, and improved fish and invertebrate habitat. In 2023, the City began working with a consultant on the development of a native vegetation management program. The program began by evaluating and developing a management program for five city-owned stormwater management areas with existing native vegetation. Additional sites are also being evaluated. Annual maintenance and restoration began in 2024 and will continue in 2026. These sites will continue to receive tree and shrub clearing, weed control, native plant and seed installation, and controlled burning. In addition, a multi-year program has been started for native plantings on Naper Blvd. and major clearing will occur at Lake Osborne in 2026.

Street Lighting Systems - Upgrade/Replacement

Project Number: SL125
Total Capital Cost: \$750,000.00

Department: PUBLIC WORKS
Type: Capital Improvement

Timeline: 1/1/2026 to 12/31/2030

Request description:

This project seeks to make capital upgrades to arterial and residential street lighting systems. This project will replace direct buried underground aluminum cable and will replace deteriorated concrete poles with city standard aluminum poles. In 2026, the project will continue to replace deteriorated poles and will upgrade street lights and uniduct in problem areas. Funding is also included for new requests for streetlights in areas that are under lit.

Citywide LED Street Lighting Conversion

Project Number:	SL137	Department:	PUBLIC WORKS
Total Capital Cost:	\$1,000,000.00	Type:	Capital Improvement
		Timeline:	1/1/2026 to 12/31/2028

Request description:

This project is for the upgrade of street lighting throughout the City from high-pressure sodium (HPS) fixtures to Light Emitting Diode (LED) fixtures. In 2015 and 2016, this project upgraded approximately 8,400 cobrahead streetlights on arterial and residential streets throughout the City to LED lighting. In 2018, this project replaced 2,800 specialty streetlights, including lights on Ogden Ave. and Rt. 59. Beginning in 2020, the City has been upgrading salem-post tops, ECHO lighting, Historic District lighting, and parking lot lights to LED lighting. The HPS lights are rated for 10,000 hours (2-3 years) and the LED fixtures are rated at 50,000 hours (10-15 years). The conversion will reduce energy usage, re-lamping fees, and maintenance costs. The gross savings from the project over 10 years is estimated at \$4.56 million and payback starts at around 6 years.

Annual Stormwater Management Projects

Project Number: SW001
Total Capital Cost: \$1,100,000.00

Department: PUBLIC WORKS
Type: Capital Improvement

Timeline: 1/1/2026 to 12/31/2030

Request description:

This project provides for stormwater management construction projects, materials, and equipment. Projects include erosion control, reconstruction of overflow routes, and emergency sewer additions addressing customer service issues. This project also provides for structure rebuilds and repairs, and open drainage repairs and cleanings. Annually, the city receives approximately 800 service requests from residents for stormwater related repairs. In addition, repairs are completed in coordination with the Transportation, Engineering and Development Business Groups's Maintenance Improvement Program. Work is also coordinated with the storm sewer lining CIP project to do stormwater repairs prior to lining work if needed. Without these stormwater management projects, the City has the potential to see a rise in stormwater system failures and flooding issues throughout the City. Beginning in 2025, this project was combined with SW026, Stormwater System Upgrade and Improvement Program.

Storm Sewer Lining Program

Project Number: SW017
Total Capital Cost: \$3,550,000.00

Department: PUBLIC WORKS
Type: Capital Improvement

Timeline: 1/1/2026 to 12/31/2030

Request description:

This is a sustainable asset project that provides for the cleaning and lining of the City's stormwater infrastructure. As storm sewers age, deterioration occurs and causes structural defects, which leads to pipe failure and the need for replacement. Some city sewers are more than 80 years old and the lining process can add up to 75 years to the life of the sewer while being less invasive and expensive than excavating and replacing the pipe. The City has approximately 15,000 to 18,000 linear feet of storm sewer pipe planned for 2026, depending on the size of the pipe which ranges from eight inches to 36 inches in diameter. The City has re-lined approximately 271,000 linear feet since the project's inception in 2004, which has led to a reduction in localized flooding and related complaints. The City televises the storm lines prior to lining to allow DPW to more accurately and efficiently schedule storm sewer lining activities and repair pipes through CIP Project SW001 in preparation for the lining process. In 2026, lining will take place in the Cress Creek and Century Farms neighborhoods (Grid 38) along with single sections in other parts of the City.

Corrugated Metal Pipes (CMP) Repair & Replacement Program

Project Number: SW037
Total Capital Cost: \$850,000.00

Department: PUBLIC WORKS
Type: Capital Improvement

Timeline: 1/1/2026 to 12/31/2030

Request description:

This is a multi-year program to identify and prioritize all the corrugated metal pipes (CMP) within the City in order to replace or repair them. There are 12.5 miles of existing CMPs at 778 different locations, averaging over 30 years old and ranging from 10 to 60 inches in diameter. In 2018, an engineering firm located and did an assessment of these pipes due to the high amount of sink holes reported around the City. The findings of this report showed that the vast majority of the CMP need replacement or repair and have been the main causes of sinkholes in our rights-of-ways and near detention areas. In 2019, all the CMPs were evaluated and prioritized for restoration over 10 years. In 2026, improvements will be made to the basin at Bailey Hobson Woods Park.

North Aurora Road Underpass at the CN Railroad

Project Number:	BR005	Department:	TRANSP ENGINEER DEVELOPMENT
Total Capital Cost:	\$18,983,000.00	Type:	Capital Improvement
		Timeline:	02/13/2006 to 12/31/2028

Request description:

This project will involve the widening of the existing railroad bridge in order to allow a wider roadway beneath it. The road will be expanded to a four-lane cross-section with bicycle and pedestrian facilities. This is a joint project with the City of Aurora and Naperville Township. Federal Surface Transportation Program (STP) and Illinois Commerce Commission (ICC) participation has been secured for the construction portion of the project. Note: Construction, and Construction Engineering was reprogrammed to begin in CY25 to match STP Shared Fund timeframe. This project supports the implementation of the Road Improvement Plan and Coordinated Roadway Improvement component of the Comprehensive Transportation Plan.

Capital Costs	FY2026	FY2027	FY2028	Total
Design				\$0.00

Account Codes (Capital Costs):

250-120-30-118-000-0000-00000-531301	\$156,000.00
250-120-30-118-000-0000-00000-551502	\$18,827,000.00
	\$18,983,000.00

Additional Information

Type of Project	Upgrade/Replacement
External Funding Sources	Total = \$52,314,527
	Final Naperville cost for construction and construction engineering after all reimbursements = \$6,727,419
Project Manager	Matt Calpin & Andy Hynes
Asset Type	Streets
Impact on Operating Budget	This project will add 0.5 lane miles of pavement to the City's system, increasing pavement maintenance and snow plowing costs. Estimated cost is \$850 per year beginning in CY28. Sidewalk maintenance costs also increased \$102 per year, beginning in CY28, due to new sidewalk (850 feet) and multi-use path (850 feet) being added to the City system. Sidewalk/multi-use path maintenance costs on average are \$0.06/LF.

87th St. Bridge Over Springbrook Creek

Project Number: BR019
Total Capital Cost: \$2,115,000.00

Department: TRANSP ENGINEER DEVELOPMENT
Type: Capital Improvement

Timeline: 01/01/2021 to 12/03/2027

Request description:

This bridge currently has a sufficiency rating of 64.1, which qualifies it for Federal Highway Administration (FHWA) funds for rehabilitation. When the sufficiency rating falls below 50.0 the bridge will qualify for FHWA funds for reconstruction. The project will consist of removing the existing two-lane bridge and replacing it with a two-lane structure with pedestrian accommodations. The estimated cost of construction is \$5.75 million of which up to 80% could be covered by FHWA funds. The Design Engineering began in CY24 and will finish in CY26. Construction and Construction Engineering have been rescheduled for CY27. The City will seek federal funding for the completion of each phase of the project.

	\$2,115,000.00

Additional Information

Type of Project	Upgrade/Replacement
External Funding Sources	The City has secured 80% funding for the remaining phases of work through the federal Surface Transportation Bridge Program (STP-BR).
Project Manager	Christina Galanis
Asset Type	Bridge
Impact on Operating Budget	Anticipated maintenance costs will be determined after the design is known.

Bridge and Retaining Wall Railing Maintenance

Project Number: BR032
Total Capital Cost: \$400,000.00

Department: TRANSP ENGINEER DEVELOPMENT
Type: Capital Improvement

Timeline: 01/07/2019 to 12/31/2030

Request description:

This project will renovate existing pedestrian bridge railings. In 2019, a consultant evaluated the railing condition and repair measures necessary at 37 locations around the City. Recommended renovation methods ranged from painting to complete replacement depending upon condition. Initial repairs to all inventory items expected to be completed by CY27. Periodic ongoing maintenance will be required beyond these repairs but can be completed every other season as necessary.

Asset Type	Bridge
Impact on Operating Budget	This project replaces existing assets and has no new operating expenses.

Columbia Street Bridge

Project Number:	BR034	Department:	TRANSP ENGINEER DEVELOPMENT		
Total Capital Cost:	\$1,975,000.00	Type:	Capital Improvement		
		Timeline:	01/01/2025	to	12/01/2028

Request description:

This project will include repair work on the Columbia Street Bridge over the BNSF Railroad. In CY20, a detailed bridge inspection was completed. The inspection report recommended replacement of the bridge deck in CY28. Preliminary engineering will be completed in CY26. Design Engineering will be completed in CY27. Construction and Construction Engineering in CY28. The City will seek federal funding for the completion of each phase of construction starting in CY27.

Capital Costs	FY2026	FY2027	FY2028	Total

	\$1,975,000.00

Additional Information

Type of Project	Upgrade/Replacement
External Funding Sources	The City will seek federal funding through the Federal Highway Administration (Bridge Replacement & Rehabilitation Program). The City would be eligible for reimbursement of 80% of the total cost of each phase.
Project Manager	Christine Rhoades
Asset Type	Bridge
Impact on Operating Budget	Maintenance cost will decrease after the bridge is improved.

Washington Street Bridge over I-88

Project Number: BR038
Total Capital Cost: \$400,000.00

Department: TRANSP ENGINEER DEVELOPMENT
Type: Capital Improvement

Timeline: 05/01/2026 to 11/30/2026

Request description:

The City shares maintenance of the Washington Street Bridge over I-88 with the Illinois Tollway Authority per an intergovernmental agreement. The Tollway completed a thorough inspection of the bridge and has identified the need for various repairs. The Tollway will include the necessary work in their upcoming bridge maintenance program and seek reimbursement for the City share of the work.

 Impact on Operating Budget: This project will reduce future maintenance costs.

Weber Road - DuPage River Park Trail

Project Number: BW022
Total Capital Cost: \$299,000.00

Department: TRANSP ENGINEER DEVELOPMENT
Type: Capital Improvement

Timeline: 06/01/2025 to 12/31/2029

Request description:

This project fills a bicycle and pedestrian network gap by creating a connection from the existing DuPage River Trail to trails within Bolingbrook's network. The off-street, shared-use path will primarily be located within DuPage River Park, running parallel to Weber Road along the east side of the road, then traveling east-west to connect to a Bolingbrook Park District facility trail. The Forest Preserve District of Will County is the lead agency for the project.

Capital Costs	FY2026	FY2027	FY2028	FY2029	Total

250-120-30-118-000-0000-00000-551502	\$255,000.00
	\$299,000.00

Additional Information

Type of Project	Upgrade/Replacement
External Funding Sources	The Forest Preserve District of Will County is the lead agency and will pursue federal funding for the project. Local agency partners, including the City of Naperville, Forest Preserve District, Naperville Park District and Bolingbrook Park District will share the required local match.
Project Manager	Katie Rubush
Asset Type	Bikeway
Impact on Operating Budget	The City of Naperville will be responsible for capital maintenance of the portions of the trail that are located on the DuPage River Park property.

New Sidewalk Improvements

Project Number:	CS006	Department:	TRANSP ENGINEER DEVELOPMENT
Total Capital Cost:	\$1,625,000.00	Type:	Capital Improvement
		Timeline:	08/15/2023 to 11/15/2033

Request description:

This project provides new public sidewalk installation to fill gaps along roadways and on school walk routes. This is an annual program.

Capital Costs	FY2026	FY2027	FY2028	FY2029	FY2030	Total
Design	\$25,000.00	\$25,000.00	\$25,000.00	\$25,000.00	\$25,000.00	\$125,000.00

	\$1,625,000.00

Additional Information

Type of Project	Upgrade/Replacement
Project Manager	Christine Rhoades
Asset Type	Sidewalks
Impact on Operating Budget	Sidewalk maintenance costs on average are \$0.06/lf, so sidewalk maintenance costs are estimated to increase \$480 per year due to the new sidewalk being added to the City system.

Downtown Streetscape: Jefferson & Main - Van Buren to Washington

Project Number:	CS016	Department:	TRANSP ENGINEER DEVELOPMENT
Total Capital Cost:	\$4,405,000.00	Type:	Capital Improvement
		Timeline:	09/01/2025 to 05/01/2028

Request description:

This project involves designing and constructing improvements to renovate the streetscape in the Downtown Central Business District. The work will include the installation of new sidewalks, curbs, and parkway features as identified in the Downtown Streetscape Design Standards. Coordination will occur with utility upgrades as necessary to support changing energy, water, sewer, and communication needs. Construction includes Jefferson Av between Main and Washington, and the west side of Main St between Jefferson and Van Buren.

NOTE: Design engineering cash flow between CY25 and CY26. Construction and Construction Engineering was reprogrammed to CY27 and CY28.

Capital Costs	FY2026	FY2027	FY2028	Total

	\$4,405,000.00

Additional Information

Type of Project	Upgrade/Replacement
Project Manager	Chris Nichols
Asset Type	Streets
Impact on Operating Budget	New planter bed areas to be created through project, will increase operating costs. Lighting and maintenance costs will increase \$100/yr starting in CY27.

Downtown Streetscape: Chicago - Main to Ellsworth

Project Number: CS017
Total Capital Cost: \$5,202,000.00
Department: TRANSP ENGINEER DEVELOPMENT
Type: Capital Improvement
Timeline: 05/04/2026 to 10/1/2030

Request description:

This project involves the design and construction of improvements to renovate the streetscape in the Downtown Central Business District. The work will include the installation of new sidewalks, curbs, and parkway features as identified in the Downtown Streetscape Design Standards. Coordination will occur with utility upgrades as necessary to support changing energy, water, sewer, and communication needs. Construction limits to include Chicago Av from Main St to North Central College, and both sides of Main St from the river to Jackson Av. Total construction costs are estimated at \$4,050,000. Construction costs have been shown in CY28 and CY29 to accommodate project closeout. NOTE: Design Engineering reprogrammed to CY26 & CY27. Construction and Construction Engineering reprogrammed to CY28, budget split between CY28 and CY29 to allow for cashflow and project closeout. CY26 Design engineering award CY28 Construction and Construction Engineering

Downtown Streetscape: Jackson - Washington to Webster

Project Number: CS018
Total Capital Cost: \$5,730,000.00

Department: TRANSP ENGINEER DEVELOPMENT
Type: Capital Improvement

Timeline: 04/03/2028 to 10/01/2031

Request description:

This project involves the design and construction of improvements to renovate the streetscape in the Downtown Central Business District. The work will include the installation of new sidewalks, curbs, and parkway features as identified in the Downtown Streetscape Design Standards. Coordination will occur with utility upgrades as necessary to support changing energy, water, sewer, and communication needs. Construction limits include Jackson Av from Washington St to Webster St and the east side of Webster St between Jackson Av and the Jefferson alley. Construction costs are anticipated to be \$5,100,000. NOTE: Design Engineering reprogrammed to CY28 & CY29, Construction and Construction Engineering reprogrammed to CY30 and cash flow through project closeout in CY31. CY28 Design EngineeringCY30 Construction Engineering and Construction

Municipal Parking Lot Maintenance

Project Number: MB035
Total Capital Cost: \$6,679,000.00

Department: TRANSP ENGINEER DEVELOPMENT
Type: Capital Improvement
Timeline: 07/08/2024 to 10/31/2030

Request description:

This project will provide parking lot maintenance for city-maintained public parking areas such as commuter parking lots, downtown public parking lots, and various municipal buildings such as fire stations. Additional work is to be coordinated with other city departments, including DPU-W and DPU-E.

Type of Project: Maintenance
Project Manager: Katie Rubush
Asset Type: Maintenance Program
Impact on Operating Budget: This project will not increase the operating budget. However, deferral of the planned work will increase future maintenance program quantities and correspond to increased costs.

Nichols Library Parking Deck

Project Number: MB227
Total Capital Cost: \$31,000,000.00

Department: TRANSP ENGINEER DEVELOPMENT
Type: Capital Improvement

Timeline: 01/01/2025 to 12/14/2029

Request description:

This project consists of replacing the existing surface parking lot on the north side of the Nichols Library with a 4-level, approximately 500 space, parking deck. Previously prepared architectural plans for the parking deck need to be updated to reflect current design codes, technology, and other amenities. NOTE: Design Engineering, Construction, and Construction Engineering have been reprogrammed. Design Engineering in CY 27. Construction and Construction Engineering in CY 28 and CY 29.

Capital Costs

	\$31,000,000.00

Additional Information

Type of Project	Upgrade/Replacement
Project Manager	Andy Hynes
External Funding Sources	Two-thirds of the construction cost will be paid from the downtown parking fund.
Asset Type	Municipal Buildings & Facilities
Impact on Operating Budget	The new parking deck will add approximately \$175,000 to annual operating and maintenance cost starting in CY30.

190 East Fifth Avenue Building Demolition

Project Number: MB235
Total Capital Cost: \$235,000.00

Department: TRANSP ENGINEER DEVELOPMENT
Type: Capital Improvement

Timeline: 2/1/2026 to 11/28/2027

Request description:

The City purchased the property located at 190 E. Fifth Avenue for commuter parking. This project involves demolition of the existing three-story brick building on the site to allow for additional commuter parking and/or future redevelopment.

Capital Costs	FY2026	FY2027	Total
Design	\$35,000.00		\$35,000.00

	\$235,000.00

Additional Information

Type of Project	Maintenance
Project Manager	Christine Rhoades
External Funding Sources	None.
Asset Type	Municipal Buildings & Facilities
Impact on Operating Budget	The replacement of the building area with a commuter parking lot will add to annual pavement maintenance costs.

Sidewalk & Curb Replacement Program

Project Number:	MP004	Department:	TRANSP ENGINEER DEVELOPMENT		
Total Capital Cost:	\$6,225,000.00	Type:	Capital Improvement		
		Timeline:	01/01/2022	to	12/31/2030

Request description:

This is an annual program to provide sidewalk and curb maintenance throughout the city. This program keeps the overall public sidewalk system in good repair and reduces liability to the City and property owners. Sidewalks and curbs are replaced on a cost-sharing basis dependent on property type and location within the property. It includes SSA funding to maintain existing brick and sidewalk in the Central Business District as well as funding to support the sidewalk sawing contract which has been awarded as part of the CIP program. Sidewalk sawing is focused on arterial roadways and in coordination with the upcoming resurfacing programs to reduce total amount of sidewalk removed and replaced. \$245,000 is budgeted for sidewalk sawing for CY26-30. Note: budget increased based off bids received in recent years

	\$6,225,000.00

Additional Information

Type of Project	Maintenance
External Funding Sources	Homeowner contributions historically received as part of the cost-sharing. May have funding of \$200,000 per year for this project available from receipts for bills in addition to the values shown in table.
Project Manager	Christine Rhoades
Asset Type	Sidewalks
Impact on Operating Budget	The work in this project is scheduled to optimize the use of sidewalk maintenance funds. Deferral of this work will increase future maintenance program quantities and correspond to an increased cost of the work.

Street Maintenance Improvement Program

Project Number: MP009
Total Capital Cost: \$60,000,000.00

Department: TRANSP ENGINEER DEVELOPMENT
Type: Capital Improvement

Timeline: 04/15/2024 to 11/1/2030

Request description:

This is an annual program that maintains existing city streets by the following maintenance techniques: reconstruction, resurfacing, patching, micro-surfacing, and crack fill. Street resurfacing and reconstruction involves grinding and overlying, sidewalk and curb repair, and street replacement as warranted. Street patching involves mostly pothole repair. Micro-surfacing reconditions existing streets with a very thin asphalt overlay.

Bikeway System Maintenance Program

Project Number: MP016
Total Capital Cost: \$150,000.00

Department: TRANSP ENGINEER DEVELOPMENT
Type: Capital Improvement

Timeline: 01/01/2022 to 12/31/2030

Request description:

The City's current network of off-street paths consists of nearly 8.2 miles of pavement and continues to expand. This program is intended to address the recurring capital maintenance requirements of city-owned trails and paths such as the trails along Modaff Road, Book Road, 248th Street, and Freedom Drive. Similar to the roadway maintenance program, treatments such as patching, seal coating, and resurfacing are needed to preserve the path surface and address safety issues that may develop. Construction in CY26, and CY 28.

ADA Sidewalk Improvements

Project Number:	MP018	Department:	TRANSP ENGINEER DEVELOPMENT		
Total Capital Cost:	\$545,000.00	Type:	Capital Improvement		
		Timeline:	01/01/2008	to	12/31/2040

Request description:

This project will implement ADA sidewalk improvements in specific focus areas supporting the City's ADA Transition Plan. These include locations which experience high pedestrian use or are in direct proximity to accessible facilities like public buildings, assisted living centers, and transit access locations. Work includes the installation of depressed curbs, detectable warning surfaces, level landing areas, and other sidewalk work to facilitate accessible routes. Work locations will be determined based on condition surveys, public input, and programmatic focus locations. This is an annual program with construction completed in coordination with the annual resurfacing programs. CY26 construction will focus on improvements at signalized or all-way stop intersections to bring corners into ADA compliance.

Capital Costs	FY2026	FY2027	FY2028	FY2029	FY2030	Total

Additional Information

Type of Project	Maintenance
Project Manager	Chris Nichols
Asset Type	Sidewalks
Impact on Operating Budget	Curb and sidewalk maintenance costs are increased by \$20/year due to new sidewalk being added to the City system.

Preventative Bridge Maintenance

Project Number: MP019
Total Capital Cost: \$325,000.00

Department: TRANSP ENGINEER DEVELOPMENT
Type: Capital Improvement

Timeline: 01/01/2025 to 12/31/2029

Request description:

This is a recurring project to provide regular bridge maintenance for city-maintained bridges to prolong the life of the structures and to ensure they remain safe and operational. The City's Bridge Program Manager has identified eight bridges that will require maintenance in 2026.

Capital Costs	FY2026	FY2028	FY2029	Total
Design		\$25,000.00		\$25,000.00
Construction Engineering				\$0.00
Land/Right-of-way				\$0.00
Construction/Maintenance	\$150,000.00		\$150,000.00	\$300,000.00

	\$325,000.00

Additional Information

Type of Project: Maintenance
 Project Manager: Peter Zibble
 Asset Type: Bridge
 Impact on Operating Budget: Deferral of this work will increase future maintenance program costs as these bridges continue to deteriorate.

Fox River Commons Retaining Wall Improvements

Project Number:	MP021	Department:	TRANSP ENGINEER DEVELOPMENT		
Total Capital Cost:	\$380,000.00	Type:	Capital Improvement		
		Timeline:	01/01/2024	to	12/15/2026

Request description:

The Fox River retaining wall was built in 1991 as part of the Fox River Commons shopping mall. In late 2022, a watermain failure occurred and excavation was required along the north side of the wall to repair the watermain. This required excavation was performed at the toe of the wall, which compromised the overall stability of the wall. Following the repairs, temporary shoring was installed. In 2026, the wall and adjacent roadway will be partially removed and the remaining parkway will be regraded. NOTE: Construction and construction engineering reprogrammed to CY26.

Capital Costs	FY2026	Total
Design	\$50,000.00	\$50,000.00
Construction Engineering	\$30,000.00	\$30,000.00
Land/Right-of-way		\$0.00
Construction/Maintenance	\$300,000.00	\$300,000.00

250-120-30-118-000-0000-00000-551502	\$300,000.00
	\$380,000.00

Additional Information

Type of Project	Upgrade/Replacement
Project Manager	Christina Galanis
Asset Type	Maintenance Program
Impact on Operating Budget	Impact on operating budget will be determined when scope of the improvement is determined.

Annual Riverwalk Rehabilitation Program

Project Number: PA022
Total Capital Cost: \$280,000.00

Department: TRANSP ENGINEER DEVELOPMENT
Type: Capital Improvement

Timeline: 01/01/2024 to 12/31/2030

Request description:

The City of Naperville did a reserve study of the Riverwalk. Based on the study, funds are budgeted every year to rehabilitate or replace various assets of the linear park. Programming is scheduled around other Riverwalk projects. The Initial Reserve Study was a companion document to the original Riverwalk Development Guidelines. The Initial Reserve Study was updated and renamed the Riverwalk Asset Management Plan. Several Riverwalk Commissioners donated their professional expertise and time to assess each section of the Riverwalk. Updated annually, this document is a valuable tool to assess future needs of the Riverwalk. The Riverwalk Development Guidelines have been updated and renamed the Riverwalk 2031 Master Plan.

Asphalt Fire Lane Replacement Near Carillon

Project Number: PA039
Total Capital Cost: \$175,000.00

Department: TRANSP ENGINEER DEVELOPMENT
Type: Capital Improvement

Timeline: 01/01/2026 to 12/31/2027

Request description:

This project will replace the existing asphalt drive that connects the parking lot to the tower with the same grass covered reinforced geo-grid that was installed at Fredenhagen Park. In addition, the grass covered geo-grid will be extended east of the tower following the truck pathway to the Last Fling main stage. Engineering is programmed for 2026. Construction is programmed for 2027.

Capital Costs	FY2026	FY2027	Total
Design	\$25,000.00		\$25,000.00
Construction/Maintenance		\$150,000.00	\$150,000.00

Riverwalk South Extension: Hillside Road to Martin Avenue

Project Number: PA049
Total Capital Cost: \$5,325,000.00

Department: TRANSP ENGINEER DEVELOPMENT
Type: Capital Improvement

Timeline: 01/01/2024 to 12/31/2028

Request description:

Extend the Riverwalk improvements (including brick pavers, shepherd crook lights, benches and other appurtenance) from the Hillside Road Bridge to Martin Avenue, in line with the Riverwalk 2031 Master Plan. Preliminary engineering was completed in 2023 with detailed design in 2024, so we have a "shovel ready" project for any donors or outside funding. Construction is programmed for 2026 and 2027. Note: Construction costs have been updated.

Capital Costs	FY2026	FY2027	FY2028	Total
Design	\$100,000.00	\$0.00		\$100,000.00
Construction/Maintenance	\$0.00	\$4,000,000.00	\$800,000.00	\$4,800,000.00
Construction Engineering	\$0.00	\$350,000.00	\$75,000.00	\$425,000.00

	\$5,325,000.00

Additional Information

Type of Project	Upgrade/Replacement
External Funding Sources	\$1,500,000 of outside funding has been secured.
Project Manager	Katie Rubush
Asset Type	Parks
Impact on Operating Budget	To be determined.

Riverwalk Riverbank Ecological Restoration

Project Number: PA055
Total Capital Cost: \$100,000.00

Department: TRANSP ENGINEER DEVELOPMENT
Type: Capital Improvement

Timeline: 01/01/2024 to 12/31/2029

Request description:

Dating back to the 1930's, much of the Riverwalk is armored with concrete and stone to prevent erosion. The steeply sloped riverbanks are stabilized with a combination of walls and ornamental and native plants that each require different kinds of maintenance. In high traffic areas, lateral connections between the upper and lower walkways will be expanded to improve easier vertical circulation. The non-native plants will either be completely removed, or limited to very restrictive areas, and a more resilient landscape will be nurtured that will feature woody and herbaceous native plants that when fully established will be naturally attractive, improve habitat and require less intense day-to-day maintenance.

Capital Costs	FY2027	FY2029	Total
Design			\$0.00
Construction/Maintenance	\$50,000.00	\$50,000.00	\$100,000.00
Construction Engineering			\$0.00
Other			\$0.00
Total	\$50,000.00	\$50,000.00	\$100,000.00

Funding Source	FY2027	FY2029	Total
Bond Fund			\$0.00
Capital Projects Fund	\$50,000.00	\$50,000.00	\$100,000.00
Naper Settlement Fund			\$0.00
American Rescue Fund			\$0.00
Total	\$50,000.00	\$50,000.00	\$100,000.00

250-400-30-119-000-00000-00000-551502	\$100,000.00
	\$100,000.00

Additional Information

Type of Project	Upgrade/Replacement
External Funding Sources	DuPage County has annual environmental enhancement grants that may be available.
Project Manager	Andy Hynes
Asset Type	Parks
Impact on Operating Budget	TBD

Riverwalk Hillside Road Gateway

Project Number: PA056
Total Capital Cost: \$1,105,000.00

Department: TRANSP ENGINEER DEVELOPMENT
Type: Capital Improvement

Timeline: 01/01/2024 to 12/31/2028

Request description:

The Riverwalk awkwardly terminates at Hillside Road. The trailhead which was constructed in 2001 is not prominent and does not clearly convey that it is an important Riverwalk entrance. The new and expanded plaza, complete with stone accents, native landscaping and other signature Riverwalk elements will properly showcase this important gateway and provide a prominent, comfortable spot to rest and socialize. The plaza will also ramp down to the river-level under the Hillside Road bridge connection to the South Extension of the Riverwalk to Martin Avenue. Design and Construction are being coordinated with the South Extension (PA049) for construction in 2026 and 2027. Construction costs have been updated.

Capital Costs	FY2026	FY2027	FY2028	Total
Design	\$25,000.00	\$0.00		\$25,000.00
Construction/Maintenance	\$0.00	\$830,000.00	\$160,000.00	\$990,000.00

Impact on Operating Budget	TBD

Riverwalk Netzley Overlook

Project Number: PA057
Total Capital Cost: \$475,000.00

Department: TRANSP ENGINEER DEVELOPMENT
Type: Capital Improvement

Timeline: 01/01/2026 to 12/31/2029

Request description:

When the RiverPlace Condominiums were developed in the 1980s the developer deeded the distinctive stone house (now the Carillon Visitor Center), the small quarry that was created from past mining operations, and the land between the quarry and the river to the Park District. When Riverwalk improvements were subsequently constructed, a small plaza perched alongside the quarry was dedicated to Clyde C. Netzley, the former owner of the house and local businessman. The existing overlook provides an unusual and attractive vista, but it is uncomfortably small and secluded. This project will slightly expand the overlook to provide increased capacity and a second lighted ingress/egress route will be added for improved hospitality and safety. Design is programmed in 2027. Construction is programmed in 2029.

Capital Costs	FY2027	FY2029	Total
Design	\$75,000.00		\$75,000.00
Construction/Maintenance		\$400,000.00	\$400,000.00
Construction Engineering			\$0.00
Other			\$0.00

Type of Project	Upgrade/Replacement
External Funding Sources	None has been identified to date.
Project Manager	Andy Hynes
Asset Type	Parks
Impact on Operating Budget	TBD

Riverwalk Grand Pavilion Plaza

Project Number: PA058
Total Capital Cost: \$2,750,000.00

Department: TRANSP ENGINEER DEVELOPMENT
Type: Capital Improvement

Timeline: 01/01/2024 to 12/31/2030

Request description:

Constructed in 1987, the 3,200 square foot plaza is a favorite spot for family, corporate and philanthropic events. Due to its popularity it is often difficult to reserve a date. This project will improve the capacity, flexibility, ecology and hospitality of this space. In association with improvements to the existing parking lot the area can be flexibly programmed to accommodate a multitude of events, from staging to pop-up vendor tents. A new podium will provide a permanent, but flexible setting for ceremonial events, awards and entertainment. A new grill station will provide a safe and convenient place to prepare and cook food, and a stone fireplace will increase the warmth and ambiance of cool-season events. NOTE: Preliminary design reprogrammed for 2026. Final design and permits are programmed for 2028. Construction is programmed for 2030.

Capital Costs	FY2028	FY2029	FY2030	Total
Design	\$100,000.00	\$150,000.00	\$2,500,000.00	\$2,750,000.00
Construction/Maintenance				\$0.00
Construction Engineering				\$0.00
Other				\$0.00
Total	\$100,000.00	\$150,000.00	\$2,500,000.00	\$2,750,000.00

American Rescue Fund				\$0.00
Total	\$100,000.00	\$150,000.00	\$2,500,000.00	\$2,750,000.00

Account Codes (Capital Costs):

250-400-30-119-000-00000-00000-531301 \$2,750,000.00
\$2,750,000.00

Additional Information

Type of Project Upgrade/Replacement
 External Funding Sources While none have been secured to date, the Riverwalk Commission is optimistic that someone will support this improvement.

Project Manager Andy Hynes
 Asset Type Parks
 Impact on Operating Budget TBD

Retaining Wall Replacement between the Quarry and Aurora Avenue

Project Number: PA061
Total Capital Cost: \$250,000.00

Department: TRANSP ENGINEER DEVELOPMENT
Type: Capital Improvement

Timeline: 01/01/2025 to 12/31/2030

Request description:

A modular block retaining wall was constructed on the south side of the Riverwalk pathway between the quarry and Aurora Avenue just west of Eagle Street. The wall has started moving in the past several years and needs a long-term solution. Funds are programmed in 2028 to perform preliminary engineering and a feasibility assessment to determine the best course of action. Funds are also programmed in 2029 to design the selected method of repair or replacement.

Riverwalk Rotary Hill Irrigation System Replacement

Project Number: PA063
Total Capital Cost: \$200,000.00

Department: TRANSP ENGINEER DEVELOPMENT
Type: Capital Improvement

Timeline: 04/01/2027 to 05/15/2027

Request description:

The irrigation system and pump that services Rotary Hill were installed in the 1980's are experiencing frequent maintenance issues and leaks. Parts for the pump station are no longer available and a complete replacement has been recommended.

	\$750,000.00

Additional Information

Type of Project	Upgrade/Replacement
Project Manager	Christine Rhoades
Asset Type	Streets
Impact on Operating Budget	This project will add maintenance costs for the various improvements implemented with the project.

US34/Ogden Avenue and Rickert Drive Improvements

Project Number:	SC164	Department:	TRANSP ENGINEER DEVELOPMENT		
Total Capital Cost:	\$50,000.00	Type:	Capital Improvement		
		Timeline:	03/01/2025	to	03/02/2027

Request description:

The Illinois Department of Transportation (IDOT) will be widening the intersection of US 34/Ogden Avenue and Rickert Drive to provide a second southbound left turn lane. The scope of the project also includes accessibility improvements, a new crosswalk on the south/west intersection approach (crossing US 34/Ogden Avenue), and replacement of the traffic signals at both Rickert Drive and Feldott Lane at US/Ogden Avenue. NOTE: Construction estimate has been updated.

Capital Costs

	FY2026	Total
Design		\$0.00
Construction Engineering		\$0.00
Land/Right-of-way		\$0.00
Construction/Maintenance	\$50,000.00	\$50,000.00
Other		\$0.00
Total	\$50,000.00	\$50,000.00

Funding Source

	FY2026	Total
Bond Fund		\$0.00
Capital Projects Fund	\$50,000.00	\$50,000.00
Motor Fuel Tax Fund (MFT)		\$0.00
Road & Bridge Fund		\$0.00
Downtown Maintenance Fund (SSA)		\$0.00
American Rescue Fund		\$0.00
Other SSA Fund		\$0.00

Commuter Parking Fund		\$0.00
Total	\$50,000.00	\$50,000.00

Account Codes (Capital Costs):

250-120-30-118-000-0000-00000-551502	\$50,000.00
	\$50,000.00

Additional Information

Type of Project	Upgrade/Replacement
External Funding Sources	The total cost of the improvement is estimated at \$600,000. The City is responsible for a proportionate share of the cost for the replacement of the traffic signals as well as full cost for the emergency vehicle pre-emption equipment. The City's cost share is estimated at \$43,000. The Federal Highway Administration and the Illinois Department of Transportation (IDOT) will be funding the remainder of the project cost (estimated at \$557,000). IDOT will administer the construction contract. Naperville will reimburse IDOT for its cost share.
Project Manager	Andy Hynes
Asset Type	Streets
Impact on Operating Budget	This project will add 1/5 of a lane mile of pavement, increasing maintenance and snow plowing costs by \$340/year

248th Avenue: 95th St. to 103rd St.

Project Number: SC190
Total Capital Cost: \$11,965,000.00

Department: TRANSP ENGINEER DEVELOPMENT
Type: Capital Improvement

Timeline: 01/07/2019 to 12/31/2028

Request description:

This project involves upgrading 248th Avenue to minor arterial roadway standards. Improvements include the construction of new pavement and base, curb and gutter, street lighting, sidewalk, and storm sewer. Design Engineering and Land Acquisition continues through CY26. Total construction cost \$14,990,000. Construction and Construction Engineering in CY27 and CY28.

Capital Costs	FY2026	FY2027	FY2028	Total

	\$11,965,000.00

Additional Information

Type of Project	Upgrade/Replacement
External Funding Sources	DuPage Mayors and Managers Conference - \$6,450,000 (45% NTE)
Project Manager	Chris Nichols
Asset Type	Streets
Impact on Operating Budget	This project will add 2 lane miles of pavement, increasing maintenance and snow plowing costs \$3,400/year. An additional 5,150 linear ft of sidewalk is to be constructed at an annual cost of \$310/year. An additional 17,730 linear feet of curb is to be constructed at an annual cost of \$1,420/year. The 50 additional street lights will add \$5,000/year in energy and maintenance costs beginning in CY27.

East Highland Area Improvements

Project Number: SC216
Total Capital Cost: \$6,225,000.00

Department: TRANSP ENGINEER DEVELOPMENT
Type: Capital Improvement

Timeline: 01/02/2023 to 11/15/2029

Request description:

In 2010, Woodlawn Av was reconstructed and upgraded to city standards. Julian St, Hillside Rd, and Parkside Rd were resurfaced. In 2021, the next stages of this project include the final upgrade of Julian St with curbs, storm drainage improvements, street lighting and stormwater detention. As part of these improvements to Julian St, the remaining sidewalk gaps were filled. Design engineering costs for Hillside Rd and Parkside Rd are associated with updating plans and stormwater permitting. The potential connection of Columbia St between Parkside Rd and Woodlawn Av will be evaluated during the design engineering phase. Hillside Rd and Parkside Rd, and potentially Columbia St, will be improved during Phase 2 of the East Highlands Improvements. Design Engineering will be completed in FY25 and FY26. Construction and construction engineering will be completed in FY27 and FY28.

Capital Costs	FY2026	FY2027	FY2028	FY2029	Total

Impact on Operating Budget: Maintenance costs should remain similar.

White Oak Roadway & Utility Improvements

Project Number: SC258
Total Capital Cost: \$2,890,269.00

Department: TRANSP ENGINEER DEVELOPMENT
Type: Capital Improvement

Timeline: 01/06/2025 to 12/31/2028

Request description:

This project includes the reconstruction of White Oak Drive from Prairie Avenue to Porter Avenue. The scope of this roadway work will bring White Oak up to City of Naperville Standards, including, curb and gutter, public utilities, street lights and all other amenities. A consultant will be hired in 2025 to complete the Phase 1 preliminary engineering and Phase 2 design engineering. Construction and construction engineering are scheduled to take place in 2027.

Capital Costs	FY2026	FY2027	FY2028	Total

Naperville Road/Naper Boulevard Improvements

Project Number: SC260
Total Capital Cost: \$1,200,000.00

Department: TRANSP ENGINEER DEVELOPMENT
Type: Capital Improvement

Timeline: 01/01/2024 to 12/5/2026

Request description:

This is a DuPage County DOT sponsored project to improve Naperville Road from Warrenville Road to Ridgeland Avenue. The proposed improvements include widening Naperville Road to accommodate an added through lane between Ridgeland Avenue and Diehl Road, Intersection improvements, traffic signal improvements, lighting modifications, stormwater sewer installation and pavement marking. The City's cost responsibility is based on the cost estimate provided in the pre-final plans and will cover the additional cost of Diehl Road reconstruction instead of resurfacing, street lighting improvements and City's share of signal improvements. NOTE: DuPage County has reprogrammed construction to CY26

Impact on Operating Budget Maintenance cost will decrease once the roadway is improved.

Book Road: 111th St. to 117th St.

Project Number: SC261
Total Capital Cost: \$4,040,000.00

Department: TRANSP ENGINEER DEVELOPMENT
Type: Capital Improvement

Timeline: 11/25/2024 to 6/30/2029

Request description:

This project includes the extension of Book Road south of 111th Street. Work includes pavement base, curb and gutter, drainage, and lighting. This project will be coordinated with the adjacent development south of 117th Street to provide a continuous improvement to 119th Street. This project will add 3.1 lane miles of pavement to the City's system (3-lane configuration). The section of Book Road adjacent to the Polo Club development will be constructed between 119th and their northern property line as part of the development, not this project. Timing of this project will begin as final buildout of the subdivision is anticipated. NOTE: Design Engineering in CY26 and CY27. Construction and Construction Engineering in CY27 and CY28.

	\$4,040,000.00

Additional Information

Type of Project	Upgrade/Replacement
Project Manager	Christine Rhoades
Asset Type	Streets
Impact on Operating Budget	This project will add 1.5 lane miles of pavement to the City's system, increasing pavement maintenance and snow plowing costs by about \$2,550 per year beginning in CY 27.

South 40 Traffic Improvements

Project Number:	SC262	Department:	TRANSP ENGINEER DEVELOPMENT
Total Capital Cost:	\$980,000.00	Type:	Capital Improvement
		Timeline:	03/15/2023 to 12/19/2027

Request description:

This project supports the development of the City of Naperville South 40 parcel located at the southeast corner of IL Route 59 and 103rd Street. The project involves the construction of an entrance on the east leg at the intersection of IL Route 59 and English Rows Avenue with approximately 600 feet of temporary road to the east. Construction of a southbound left turn lane and northbound deceleration/turn lane will also be part of this project. Coordination through IDOT is required as IL Route 59 is under IDOT jurisdiction. Funding to support full site grading for the intersection improvements along with other dependent developments on the Naperville South 40 parcel will be paid initially by the City of Naperville and reimbursed at a future date.

Capital Costs	FY2026	FY2027	Total
Design			\$0.00
Construction Engineering	\$80,000.00		\$80,000.00
Land/Right-of-way			\$0.00
Construction/Maintenance	\$800,000.00	\$100,000.00	\$900,000.00
Other			\$0.00
Total	\$880,000.00	\$100,000.00	\$980,000.00

Funding Source	FY2026	FY2027	Total
Bond Fund			\$0.00
Capital Projects Fund	\$880,000.00	\$100,000.00	\$980,000.00
Motor Fuel Tax Fund (MFT)			\$0.00
Road & Bridge Fund			\$0.00
Downtown Maintenance Fund (SSA)			\$0.00

Total	\$880,000.00	\$100,000.00	\$980,000.00

Account Codes (Capital Costs):

250-120-30-118-000-0000-00000-531301	\$80,000.00
250-120-30-118-000-0000-00000-551502	\$900,000.00
	\$980,000.00

Additional Information

Type of Project	Upgrade/Replacement
External Funding Sources	City of Naperville will be providing funding upfront (\$650,000) in 2025 to account for Gorman and Company's share to complete the full site grading for the detention pond and Outlots 1 & 2. Gorman and Company will reimburse the City once funding becomes available.
Project Manager	Matt Calpin
Asset Type	Streets
Impact on Operating Budget	No impact on operating budget.

119th Street: 248th St to P-N Rd

Project Number: SC263
Total Capital Cost: \$2,650,000.00

Department: TRANSP ENGINEER DEVELOPMENT
Type: Capital Improvement

Timeline: 12/01/2024 to 12/31/2030

Request description:

This project is an upgrade of an existing rural roadway to a five-lane-wide arterial roadway. The project will include paving, lighting, drainage improvements and construction of a new bridge over the DuPage River. Total construction costs are estimated to be \$40,000,000. Preliminary Engineering in CY26. Design Engineering in CY31. Construction and Construction Engineering in CY33. NOTE: Design Engineering has been reprogrammed to begin in CY26 to allow for coordination with project partners. The project limits have been modified based upon a request by the Village of Plainfield.

Capital Costs

	FY2026	FY2027	FY2028	FY2029	Total
Design	\$600,000.00	\$600,000.00	\$600,000.00		\$1,800,000.00

Account Codes (Capital Costs):

250-120-30-118-000-0000-00000-531301	\$1,800,000.00
250-120-30-118-000-0000-00000-551503	\$850,000.00
	\$2,650,000.00

Additional Information

Type of Project	Upgrade/Replacement
External Funding Sources	Village of Plainfield; Wheatland Township; Developer (\$500,000); Surface Transportation Program (Federal)
Project Manager	Peter Zibble
Asset Type	Streets
Impact on Operating Budget	This project will add 1.5 lane miles of pavement to the City's system, increasing pavement maintenance and snow plowing costs. Estimated cost is \$2,550 per year beginning in CY2035.

South 40 Site Development

Project Number:	SC264	Department:	TRANSP ENGINEER DEVELOPMENT
Total Capital Cost:	\$335,000.00	Type:	Capital Improvement
		Timeline:	08/01/2025 to 03/31/2026

Request description:

This project supports the development of the City of Naperville South 40 parcel located at the southeast corner of IL Route 59 and 103rd Street. The project involves funding the City's share of the South 40 site engineering design and mass grading work as outlined in the Site Development Agreement. Additionally, further environmental analysis is required to achieve a No Further Remediation Letter for Lot 3 of the South 40 parcel to support a future development.

Capital Costs

	FY2026	Total
Design	\$50,000.00	\$50,000.00
Construction Engineering		\$0.00
Land/Right-of-way		\$0.00
Construction/Maintenance	\$285,000.00	\$285,000.00
Other		\$0.00
Total	\$335,000.00	\$335,000.00

Funding Source

	FY2026	Total
Bond Fund		\$0.00
Capital Projects Fund	\$335,000.00	\$335,000.00
Motor Fuel Tax Fund (MFT)		\$0.00
Road & Bridge Fund		\$0.00
Downtown Maintenance Fund (SSA)		\$0.00
American Rescue Fund		\$0.00
Other SSA Fund		\$0.00
Water Utility Fund		\$0.00
Electric Utility Fund		\$0.00
Commuter Parking Fund		\$0.00
Total	\$335,000.00	\$335,000.00

Account Codes (Capital Costs):

250-120-30-118-000-0000-00000-531301	\$50,000.00
250-120-30-118-000-0000-00000-551502	\$285,000.00
	\$335,000.00

Additional Information

Type of Project	Upgrade/Replacement
External Funding Sources	City of Naperville will be providing funding upfront (\$380,000) in 2025 and (\$124,000) 2026, to account for Future Owner of Lot 3 share to complete the full site grading of Lot 3 and the shared detention basin located on Outlot A as outlined in the Site Development Agreement.
Project Manager	Matt Calpin
Asset Type	Streets
Impact on Operating Budget	A Property Owner's Association is to be formed to fund future maintenance expenses for the shared detention basin located on Outlot A. Maintenance costs are to be determined. The City's share of the expenses will only be applicable as long as Lot 2 remains under City ownership. Once Lot 2 is sold, the City will no longer be included within the Property Owner's Association and will no longer be required to pay future maintenance fees.

Mill Street Streetlight Replacement - Ogden Avenue to Bauer Road

Project Number: SL139
Total Capital Cost: \$425,000.00

Department: TRANSP ENGINEER DEVELOPMENT
Type: Capital Improvement

Timeline: 05/01/2025 to 11/20/2026

Request description:

The Department of Public Utilities - Electric will be removing the overhead distribution wires and wood poles on the west side of Mill Street between Ogden Avenue and Bauer Road. Streetlights are currently mounted on the wooden utility poles. This project will replace and redesign the streetlight system to bring it up to current standards. Since this portion of Mill Street is a DuPage County Highway, full engineering plans will be submitted for the County's review. NOTE: Construction costs have been revised based on an updated project scope.

Capital Costs	FY2026	Total
Design		\$0.00
Construction Engineering	\$25,000.00	\$25,000.00
Land/Right-of-way		\$0.00
Construction/Maintenance	\$400,000.00	\$400,000.00

American Rescue Fund		\$0.00
Other SSA Fund		\$0.00
Water Utility Fund		\$0.00
Electric Utility Fund		\$0.00
Commuter Parking Fund		\$0.00
Total	\$425,000.00	\$425,000.00

Account Codes (Capital Costs):

250-120-30-118-000-0000-00000-531301	\$25,000.00
250-120-30-118-000-0000-00000-551502	\$400,000.00
	\$425,000.00

Additional Information

Type of Project	Upgrade/Replacement
Project Manager	Peter Zibble
Asset Type	Street Lights
Impact on Operating Budget	Additional light poles will be added to conform to current lighting standards. The impact of these additional lights on the operating budget will be determined during the design.

Cress Creek Culvert Replacements on Burning Tree Lane and Zaininger Avenue

Project Number: SW040
Total Capital Cost: \$1,695,000.00

Department: TRANSP ENGINEER DEVELOPMENT
Type: Capital Improvement

Timeline: 08/15/2023 to 12/01/2026

Request description:

Culverts at Burning Tree Lane and at Zaininger Avenue are old and deteriorating and in need of replacement. Culverts to be removed and replaced with new concrete culverts. Engineering is in progress with construction starting in 2026.

Capital Costs	FY2026	Total
Design	\$20,000.00	\$20,000.00
Construction/Maintenance	\$1,525,000.00	\$1,525,000.00
Construction Engineering	\$150,000.00	\$150,000.00
Other		\$0.00
Total	\$1,695,000.00	\$1,695,000.00

Funding Source	FY2026	Total
Bond Fund		\$0.00
Capital Projects Fund	\$1,695,000.00	\$1,695,000.00
American Rescue Fund		\$0.00
Total	\$1,695,000.00	\$1,695,000.00

Account Codes (Capital Costs):

250-120-30-118-000-00000-00000-531301	\$170,000.00
250-120-30-118-000-00000-00000-551502	\$1,525,000.00
	\$1,695,000.00

Additional Information

Type of Project: Upgrade/Replacement
 Asset Type: Stormwater Management
 Impact on Operating Budget: Minimal maintenance is expected after replacement.

Naper Blvd Culvert Replacements (Bailey & Orleans)

Project Number: SW042
Total Capital Cost: \$1,100,000.00

Department: TRANSP ENGINEER DEVELOPMENT
Type: Capital Improvement

Timeline: 05/01/2025 to 12/31/2026

Request description:

There are two Corrugated Metal Pipe (CMP) culvert crossings across Naper Boulevard which have been inspected by the City's Department of Public Works and found to be in poor shape. The first culvert crossing is just north of Bailey Road and consists of a twin 45" x 72" CMP arch culverts. Both culverts are in poor shape and should be replaced prior to resurfacing of Naper Blvd. The second culvert crossing is just south of Orleans Ave and consists of a 54" x 88" CMP arch culvert. This culvert was found to be in poor shape and should be replaced prior to resurfacing of Naper Blvd.. Replacement of these culverts with new culverts will be in coordination with the resurfacing of Naper Blvd in CY26.

Capital Costs

	FY2026	Total
Design		\$0.00
Construction/Maintenance	\$1,100,000.00	\$1,100,000.00
Construction Engineering		\$0.00
Other		\$0.00
Total	\$1,100,000.00	\$1,100,000.00

Funding Source

	FY2026	Total
Bond Fund		\$0.00
Capital Projects Fund	\$1,100,000.00	\$1,100,000.00
American Rescue Fund		\$0.00
Total	\$1,100,000.00	\$1,100,000.00

Account Codes (Capital Costs):

250-120-30-118-000-0000-00000-551502 \$1,100,000.00
\$1,100,000.00

Additional Information

Type of Project Upgrade/Replacement
Asset Type Stormwater Management
External Funding Sources None.
Impact on Operating Budget Replacement of existing culvert crossings should have a negligible impact to ongoing maintenance costs. Replacement of structures will reduce short term expenditures associated with maintenance or repairs of existing culverts.

Bailey Road Culvert Replacements (Oxford Lane & Lighthouse Drive)

Project Number: SW043
Total Capital Cost: \$1,220,000.00

Department: TRANSP ENGINEER DEVELOPMENT
Type: Capital Improvement

Timeline: 12/01/2025 to 12/01/2027

Request description:

The City's Department of Public Works has inspected the culvert system north of Bailey Road, between Naper Blvd and the river discharge and found the existing corrugated metal pipe (CMP) culverts to be in poor shape. From Naper Blvd, stormwater discharge is channeled through an open ditch to a twin 45" x 72" CMP arch culvert crossing at Oxford Ln. This system discharges into a single 42" diameter sewer flowing westerly to the discharge point into the West Branch of the DuPage River. Both the CMP culverts and the remaining discharge pipe are in poor condition and should be replaced prior to resurfacing the adjacent roadways. Design Engineering in CY25 and CY26. Construction in CY27.

Capital Costs

	FY2026	FY2027	Total
Design	\$120,000.00		\$120,000.00
Construction/Maintenance		\$1,100,000.00	\$1,100,000.00
Construction Engineering			\$0.00
Other			\$0.00
Total	\$120,000.00	\$1,100,000.00	\$1,220,000.00

Funding Source

	FY2026	FY2027	Total
Bond Fund			\$0.00
Capital Projects Fund	\$120,000.00	\$1,100,000.00	\$1,220,000.00
American Rescue Fund			\$0.00
Total	\$120,000.00	\$1,100,000.00	\$1,220,000.00

Account Codes (Capital Costs):

250-120-30-118-000-00000-00000-531301	\$120,000.00
250-120-30-118-000-00000-00000-551502	\$1,100,000.00
	\$1,220,000.00

Additional Information

Type of Project	Upgrade/Replacement
Asset Type	Stormwater Management
Impact on Operating Budget	Replacement of existing culvert crossings should have a negligible impact to ongoing maintenance costs. Replacement of structures will reduce short term expenditures associated with maintenance or repairs of existing culverts.

Signal Point Subdivision Culvert Replacements

Project Number: SW044
Total Capital Cost: \$320,000.00

Department: TRANSP ENGINEER DEVELOPMENT
Type: Capital Improvement

Timeline: 01/01/2027 to 12/01/2029

Request description:

The City's Department of Public Works has inspected various culverts in the Signal Point Subdivision and found them to be in poor condition. These culvert crossings need major repair or replacements to be performed. At Fender Dr there is a CMP culvert crossing the roadway which is in poor shape. Detention overflow which is controlled by a weir also needs replacement due to failed condition of the weir and bypass pipe. Electrical equipment will need to be relocated in order to replace the road culvert. At Fair Oak Dr there is a CMP culvert crossing the roadway which is in poor shape. Inlet slope box will need to be replaced and electrical fuse cans relocated in order to replace the road culvert. Design Engineering in CY27. Construction in CY29.

Capital Costs

	FY2027	FY2029	Total
Design	\$100,000.00		\$100,000.00
Construction/Maintenance		\$220,000.00	\$220,000.00
Construction Engineering			\$0.00
Other			\$0.00
Total	\$100,000.00	\$220,000.00	\$320,000.00

Funding Source

	FY2027	FY2029	Total
Bond Fund			\$0.00
Capital Projects Fund	\$100,000.00	\$220,000.00	\$320,000.00
American Rescue Fund			\$0.00
Total	\$100,000.00	\$220,000.00	\$320,000.00

Account Codes (Capital Costs):

250-120-30-118-000-00000-00000-531301	\$100,000.00
250-120-30-118-000-00000-00000-551502	\$220,000.00
	\$320,000.00

Additional Information

Type of Project	Upgrade/Replacement
Asset Type	Stormwater Management
External Funding Sources	None.
Impact on Operating Budget	Replacement of existing culvert crossings should have a negligible impact on ongoing maintenance costs. Replacement of structures will reduce short term expenditures associated with maintenance or repairs of existing culverts.

LED Replacement Program

Project Number: TC184
Total Capital Cost: \$500,000.00

Department: TRANSP ENGINEER DEVELOPMENT
Type: Capital Improvement

Timeline: 01/01/2022 to 12/31/2029

Request description:

The project includes the scheduled replacement of the existing LED traffic signal lamps. The majority of the existing LED lamps were installed in 2021 and 2022 and provide significant energy savings with enhanced visibility. The planned replacement of the LED lamps is scheduled over two years based on their anticipated seven-year design life.

Capital Costs

	FY2028	FY2029	Total
Design			\$0.00
Construction Engineering			\$0.00
Land/Right-of-way			\$0.00
Construction/Maintenance	\$250,000.00	\$250,000.00	\$500,000.00
Other			\$0.00
Total	\$250,000.00	\$250,000.00	\$500,000.00

Funding Source

	FY2028	FY2029	Total
Bond Fund			\$0.00
Capital Projects Fund	\$250,000.00	\$250,000.00	\$500,000.00
Motor Fuel Tax Fund (MFT)			\$0.00
Road & Bridge Fund			\$0.00
Downtown Maintenance Fund (SSA)			\$0.00
American Rescue Fund			\$0.00
Other SSA Fund			\$0.00
Water Utility Fund			\$0.00
Electric Utility Fund			\$0.00
Commuter Parking Fund			\$0.00
Total	\$250,000.00	\$250,000.00	\$500,000.00

Account Codes (Capital Costs):

250-120-30-118-000-0000-00000-551502 \$500,000.00
\$500,000.00

Additional Information

Type of Project: Maintenance
Project Manager: Christine Rhoades
Asset Type: Traffic Controls
Impact on Operating Budget: This work will replace existing traffic signal LEDs. Thus there is no change in current operating expenses.

Downtown Wayfinding

Project Number:	TC212	Department:	TRANSP ENGINEER DEVELOPMENT		
Total Capital Cost:	\$676,000.00	Type:	Capital Improvement		
		Timeline:	01/02/2023	to	11/1/2030

Request description:

The scope of this project includes the design and installation of consistent updated wayfinding signs in the Downtown and surrounding area. The Downtown Wayfinding Master Plan was completed in 2024. The Downtown Maintenance SSA will cover 40 percent of the construction costs of the project. Construction and Construction Engineering in CY25 through CY29+ and coordinated with associated Downtown Streetscape project phases.

Capital Costs	FY2026	FY2027	FY2028	FY2030	Total

	\$676,000.00

Additional Information

Type of Project	Upgrade/Replacement
External Funding Sources	The Downtown Naperville Alliance will pay 40 percent of the engineering costs.
Project Manager	Andy Hynes
Asset Type	Traffic Controls
Impact on Operating Budget	The energy costs to power the illuminated signs to be determined.

Centralized Traffic Management System

Project Number: TC217
Total Capital Cost: \$3,036,000.00

Department: TRANSP ENGINEER DEVELOPMENT
Type: Capital Improvement

Timeline: 01/01/2016 to 12/02/2031

Request description:

The Centralized Traffic Management System (CTMS) is a multi-phase project that started in CY16 to upgrade traffic signal equipment and software with conversion to an Ethernet based communication system. The Phase II expansion will add 20-25 traffic signals to the signal system network in south Naperville. Design Engineering in CY25-26 and Construction/Construction Engineering in CY29 pending award of federal Congestion Mitigation and Air Quality funding.

Total	\$125,000.00	\$2,860,000.00	\$51,000.00	\$3,036,000.00

Account Codes (Capital Costs):

250-120-30-118-000-0000-00000-531301	\$491,000.00
250-120-30-118-000-0000-00000-551502	\$2,545,000.00
	\$3,036,000.00

Additional Information

Type of Project	Upgrade/Replacement
External Funding Sources	Congestion Mitigation and Air Quality Funding (Federal) is expected to cover 80% of construction costs
Project Manager	Christine Rhoades
Asset Type	Traffic Controls
Impact on Operating Budget	Additional maintenance costs for new network switches and associated equipment to be determined.

Traffic Signal Equipment Replacement Program

Project Number:	TC221	Department:	TRANSP ENGINEER DEVELOPMENT		
Total Capital Cost:	\$425,000.00	Type:	Capital Improvement		
		Timeline:	01/01/2022	to	12/31/2030

Request description:

This project includes the replacement of broken or outdated traffic signals and parking system components. With the increasing age of the City's traffic signals, the need for the replacement of various higher-cost signal equipment has also grown. Minor items can be replaced under the traffic signal maintenance contract. However, a separate budget is needed for replacement of more costly equipment. This is a recurring project. Note: budget increased for CY25 and CY26 due to planned replacement of obsolete traffic signal cabinets

Capital Costs	FY2026	FY2027	FY2028	FY2029	FY2030	Total
Design						\$0.00
Construction Engineering						\$0.00

Total	\$125,000.00	\$75,000.00	\$75,000.00	\$75,000.00	\$75,000.00	\$425,000.00

Account Codes (Capital Costs):	
250-120-30-118-000-0000-00000-551502	\$425,000.00
	\$425,000.00

Additional Information

Type of Project	Maintenance
Project Manager	Christine Rhoades
Asset Type	Traffic Controls
Impact on Operating Budget	This work will replace existing traffic signal equipment. Thus there is no change in current operating expenses.

Ogden Avenue and Iroquois Avenue Traffic Signal

Project Number: TC224
Total Capital Cost: \$50,000.00

Department: TRANSP ENGINEER DEVELOPMENT
Type: Capital Improvement

Timeline: 01/01/2026 to 12/18/2026

Request description:

Per the terms of the development agreement, Costco is responsible for improving the traffic signal at the intersection of Ogden Avenue and Iroquois Avenue. The Illinois Department of Transportation has determined that the traffic signal must be fully replaced. The City's Ogden Avenue Corridor Enhancement Initiative recommended enhancing the traffic signals along this portion of the Ogden Avenue Corridor with decorative mast arms and posts. The City is responsible for the incremental cost to upgrade the traffic signal equipment with the decorative elements.

Capital Costs

	FY2026	Total
Design		\$0.00
Construction Engineering		\$0.00
Land/Right-of-way		\$0.00
Construction/Maintenance	\$50,000.00	\$50,000.00

South Operations Center Facility Improvements

Project Number: MB230
Total Capital Cost: \$1,260,000.00

Department: WATER
Type: Capital Improvement

Timeline: 01/01/2026 to 12/31/2027

Request description:

This project provides funding for architectural and engineering design services at DPU-W's South Operations Center (1800 S. Washington St.), which houses the departments Repair and Excavation crew, and South Pump Station. Design work includes new garage space, covered material storage, and storm water detention. A recent deferred maintenance and space needs assessment was completed for DPU-W buildings and revealed inefficiencies resulting from insufficient space.

Capital Costs	FY2026	FY2027	Total

Springbrook Water Reclamation Center Facility Improvements

Project Number: MB231
Total Capital Cost: \$2,700,000.00

Department: WATER
Type: Capital Improvement

Timeline: 1/1/2027 to 12/31/2029

Request description:

This project provides funding for architectural and engineering design services at DPU-W's Springbrook Water Reclamation Center (3712 Plainfield Naperville Road). Design work includes building renovation and expansion of the Administration building, and renovations/additions to the south blower building to better accommodate welding and shop activities, as well as fleet parking.

Water Distribution System - Rehabilitation / Replacement

Project Number: WU004
Total Capital Cost: \$2,079,568.00

Department: WATER
Type: Capital Improvement

Timeline: 01/01/2025 to 12/31/2030

Request description:

This project provides for miscellaneous water main replacement, looping, and abandonment. Any lead service lines encountered during water main replacement projects will be replaced in their entirety per IEPA requirements. Previously water main lining work has been included with this project, but starting in 2024 has been broken out as an individual project.

Water Main Oversizing Payments - New Developments

Project Number: WU008
Total Capital Cost: \$340,000.00

Department: WATER
Type: Capital Improvement
Timeline: 01/01/2026 to 12/31/2030

Request description:

Some water main extensions in new developments throughout the utility service area are oversized from 8" to 12" diameter in accordance with the City's Master Water Utility Plan. Payments are made to the developer for the incremental costs for water main oversizing to serve offsite developments. The Orion-Prosperita STEM school at the southwest corner of Mill and Diehl (\$240,000) is budgeted for 2026.

Water Distribution System - Additions/Extensions

Project Number: WU010
Total Capital Cost: \$250,000.00

Department: WATER
Type: Capital Improvement

Timeline: 01/01/2026 to 12/31/2030

Request description:

This project is for the engineering and construction of various water main additions and/or extensions needed throughout the City. Project WU010 has multiple projects that are needed to expand the system to accommodate new customers to serve the remaining growth and to provide improved transmission capacity in critical service areas. Development activity is coordinated with the TED, DPW and DPU-Electric Capital Improvement Plans. .

Water Metering - Replacement

Project Number: WU020
Total Capital Cost: \$4,250,000.00

Department: WATER
Type: Capital Improvement

Timeline: 01/01/2026 to 12/31/2030

Request description:

This project provides for the planned replacement of older water meters and the replacement of meter reading equipment that is not functioning or obsolete. The planned replacement of water meters is necessary to accurately bill customers and ensure sufficient revenues for the utility. New meters will be compatible with the City's AMI system.

Emergency Standby Well Rehabilitation

Project Number: WU029
Total Capital Cost: \$6,600,000.00

Department: WATER
Type: Capital Improvement
Timeline: 01/01/2026 to 12/31/2030

Request description:

This project is for major maintenance and rehabilitation of the City's 8 remaining emergency standby wells. The project includes the replacement of old pumps and motors and associated electrical equipment and rehabilitation of the well downhole including the removal of accumulated sand. Rehabilitation includes electrical and control improvements. Well scheduled for rehabilitation include well #26 in 2027 and well #19 in 2029.

Lead Service Replacements

Project Number: WU037
Total Capital Cost: \$3,366,000.00

Department: WATER
Type: Capital Improvement

Timeline: 01/01/2024 to 12/31/2027

Request description:

This project consists of the identification, removal and replacement of lead (Pb) water services from the water main connection to the water meter. This work will take place primarily in areas of the City built prior to 1960. The City will begin the Lead Service Line Replacement Program in 2024. It is anticipated to take multiple years to remove all lead service lines. The City also has a lead service line replacement cost-share program that has been in place since 2002.

Capital Costs	FY2026	FY2027	Total
Design			\$0.00
Construction/Maintenance	\$3,300,000.00	\$66,000.00	\$3,366,000.00
Construction Engineering			\$0.00
Other			\$0.00
Total	\$3,300,000.00	\$66,000.00	\$3,366,000.00

Funding Source	FY2026	FY2027	Total
Water Utility Fund	\$3,300,000.00	\$66,000.00	\$3,366,000.00
Phosphorus Fund			\$0.00
American Rescue Fund			\$0.00
Electric Utility Fund			\$0.00
Total	\$3,300,000.00	\$66,000.00	\$3,366,000.00

Account Codes (Capital Costs):

140-210-41-115-000-0000-00000-551502 \$3,366,000.00
\$3,366,000.00

Additional Information

Type of Project Upgrade/Replacement
 Asset Type Water
 Project Manager Joshua Strait
 External Funding Sources We anticipate a State Revolving Fund (SRF) loan to cover the cost of the remaining lead services in 2026. This loan would carry a 0% interest rate.
 Project Location/ Distribution
 Impact on Operating Budget The ongoing removal of Lead Service lines from the system will signal the end of the lead rebate program traditionally funded from 41251500-561606. We believe that ongoing compliance labor will remain roughly the same but shift slightly in different areas.

Miscellaneous Waterworks Improvements

Project Number: WU038
Total Capital Cost: \$1,000,000.00

Department: WATER
Type: Capital Improvement

Timeline: 01/01/2026 to 12/31/2030

Request description:

This project provides for emergency, unplanned, miscellaneous repair, replacement and rehabilitation of pumps, controls, electrical systems and other components of the city's water supply sites.

Central Elevated Tank Rehabilitation

Project Number: WU043
Total Capital Cost: \$1,158,659.00

Department: WATER
Type: Capital Improvement
Timeline: 01/01/2023 to 12/31/2026

Request description:

This project provides for the rehabilitation of the Central Elevated Water Storage Tank. The project will be completed in two phases in order to retain the operational benefits of the tank. The piping, appurtenances, and new tank will be constructed in Phase 1, while the demolition of the existing tank and restoration of the site will take place in Phase 2.

Capital Costs	FY2026	Total
Design		\$0.00
Construction/Maintenance	\$1,078,659.00	\$1,078,659.00
Construction Engineering	\$80,000.00	\$80,000.00

Bulk Water Stations

Project Number: WU045
Total Capital Cost: \$300,000.00

Department: WATER
Type: Capital Improvement

Timeline: 01/01/2025 to 12/31/2026

Request description:

This project is for the construction of two additional Bulk Water Stations which will be strategically located throughout the City. One of these two newer units will be installed at 1800 S. Washington St. (the Water Utility's South Operations Center - SOC) and the second station will be installed at the City's Public Works building on Fort Hill Drive. The City currently has one Bulk Water Station located in the northern portion of the City at the utility's Water Service Center and a second one located south of the Springbrook Water Reclamation Center off Plainfield-Naperville Rd. Bulk Water Stations are designed to supply commercial/landscaping users with large amounts of water for filling swimming pools, construction use, and landscaping.

Northwest Waterworks Improvements

Project Number: WU051
Total Capital Cost: \$3,350,000.00

Department: WATER
Type: Capital Improvement

Timeline: 01/01/2026 to 12/31/2027

Request description:

The pumping equipment and controls within Northwest Water Works, built in 1986, are past their life cycle and much of the equipment is obsolete. The Water Utility plans on upgrading the equipment at this station in several phases. Phase 2 of this project includes the replacement of all five horizontal split case pumps, installation of VFDs to control the pumps, replacement of the suction and discharge piping, valve(s) replacement, and replacement of all electrical controls. Phase 3 of these upgrades will include the replacement of all reservoir piping, replacement of control valves, upgrade all electrical equipment of the lower level, and painting and thermo insulations of all piping.

Elevated Tank and Water Reservoir Coating - Southwest Elevated Tank

Project Number: WU063
Total Capital Cost: \$5,000,000.00

Department: WATER
Type: Capital Improvement

Timeline: 1/1/2028 to 12/31/2029

Request description:

This project will recoat the existing above ground water storage reservoirs, prolonging the life of these assets. These coatings will extend the life of these reservoirs by protecting the structure's substrate from UV damage, corrosion, weather and other forms of damage.

Capital Costs

	FY2028	FY2029	Total

Royal St. George Water Main Improvements

Project Number: WU421
Total Capital Cost: \$5,048,521.00

Department: WATER
Type: Capital Improvement

Timeline: 01/01/2026 to 12/31/2028

Request description:

This project will replace water mains on the following streets: Segments of Royal Saint George between Ogden and 1317 Royal Saint George, Plum Hollow Court and Ogden Avenue (5th to Royal Saint George). 6" water mains will be upsized to 8" and 10" water mains will be upsized to 12". All other locations will be replaced with 8" water main. The total water main to be replaced within this project is 1.02 miles.

Fairway and Country Lakes Water Main Improvements

Project Number: WU424
Total Capital Cost: \$898,477.00

Department: WATER
Type: Capital Improvement

Timeline: 01/01/2025 to 12/31/2027

Request description:

This project will replace approximately 1500 feet of 8" water main from roughly 1438 to 1520 Fairway Drive, and roughly 120 feet of new pipe to provide better redundancy with adjacent water main. The project will also replace an additional 1500 feet in the Autumn Run subdivision along Country Lakes Drive. The location of the existing water main relative to the buildings it serves has made repair of the multiple main breaks on each segment difficult for crews and impactful for customers.

Capital Costs	FY2026	FY2027	Total

South-Central Interceptor Bank Stabilization T06 - Phase 3

Project Number: WW001
Total Capital Cost: \$100,000.00

Department: WATER
Type: Capital Improvement
Timeline: 01/01/2023 to 12/31/2027

Request description:

This project involves bank stabilization of certain segments of the East branch of the DuPage River, adjacent to the City's South-Central Interceptor sanitary sewer. This sanitary sewer interceptor conveys wastewater from approximately one third of the City to the South Operations Center (SOC) pump station. Phase 1 of the project was constructed in 2020 and Phase 2 was constructed in 2022 (segment between Gartner and Santa Maria). Phase 3 will be constructed in 2023, and is the segment between Hobson and 75th Street. This project has entered the monitoring phase as required by permit through 2027

Sanitary Sewer System - Rehabilitation/Replacement Program - Manholes / Siphons

Project Number: WW006
Total Capital Cost: \$2,730,000.00

Department: WATER
Type: Capital Improvement
Timeline: 01/01/2025 to 12/31/2030

Request description:

This project consists of ongoing investigation and rehabilitation of miscellaneous deteriorated sanitary sewer manholes and siphons in areas known to have significant groundwater infiltration using trenchless technology processes system-wide.

Sanitary Sewer Oversizing Payments - New Developments

Project Number: WW009
Total Capital Cost: \$50,000.00

Department: WATER
Type: Capital Improvement
Timeline: 01/01/2025 to 12/31/2030

Request description:

Some sanitary sewer extensions in new developments throughout the utility service area are oversized from 8" to larger sizes or deepened from a standard depth of 6 to 12 feet to greater depths for offsite capacity in accordance with the City's Master Wastewater Utility Plan. Payments are made to the developer for the incremental costs of sanitary sewer oversized and deepening.

Site Security Improvements - Water & Wastewater Facilities

Project Number: WW033
Total Capital Cost: \$880,000.00

Department: WATER
Type: Capital Improvement
Timeline: 01/01/2025 to 12/31/2030

Request description:

This project will provide for the physical and technical protection of water and wastewater facilities throughout the City of Naperville. Site security from vandalism and physical and technical attacks on these critical infrastructures is beneficial for the protection of water quality, provision of sufficient water quantity, ensuring public confidence, and protection of public health and safety. This project includes new security fencing, repairs of existing fencing, other physical protection, alarm systems, security cameras, and cybersecurity improvements. These improvements are within the guidelines from the EPA and DHS.

Sanitary Sewer Lift Station Rehabilitation Program - Miscellaneous Improvements

Project Number: WW034
Total Capital Cost: \$1,000,000.00

Department: WATER
Type: Capital Improvement
Timeline: 01/01/2026 to 12/31/2030

Request description:

This project is to provide miscellaneous improvements to sanitary sewer pump stations due to a number of factors including age of existing pumps and controls and corrosion of some of the underground metal structures. Many of the pumps have reached the end of their projected lifespan and are becoming unreliable, and some of the lift station emergency generators are obsolete, with repair parts no longer available. This project will also provide for replacement of major components at lift stations that are not scheduled for complete rehabilitation, as well as ongoing SCADA upgrades and miscellaneous forcemain rehabilitation.

SWRC - Roadway Improvements

Project Number: WW038
Total Capital Cost: \$300,000.00

Department: WATER
Type: Capital Improvement
Timeline: 01/01/2026 to 12/31/2030

Request description:

This project proposes the reconstruction/repaving of deteriorated roadways and pavement within the Springbrook Water Reclamation Plant. The roadways are necessary to allow for manpower and equipment to maintain plant operations, tanker truck delivery of required wastewater treatment chemicals, and the removal of residual plant solids.

SWRC - South Plant Capacity Upgrades & Improvements

Project Number: WW045
Total Capital Cost: \$50,734,850.00

Department: WATER
Type: Capital Improvement

Timeline: 11/01/2022 to 12/31/2028

Request description:

This project proposes to design and construct capacity improvements and upgrades to the South Plant, including aeration and clarifier improvements. Additional aeration capacity will be constructed, reaching a total of four three-pass basins, four additional high speed turbo blowers and new membrane diffusers for the new basins. The South Plant aeration basins will be configured for MUCT biological phosphorus removal, including baffle walls, mixers and recirculation pumps. In addition, three additional 115' diameter secondary clarifiers will also be constructed.

Capital Costs	FY2026	FY2027	FY2028	Total

Springbrook Interceptor (T01) Rehabilitation - Dragon Lake Phase 1

Project Number: WW047
Total Capital Cost: \$6,487,200.00

Department: WATER
Type: Capital Improvement

Timeline: 01/01/2025 to 12/31/2028

Request description:

The Springbrook (T01) Interceptor is one of two IEPA permitted interceptors that transport wastewater from the Water Utilities sanitary collection system to the Springbrook Water Reclamation Center. This major asset was installed in 1975 and, after a recent MSI (Multi Sensor Inspection), the Springbrook interceptor is in need of major repairs and rehabilitation. This project is a multi-year project, needing several phases to compete. Included in this project is the replacement of manholes in the Dragon Lake Forest Preserve, rehabilitation of the remaining manholes, CIP lining of the interceptor, and by-pass pumping. Phase 1 of this project will include the replacement of two manholes, epoxy lining of the remaining manholes in the Dragon Lake forest Preserve and the installation of a Cured-in-Place (CIP) liner from 75th Street to 87th Street.

SWRC - South Plant RAS/Grit Improvements

Project Number: WW048
Total Capital Cost: \$7,412,000.00

Department: WATER
Type: Capital Improvement
Timeline: 11/01/2022 to 12/31/2026

Request description:

This project will provide for the installation of RAS (Return Activated Sludge)/Grit improvements at the South Plant. The existing aerated grit removal process is original to the South Plant construction and allows large amounts of grit to pass through the process, causing problems downstream, and does not provide for automatic removal and classification. A new vortex-type grit removal system will be designed along with a grit washer classifier. The new grit system shall be sized to accommodate both existing conditions as well as the proposed expansion of South Plant capacity for a 50/50 flow split. Also included in this project are RAS pumping improvements to support South Plant expansion.

Capital Costs	FY2026	Total
Design	\$35,000.00	\$35,000.00
Construction/Maintenance	\$7,077,000.00	\$7,077,000.00
Construction Engineering	\$300,000.00	\$300,000.00

SWRC - Cloth Media Disc Filter Facilities

Project Number: WW050
Total Capital Cost: \$39,500,000.00

Department: WATER
Type: Capital Improvement
Timeline: 01/01/2026 to 12/31/2030

Request description:

The existing underground sand filters serving as tertiary filters for the North plant are near the end of their useful life. The South plant does not currently have tertiary filters. It is anticipated that a lower than 0.5 mg/L phosphorus limit will be imposed on Springbrook Water Reclamation Center in the future and that this will be achieved through chemical polishing and tertiary filtration. Cloth media disc filters are anticipated to provide tertiary filtration due to their compact footprint and ease of media replacement.

Capital Costs	FY2026	FY2027	FY2028	FY2029	FY2030	Total

SWRC - Nutrient Removal Upgrades & North Plant Aeration Improvements

Project Number: WW057
Total Capital Cost: \$68,170,000.00

Department: WATER
Type: Capital Improvement

Timeline: 01/01/2024 to 12/31/2029

Request description:

This project will reconfigure the existing aeration tanks in the North Plant for MUCT biological phosphorus removal, associated submersible mixers, recirculation pumps and replacement of the existing mechanical aeration system with high-speed turbo blowers and fine bubble diffusers. The existing mechanical aerators are 15-40 years old, and sourcing parts for maintenance and repairs is difficult. This project will also add sidestream fermentation and a chemical phosphorus removal backup system.

Capital Costs	FY2026	FY2027	FY2028	FY2029	Total

Springbrook Interceptor (T01) Rehabilitation - Phase 2 (Dragon Lake)

Project Number: WW070
Total Capital Cost: \$6,186,600.00

Department: WATER
Type: Capital Improvement

Timeline: 01/01/2026 to 12/31/2029

Request description:

The Springbrook (T01) Interceptor is one of two IEPA permitted interceptors that transport wastewater from the Water Utilities sanitary collection system to the Springbrook Water Reclamation Center. This major asset was installed in 1975 and, after a recent MSI (Multi Sensor Inspection), the Springbrook interceptor is in need of major repairs and rehabilitation. This project is a multi-year project, needing several phases to compete. Included in this project is the replacement of manholes in the Dragon Lake Forest Preserve, rehabilitation of the remaining manholes, CIP lining of the interceptor, and by-pass pumping.

Capital Costs	FY2026	FY2027	FY2028	FY2029	Total

Springbrook Interceptor (T01) Rehabilitation - Phase 3 (Countryside/The Fields)

Project Number: WW071
Total Capital Cost: \$11,000,000.00

Department: WATER
Type: Capital Improvement

Timeline: 01/01/2029 to 12/31/2029

Request description:

The Springbrook (T01) Interceptor is one of two IEPA permitted interceptors that transport wastewater from the Water Utilities sanitary collection system to the Springbrook Water Reclamation Center. This major asset was installed in 1975 and, after a recent MSI (Multi Sensor Inspection), the Springbrook interceptor is in need of major repairs and rehabilitation. This project is a multi-year project, needing several phases to compete. Included in this project is the replacement of manholes in the Dragon Lake Forest Preserve, rehabilitation of the remaining manholes, CIP lining of the interceptor, and by-pass pumping.

Capital Costs	FY2027	FY2029	Total
Design			\$0.00
Construction/Maintenance	\$5,500,000.00	\$5,500,000.00	\$11,000,000.00
Construction Engineering			\$0.00
Other			\$0.00
Total	\$5,500,000.00	\$5,500,000.00	\$11,000,000.00

Longwood Sanitary Sewer Replacement

Project Number: WW088
Total Capital Cost: \$750,000.00

Department: WATER
Type: Capital Improvement
Timeline: 01/01/2030 to 12/31/2030

Request description:

This project includes the replacement of existing sanitary sewer where current rehabilitation has surpassed its useful life. Rehabilitation of pipe in these areas was some of the first rehabilitation that was undertaken by the department in the early 1990's.

Capital Costs	FY2030	Total
Design		\$0.00

Sanitary Sewer Lateral Lining & Vac-A-Tee Installation Downtown/College Area (C05/C06) Phase 1

Project Number: WW089
Total Capital Cost: \$2,500,000.00

Department: WATER
Type: Capital Improvement
Timeline: 01/01/2030 to 12/31/2030

Request description:

This multi-year capital improvement project consists of the rehabilitation of deteriorated sanitary service laterals and Vac-A-Tee installation in the North Central College, and downtown areas using trenchless technology processes. Vac-a-Tee's are a trenchless cleanout system that allows access to the sanitary service pipe for cleaning and inspection.

Sanitary Lift Station Force Main Rehabilitation Royce Road

Project Number: WW092
Total Capital Cost: \$1,015,000.00

Department: WATER
Type: Capital Improvement

Timeline: 01/01/2026 to 12/31/2027

Request description:

This project includes the replacement of the Royce Road sanitary sewer force main that was installed in 1987. Internal condition assessments determined that this force mains is passed its useful life and is in need of full replacement.

Capital Costs

Water Facility Generator Replacement NWPS

Project Number: WW093
Total Capital Cost: \$854,000.00

Department: WATER
Type: Capital Improvement
Timeline: 01/01/2028 to 12/31/2030

Request description:

The Water Utility has a fleet of back up generators to supply power to water supply and wastewater pumping stations in case of power outages. Some of these generators are up to 45 years old and obsolete. The "Generator Replacement Projects" will ensure that each of these critical sites will have reliable secondary power source and meet the utilities regulatory compliance requirements.

OVERVIEW OF THE
**SPECIAL
FUNDS**

26

SERVICES

- Collections of books, movies, music, games, and technology items for all ages and interests.
- Digital collections of eBooks, eAudiobooks, movies, TV shows, music, comics, newspapers, and magazines.
- Print books in 10 languages (Arabic, Chinese, French, Hindi, Marathi, Polish, Russian, Spanish, Tamil, and Urdu), movies in over 30 languages, and digital materials in over 60 languages.
- Research and learning resources, including news databases, genealogy and local history resources, job search assistance, investment resources, and homework help.
- Activities for children to help develop literacy skills and encourage a love of reading, including interactive story times, craft programs, clubs, and world language programs.
- Adult programming with an emphasis on literacy, education, culture, and technology.
- Technology services, including access to public computers and Wi-Fi, printers, scanners, 3-D printers, a sound recording studio, a green screen room, and Wi-Fi hotspots for checkout.
- Services for business start-ups and small businesses.
- Welcoming spaces for the community to meet, including inviting facilities, rentable meeting rooms, and small group study rooms.
- Partnerships with over 150 local organizations.

2025 ACCOMPLISHMENTS

- Implemented non-expiring library cards for most Naperville residents; now, customers can apply once, and most people will never need to renew them while they continue to live in Naperville.
- Added a Book Club Collection for adults to support and enhance local book clubs.
- Added a Children's Staff Picks collection to help kids and parents find popular materials and curated recommendations more easily.
- Launched additional new services and programs as part of our strategic plan, including a book club for adults with disabilities, programs about artificial intelligence, and a teen pitch program.
- Created a professional facilities plan for all three libraries to help better plan long-term capital needs.

2026 GOALS

- Completing a community survey to get feedback on what we're doing well and how we can improve.
- Investigating changes to our Sunday hours.
- Assessing improvements and relaunching our Popular Picks collections.
- Assessing the current Summer Reading Program and Winter Reading Program to determine any beneficial changes.
- Investigating updates to our children's play spaces.

TO: Mayor Wehrli and City Council

FROM: Dave Della Terza, Naperville Public Library, Executive Director

DATE: September 26, 2025

SUBJECT: Naperville Public Library 2026 Budget and Tax Levy Request

The Naperville Public Library Board of Trustees and staff are proud to present a 2026 operating budget that reflects both our commitment to excellence and our responsibility to the community we serve. As the second busiest library in Illinois, and a cornerstone of the Naperville community, our library continues to deliver unmatched value, usage, and satisfaction for our residents.

Each year, we build our budget from the ground up using a zero-based budgeting process. This approach ensures every dollar is justified through careful analysis of historical spending and future needs. We work to ensure we can attract and retain highly qualified staff, maintain a robust and diverse collection, and support efficient operations and well-maintained facilities.

For 2026, the Naperville Public Library Board of Trustees is proposing:

- An operating budget of \$18,480,478 – an increase of \$536,010 (2.99%)
- A property tax levy request of \$17,818,697 – an increase of \$641,204 (3.73%)

Approximately 96% of our revenue comes from property taxes, with the remaining 4% coming from state grants, investment income, personal property replacement tax, and library operations.

The most significant budgetary change for next year is a substantial increase in employee health insurance costs. Without this change, the 2026 budget would increase by only 1.74% from 2025. In anticipation of rising costs, we proactively absorbed several planned 2026 projects into our 2025 budget and eliminated 2.5 FTEs (five part-time positions) from the upcoming year's staffing plan.

Naperville Public Library is an essential community resource. Our libraries are consistently among the most visited in the state, and our programs, collections, and services are deeply valued by our residents. The proposed budget and levy request will allow us to maintain the exceptional level of service our community expects, while continuing to maintain fiscal responsibility.

LIBRARY CAPITAL RESERVE FUND

The Naperville Public Library Capital Reserve Fund was established to account for unexpended balances from the Library's operating budgets over many years. State statute restricts expenditures to capital projects. The Library Board reviews the fund's purpose annually, and details for planned expenditures are included in the total budget resolution passed by the Board of Trustees.

26 LIBRARY GIFT/MEMORIAL FUND ...

The Naperville Public Library Gift/Memorial Fund was established to hold contributions of gifts and memorials to the Naperville Public Library. Gifts come from individuals, civic groups, and businesses. The fund also holds all grants except the Per Capita Grant. Grants run on independent calendars and frequently bridge multiple years. Interest on investments from gifts is also retained in this account. Undesignated gifts can be held in reserve for major purchases and are not necessarily spent during the current fiscal year.

SERVICES

- **Education:** Aligns with Illinois School Board of Education standards for on-site and virtual school services for 35,000 students in grades K-12. Additionally, Naper Settlement is:
 - o A homeschool educator resource provider through Homeschool Days and Homeschool Homestead Walking Tours.
 - o CPDU credit-approved teacher professional development provider through free online lesson plans and teacher workshops. Workshops provide 1 CPDU credit for teachers.
 - o An educational and social development summer camp provider for over 620 participants.
 - o An agriculture STEM programming facility for over 2,500 children.
 - o An adult programming provider and developer, including Friendly Neighborhood Historian lectures, book club, Blacksmithing, architecture, and history-based walking tours.
- **Economic Development:** Serves as an economic engine for the city by increasing awareness of local restaurants and businesses at events, encouraging traffic to the downtown area, and providing options for residents so their entertainment and educational dollars stay within the city limits.
 - o Offers unique, historic settings and rental spaces for events such as weddings, private parties, showers, business meetings, festivals, company picnics, reunions, seminars, and memorials.
 - o Promotes the city museum as a cultural tourism destination through regional marketing campaigns.
- **Community:** Gathers the community through one-of-a-kind events, programs, and other offerings. Creates a cultural and engaging connection with the community through in-person visitation, social media, email, traditional and digital advertising, seasonal mailings, video, etc.
- **Preservation:** Keeper of the community's history, memory, and legacy through extensive collection, preservation, and exhibiting of nearly 90,000 artifacts in a state-of-the-art archival care facility.
 - o Collects and interprets Naperville's history from pre-settlement through today.
 - o Focused on telling a whole history guided by nationally recognized historians, researchers, and preservationists.
 - o Uses the body of work to tell the American story through the Naperville experience in public programming, speaking engagements, collection initiatives, oral histories, and more.
 - o Promotes and facilitates plaque program of historic structures in town.
 - o Digitizes collection segments for educational use by the field and the public.
 - o Preserves, maintains, repairs, and improves more than 31 historic structures and grounds on site, including two buildings on the National Registry of Historic Places.
- **Philanthropy:** Provides a desirable investment for philanthropists, grantors, and foundations. Seeks funding support for programmatic and capital needs from private, local, state, and national sources.
- **Institutional Best Practices:** Maintains operational excellence through best practices in accordance with museum accreditation, applicable law, and nonprofit management standards to ensure fiscally responsible and long-term sustainability, growth, and mission-impact.

2025 ACCOMPLISHMENTS

- **Capital Projects**
 - o Replaced the Daniels House and Halfway House roofs.
 - o The Pine Craig/Caroline Martin Mitchell Mansion drive-around project replaced the red colored gravel with concrete.
 - o An ADA accessible concrete ramp was added to the Copenhagen School House.
 - o The Century Memorial Chapel windows repair project, HVAC system, and TAC controls replacement have started and are scheduled to be completed within Q4.
- **2025 Grants:**
 - o *State of Illinois*
 - \$200,000 to support the HVAC improvement project in Century Memorial Chapel.
 - \$500,000 in funding to create four programs - Golden Days Senior Programs, Camp New Horizons, the Regional Institute for Teacher Education, and Field Trip Connect. Together, they are a comprehensive, year-round approach to life-long learning and community impact.
 - o *DuPage Community Foundation*
 - \$21,000 for the Permaculture Garden project. The garden, designed using Native American growing practices, will be an example of sustainable and historic agricultural practices on the Naper Settlement grounds.
- **Exhibits, Programming & Collections:**
 - o The Birk Family Innovation Gateway's welcome film, "Looking Back is Looking Forward," received a Gold Telly Award, Silver Telly Award, and Platinum Level AVA Digital Award.
 - o In February, the Thresher Experience opened in the Herman and Anna Hageman Memorial Thresher Hall. This free exhibit enables a 1912 thresher to come alive through projection mapping and allows guests to interact with digital characters. In July, Naper Settlement was honored with the Best Practices Award for the Thresher Experience from the Association of Midwest Museums.
 - o The free Farmers Market, which has 29 vendors, is on track to welcome over 8,700 people.
 - o The exhibit "Selling Kroehler" showcased Naper Settlement's Kroehler Manufacturing collection - the largest in the country - and offered new original research to contribute to the American marketing and consumerism story of the 20th century.
 - o Teacher training reached a new level when staff were accepted to the National Social Studies Conference in Washington, D.C., to share the Unvarnished curriculum.
 - o With over 620 filled slots, Camp Naper achieved 104% capacity across 25 camps and generated over \$172,000 in revenue.
- **IT/Innovation:**
 - o The planetary scanner, a state-of-the-art technology used to produce 3D scans, was brought online with increased calibration. 600 items from the Kroehler collection have been scanned and digitized in 2025, and an additional 1,400 items will be scanned and digitized by the end of the year.
 - o The Naperville Heritage Society network security was enhanced. Naper Settlement networks were streamlined by consolidating three partial site networks into one unified secure network. A site-to-site VPN was established, creating one Naper Settlement network that spans all buildings at the primary and Fort Hill Collections sites.
 - o Naper Settlement undertook a collections management system overhaul with onboarding Terentia, a platform that catalogs and preserves 2D, 3D, and digital collections.
 - o The NaperSettlement.org Digital Policies were upgraded with changes to the accessibility, privacy, cookie, and terms and conditions policies.

- **Strategic and Long-Range Site Plans**

- o Year 1 of the new 5-year strategic plan is underway. A high-level draft of the Long-Range Site Plan was vetted and presented to stakeholders from various backgrounds, agencies, and community leadership positions. The upcoming draft has a big picture focus and will inform planning and anticipate future needs of Naper Settlement for the next 10 – 15 years. A final Long-Range Site Plan will be brought before the City Council for their approval in 2026.

2026 GOALS

- **Capital Projects**

- o Complete the Inventing Agriculture permanent exhibit.
- o Replace the Century Memorial Chapel cedar shake roof.

- **2026 Grants**

- o *Federal funding*
 - To support a digital, humanities-based interactive experience to celebrate the 250th anniversary of the Declaration of Independence through telling the stories of Naperville's nationally recognized military veterans.
 - To support an on-site program as part of the 250th anniversary of the Declaration of Independence that commemorates American independence, honors the nation's heritage, and fosters patriotic engagement with local stories.
 - To support the planning of a Suburbanization exhibit.
 - To support the planning of an exhibition on Naperville Military Service Personnel.
- o *Corporate Grant funding*
 - To support early STEM learners through family STEM programming.
- o *Other*
 - To support the digitization of the histories of previously unheard voices.

- **Exhibits, Programming & Collections**

- o A 250th anniversary Declaration of Independence exhibit featuring programs, exhibits, and special events highlighting America's founding and Naperville's connections to American history.

A new teacher professional development initiative will expand the Settlement's impact with area educators.

- o Terentia, an online collections hub, will be activated and allow for more public access to the vast collection of the Naperville Heritage Society and the City of Naperville.

- **IT/Innovation**

- o Improve network firewalls to increase security.
- o Digitize another 2,000 items from its collection to keep on track with the goal of digitizing 8,000 items (roughly 10% of its holdings) over 3 years.
- o Retire outdated technology – computers, exhibit items, humidity loggers, and other technologies - to improve network and site security.
- o Naper Settlement will install security cameras and receive an upgraded door access system to manage secure access across the site as part of the City's CIP.

- **Strategic and Long-Range Site Plans**

- o Present the Long-Range Site Plan, which will guide the institution for the next 10-15 years and complete the museum's reaccreditation by the American Alliance of Museums.

MEMORANDUM

TO: Mayor Wehrli and City Council

FROM: Naperville Heritage Society Board of Directors
Erik Long, Chairman

DATE: September 30, 2025

SUBJECT: Request for CY26 Naper Settlement Operating Support

The Naperville Heritage Society and Naper Settlement Museum Boards respectfully request the Council's consideration in granting \$5,035,082 to support the CY26 operations of the City's Museum complex.

Established as a museum by Caroline Martin Mitchell through a perpetual charitable trust in 1936 and operated via a public-private partnership between the City of Naperville and the Naperville Heritage Society since 1969, Naper Settlement's mission is to document, preserve, interpret the history of Naperville and connect visitors to Naperville's history through engaging and unique educational experiences. Today, Naper Settlement's mission has evolved to include Naperville history through present day and to show how Naperville serves as a microcosm of the larger American story, sharing history and educational programs that show how our story is intrinsically tied to the national narrative and the milestones that shaped our nation.

Naper Settlement is the institutional memory of our city, a place to gather our community, a leader in informal education, and economic driver through cultural tourism. As such, it is key to creating personal and community identity, laying the groundwork for strong, resilient communities, serving as a catalyst for economic development, and helping to create an engaged citizenry with critical thinkers and leaders. Within this framework Naper Settlement takes the opportunity to provide an understanding of the interconnectedness between history, culture, economics, the arts, sciences, technology, reading, and math.

The museum plays a vital role in why people want to live here and understanding who we are as a city and community. We are honored to work with you to meet the goals set out in the trust more than 83 years ago.

Respectfully,

10/2/25

Erik Long
Chairman
Naperville Heritage Society

26 E-911 SURCHARGE FUND...

The E-911 Surcharge Fund was created to receive all surcharges and other monies paid or collected to fund the operation of the E-911 system under a referendum (Ordinance 92-231) approved by residents in November 1992. The ordinance established a monthly surcharge on billed subscribers of network connections provided by telecommunication carriers to fund an Enhanced 911 system. The fee of \$0.50 was established in 1992, and the surcharge increased by \$0.50 in 2005 and by an additional \$0.50 in 2017. The total charge is now \$1.50 per month. The fund occasionally receives revenues through state grants for wireless connections.

26 ETSB FUND...

The Naperville Emergency Telephone Systems Board (ETSB) oversees Naperville's receipt and usage of E-911 surcharge funds. As of Dec. 1, 2017, the board opted in with the City of Aurora and the Village of North Aurora since the City of Aurora provides 911 services on behalf of North Aurora.

A new fund was established with the inclusion of the City of Aurora and the Village of North Aurora in Naperville's ETSB. The E-911 surcharge fees and other monies paid or collected are deposited into the fund and used to fund the operation of the E-911 system for the City of Aurora and the Village of North Aurora. Funds are distributed to the City of Aurora. Because funds are earned by and due to the City of Aurora, there is no impact on Naperville's General Fund.

FOREIGN FIRE INSURANCE BOARD

Per Illinois State Statute, the City created the Foreign Fire Insurance Tax Fund, which collects a 2.0% tax on premiums of fire insurance policies written by foreign (out-of-state) fire insurance companies.

All members of the Naperville Fire Department are eligible to be elected as officers of the Foreign Fire Insurance Tax Board. Members, including a treasurer, make all needed rules and regulations concerning the board and management of money to be appropriated to the board. The board develops and maintains a listing of all appropriate expenditures. The treasurer receives appropriated funds from the City, which are used for the maintenance, use, and benefit of the Naperville Fire Department. The Fire Chief has final approval on all expenditures.

26 FOOD & BEVERAGE FUND ...

The Food & Beverage Fund records all revenues and expenses associated with a 1.0% citywide food and beverage tax. The fund was established in October 2016 as a replacement for the Culture Fund to improve the transparency of the revenue sources and streamline transactions by reducing the number of annual interfund transfers.

Revenues earned from the food and beverage tax are distributed to six areas: the Special Events and Community Arts (SECA) grant program, the Naperville Police Pension Fund, the Naperville Firefighters Pension Fund, the Social Services Grant Program, the Debt Service Fund, and the Naper Settlement Fund.

26 CDBG FUND...

Community Development Block Grant

The Community Development Block Grant (CDBG) is a federally funded program of the Department of Housing and Urban Development (HUD) that supports community development activities to build stronger and more resilient communities. The City of Naperville's annual CDBG program helps maintain and improve the quality of life for low- and moderate-income residents in the area by assessing housing conditions, providing services, and supporting local agencies.

Naperville's CDBG program adopts and implements an annual action plan for the upcoming program year. The plan is adopted by the City Council each summer and approved by HUD. The City receives grant funding for its program from HUD, and those dollars are used for public services, grant administration and planning, and development of rehabilitation of public facilities, infrastructure improvements, and housing programs.

26 SPECIAL SERVICE AREA 36

Downtown Maintenance & Marketing

The City improves downtown Naperville by providing high-quality maintenance and support services for parking lots, parking decks, sidewalks, and landscaping. These services are mainly carried out by Public Works, with assistance from other City departments. The downtown maintenance Special Service Area (SSA) was created in 2006 as SSA 22 and has been renewed four times: in 2011 as SSA 24, in 2015 as SSA 26, in 2020 as SSA 33, and in 2025 as SSA 36 (*pending approval on Oct. 21, 2025*).

This SSA provides special municipal services to the designated area, including parking lot operations and maintenance; public parking garage maintenance; custodial services; consolidated dumpster service; sidewalk and parking lot snow removal; maintenance of landscaping, streetscape, and street lighting; holiday lighting on parkway trees and buildings; sidewalk maintenance, including brick paver repair; special directional signage; and capital improvements. The SSA also supports special police services for the downtown area, including dedicated police patrol and parking enforcement. Property owners cover one-third of the expenses, with the City covering the remaining two-thirds.

In addition to maintenance, the Downtown Naperville Alliance (DNA) markets downtown through print, radio, direct mail, the Internet, and social media to expand the downtown customer base. The downtown merchants cover 100% of the expenses. The DNA also administers the downtown Naperville gift card program, training and merchant meetings, and other services promoting business expansion and retention.

26 TEST TRACK FUND ...

The Naperville Test Track is a public-private partnership between the City of Naperville, the Naperville Development Partnership, and the Naperville auto dealerships that make up the Test Track Association. Situated on a nine-acre site next to many of Naperville's dealerships, the Test Track offers a safe, controlled environment away from city streets and neighborhoods where member dealers can demonstrate a vehicle's features and benefits during test drives. This improves the vehicle buying experience for potential customers, boosts sales for the dealerships, and decreases the number of test drives on residential streets. The member dealerships share the costs for operations and maintenance.

The Test Track Association consists of 11 member dealerships, including Advantage Acura, Dan Wolf Chevrolet, Dan Wolf Toyota, Dan Wolf Lexus, Gerald Nissan, Gerald Kia, Gerald Subaru, Mercedes-Benz of Naperville, Woody Buick-GMC, Castle Chrysler Jeep Dodge Ram Naperville, and Bill Jacobs Volkswagen.

26 RENEWABLE ENERGY FUND ...

The Renewable Energy Program supports the development of renewable energy projects in Illinois. The program allows Naperville residents and businesses to support clean energy resources, such as solar and wind, by signing up to contribute an additional specified amount each month on their utility bills. The Renewable Energy Fund houses the money that comes from customers who choose to participate in the program.

Renewable energy is electricity produced from natural resources that are never used up and do not emit harmful pollution into the air. Naperville's Renewable Energy Program consists of 99% wind and 1% solar, generated entirely within Illinois. When customers sign up, clean energy from renewable sources is added to the Illinois electric grid. The electrons produced by renewable energy are fed into the local electric grid, reducing reliance on fossil fuels. The extra cost for participants comes from the higher expenses of generating renewable energy compared to fossil fuels.

In recent years, the Renewable Energy Program has been revamped with input from the Naperville Environment and Sustainability Task Force (NEST), the Public Utilities Advisory Board (PUAB), and the City Council to increase its impact on the community. Examples include grant and rebate opportunities for residential and commercial customers investing in energy-efficient technology and sustainable projects.

26 BUSINESS DISTRICT - BLOCK 59

In March 2023, the City Council established the Block 59 Business District by passing Ordinance 23-040. The goal of the Block 59 Business District is to promote the private redevelopment of blighted properties generally located at the northeast corner of Route 59 and Aurora Avenue. This retail area has seen high vacancy rates, and the redevelopment project aims to create a lively multi-use commercial district that includes retail, restaurants, and entertainment venues. In 2025, several of Block 59's commercial tenants opened their doors, with full project completion expected in spring 2026.

The establishment of the Block 59 Business District included a 1.0% business district sales tax to be collected by merchants operating within the geographic limits of the business district. The Illinois Department of Revenue will collect and remit the business district tax to the City. The City will use the revenue collected from that tax to reimburse the Block 59 developer for expenses incurred during the project, as defined in a redevelopment agreement.

BUSINESS DISTRICT - HEINEN

In December 2022, the City Council established the Heinen Business District by passing Ordinance 22-145. The goal of the Heinen Business District is to promote private redevelopment of blighted properties primarily located in the 1200 block of Chicago Avenue between Olesen Drive and Pembroke Road. This retail area has faced high vacancy rates and major stormwater retention issues, and the redevelopment project aims to create a lively retail zone that features a high-quality grocery store, Heinen's, which opened to the public in September 2025.

The creation of the Heinen Business District included a 0.5% sales tax on businesses within its boundaries. The Illinois Department of Revenue will collect and pass on this tax to the City. The City will use the funds from this tax to reimburse Heinen's developer for expenses related to the project, as outlined in a redevelopment agreement.

SERVICES

- Provides support to the Mayor and City Council through oversight of the City's goals, management of the City Council agenda process, preparation of reports and recommendations, and providing timely and accurate responses to City Council issues.
- Oversees operating departments by providing vision, guidance, and information necessary to make policy decisions, proactively preventing issues, recommending actions, and optimizing service delivery.
- Identifies and prioritizes legislative initiatives and directs lobbying efforts.
- Provides reasonable assurance on the adequacy and validity of internal controls by reviewing operational activities.
- Leads initiatives to achieve the City's mission of creating an inclusive community that values diversity.
- Oversees safety training and the citywide safety team by monitoring safety performance and working with departments to continually improve organizational safety.
- Leads and maintains strategic, consistent, and timely City messaging externally and internally through the use of Naper Notify, social media, the City's website, proactive media relations, the resident newsletter *Naperville Connected*, the employee newsletter *Core*, and the City's government access TV station.

2025 ACCOMPLISHMENTS

- Supported the implementation of the Priorities Plan and provided semi-annual progress updates to the City Council and the community.
- Finalized the development and rollout of the Naperville-specific Core Values video training.
- Engaged a consultant to begin an analysis of risk management and safety roles, responsibilities, policies, and training.
- Developed legislative process and priorities to ensure alignment with the City Council and advocated for legislative priorities by partnering with Councils of government and local legislators.
- Updated the City's Crisis Communications Plan.
- Issued an RFP for the City website content management system.
- Created City Council orientation materials and successfully onboarded three new City Council members.

2026 GOALS

- Support the implementation of the current Priorities Plan and provide regular progress updates to the City Council and the community.
- Complete a community survey to provide updated and more specific resident feedback to guide City priorities.
- Complete the rollout of the Naperville-specific Core Values training.
- Begin implementation of safety and risk management recommendations.
- Engage with City commissions, task forces, and residents on intergenerational opportunities and certification as an autism-friendly community.

- Partner with Naperville legislators and the regional groups on advancing Naperville’s legislative priorities.
- Implement Department of Justice WCAG 2.1, Level AA standards across communications channels.
- Provide communications services to all City departments, the City Manager’s Office, and the Mayor and City Council.

SUPPORT SERVICES

DEPARTMENT **OPERATING** BUDGETS

26

SERVICES

- Serves as Freedom of Information Act (FOIA) Official and Local Election Official.
- Coordinates citywide sustainability efforts.
- Provides record administration support according to Local Records Act provisions.
- Facilitates the execution, filing, and recording of official City documents.
- Directs coordination of citywide special events, including reviewing event applications, managing event logistics, and developing the City's annual special events calendar.
- Oversees matters related to elections and voting, such as voter registration, Will County early voting, and local election administration.
- Serves as the administrator for the City's agenda management system.
- Manages the application, review, award, and distribution processes for all City grant programs, including Special Events and Community Arts (SECA), Community Development Block Grant (CDBG), Social Services, and Opioid Remediation.
- Administers the new and renewal liquor license processes.
- Processes more than 20 different types of licenses and permits.

2025 ACCOMPLISHMENTS

- Completed the 2025-2029 CDBG Consolidated Plan (CONPlan). This document assessed the City's affordable housing and community development needs by incorporating data-driven community input and place-based decisions to govern the activities and framework for all CDBG investments for the next five years.
- Collaborated with the Police and Legal departments to implement the new Massage Establishment Ordinance.
- Successfully coordinated the 2025 Municipal Elections, which included two Electoral Board Hearings.
- Partnered with the College of DuPage and McAninch Arts Center to feature City of Naperville murals as part of the Hokusai and Ukiyo-e Floating World exhibit and supported the establishment of Naperville ArtForum as an independent 501(c)(3) organization.
- Expanded the City's open data portal to include information on the Renewable Energy Program and energy efficiency incentives.
- Expanded the City's Native Vegetation Management Program.

2026 GOALS

- Increase marketing of opioid remediation grant funding opportunities.
 - o **Priority addressed: Safety**
- Successfully coordinate and administer early voting operations for the 2026 General Primary on March 17 and the 2026 General Election on Nov. 3.
- Promote sustainable landscaping practices, expand public access to renewable energy and energy efficiency data through the City's open data portal, and support the growth of the City's Native Vegetation Management program.
 - o **Priorities addressed: Natural Environment/Community Design**

- Continue to identify opportunities to divert waste from landfills through enhanced recycling initiatives.
 - o **Priorities addressed: Natural Environment/Community Design**

SERVICES

- Prepare and produce the annual operating budget and capital improvement program.
- Maintain financial records based on standards prescribed by the Governmental Accounting Standards Board (GASB) and prepare financial statements following generally accepted accounting principles (GAAP).
- Perform billing for the public utilities and other miscellaneous City accounts and collect all related revenues.
- Maintain a customer contact center to serve internal and external customers, including non-public safety dispatch services.
- Coordinate an annual financial audit and support other external and internal audits.
- Maintain procurement standards and procure goods and services at the best value.
- Process biweekly payroll for the City, Naperville Public Library, and Naper Settlement.
- Account for revenues and expenditures of all City funds, monitor revenues and expenditures against approved budgets, and manage the City's cash position.
- Oversee, maintain, and account for debt service, investments, and pension funds.
- Pay all City debts and liabilities through the accounts payable function.

2025 ACCOMPLISHMENTS

- Evaluated the impact of Illinois' grocery tax elimination and recommended replacement revenue to preserve core City services.
- Established a centralized grant management function, establishing internal policies and procedures to improve grant management and reporting.
- Updated the City's procurement code and implemented a new e-procurement solution.
- Completed transitioning to a new electronic utility bill payment system, consolidating printed and electronic bills under one vendor.
- Maintained AAA/Aaa credit rating and oversaw the issuance of \$45 million in general obligation bonds.

2026 GOALS

- Issue a Request for Proposals and begin implementing the next-generation utility billing software.
 - **Priorities addressed: Economy, Utilities**
- Continue to analyze revenue sources for increased diversification opportunities.
 - **Priority addressed: Economy**
- Improve or establish long-term financial forecasts for key budgetary funds.
 - **Priority addressed: Economy**
- Evaluate alternative processes for collecting delinquent taxes and fees due to the City.
 - **Priority addressed: Economy**

SERVICES

- Recruits new employees for open positions and provides professional, technical, and administrative support for hiring and onboarding employees.
- Manages employee and labor relations and administers 12 collective bargaining agreements.
- Creates and interprets policy.
- Facilitates the performance management process and provides ongoing development and training resources.
- Partners with all departments on organizational design and succession planning.
- Establishes, maintains, and manages a comprehensive compensation package through compensation analysis and review.
- Establishes, maintains, and manages a competitive benefits package for employees and retirees; provides education and wellness initiatives to employees; and coordinates and promotes retirement programs.
- Continually compiles, collects, analyzes, and reviews employee data to improve Human Resources processes and procedures.
- Administers the Emerging Leaders Program (ELP).
- Provides administrative support to the Board of Fire and Police Commissioners in testing, hiring, and promoting sworn personnel.

2025 ACCOMPLISHMENTS

- Implemented an updated compensation and classification structure to ensure non-union job classifications and compensation practices are consistent, fair, and competitive in the marketplace to attract and retain a skilled workforce across the organization.
- Introduced a quarterly supervisor lunch and learn training series to equip supervisors and managers with basic management and supervisor skills that will enhance expertise and promote effective management.
- Increased focused and innovative recruitment activities that attracted qualified public safety candidates.
 - o **Priority addressed: Safety**
- Established a comprehensive employer branding hub on appropriate recruitment sites, collaborated with Communications to align recruitment advertising with City social media platforms, and marketed the City as an employer of choice.
- Evaluated and analyzed the benefit and wellness programs offered to employees and retirees to ensure a comprehensive offering.

2026 GOALS

- In order to maintain a fair and equitable non-union compensation structure and process, roll out a revised and automated performance evaluation and merit process.
- In order to continue increasing the applicant pool for entry-level public safety positions, review hiring requirements and identify opportunities to streamline the process.
 - o **Priority addressed: Safety**
- In order to maintain the City's position as an employer of choice, along with providing cost savings and reduced benefits costs, continue to evaluate and analyze the benefit programs that are offered to employees and retirees.
- In order to assist management across the organization, create a formal program to equip supervisors and managers with management and supervisory skills.
- Launch a new class and curriculum for the ELP.

SERVICES

- Provides user and device support to the organization.
- Provides telecommunications support.
- Provides network administration and security.
- Oversees IT infrastructure for computing, storage, and networking.
- Supports, troubleshoots, and maintains infrastructure, systems, and applications.
- Provides enterprise applications and business systems support.
- Provides database administration and data transformation support.
- Develops and supports Geographical Information Systems (GIS) applications.
- Provides technology project and program management.
- Provides public safety technology support.
- Provides reprographics & mailroom services.

2025 ACCOMPLISHMENTS

- Completed the cutover to the P25-based Land Mobile Radio project by year's end.
- Completed the migration to the next-generation GIS systems for the Water Utilities by year's end.
- Completed the citywide upgrade to Windows 11 by year's end.
- Completed the plan to modernize the City's camera and Building Access Control systems.
- Completed the audit of all City analog lines, eliminated lines that were no longer needed, and identified a small number of lines to be replaced with appropriate modern technologies.

2026 GOALS

- Complete a data center expansion to support the City's growing business needs.
- Implement the migration to the next-generation GIS systems for the Electric Utility.
- Implement the migration to the next-generation work order system for the Electric and Water utilities and operational departments.
- Implement the plan to modernize the City's camera and Building Access Control systems.
- Continuously strengthen Naperville's cybersecurity posture by implementing best practices in policies, processes, and technologies.

SERVICES

- Prosecutes ordinance, traffic, and DUI violations.
- Provides the Police Department with legal updates, in-person consultations, assistance with adopting public safety initiatives, and tailored scenario-based training.
- Negotiates and administers collective bargaining agreements and provides legal representation and advice on labor/employment matters.
- Represents the City and its employees in state/federal civil lawsuits and administrative proceedings.
- Advises City staff and City Council on council agenda items and municipal law matters; assists City staff in drafting agreements, ordinances, resolutions, contracts, and legal work related to department projects; and provides City Council with related legal advice.
- Manages and resolves workers' compensation cases, including settlements, return-to-work issues, and subrogation against responsible parties.
- Advises City Council and Liquor Commission on liquor licensing, permitting, and enforcement issues.
- Assists staff and the City Council on planning and land use matters and represents the City in real estate transactions.
- Defends and adjudicates liability claims against the City and represents the City in obtaining restitution for damage to City property.
- Responds to FOIA requests and appeals and assists City staff in responding to FOIA requests; provides FOIA training to various departments and staff to reduce risk exposure.

2025 ACCOMPLISHMENTS

- Prosecuted approximately 11,000 traffic cases, 215 DUI cases, and 500 ordinance violation cases.
- Represented the City in approximately 18 civil lawsuits in federal and state courts, addressing a broad range of legal issues.
 - o Successfully resolved six cases, including securing dismissals in two cases and transferring the defense of another case to a contractor.
 - o Recovered approximately \$175,000 in restitution for damaged City property.
 - o Managed all workers' compensation claims filed by City employees, including the successful resolution of 16 litigated claims.
- Successfully prosecuted approximately nine liquor and tobacco violations, imposed \$26,250 in penalties, and drafted multiple amendments to the liquor code.
- Conducted negotiations with multiple bargaining units, resulting in the completion of three collective bargaining agreements with unions representing City employees.
- Negotiated successor agreements with Naper Settlement and NCTV17; related legal work for department projects (e.g. TED's North Aurora Road underpass project and the sale of the "South Forty" properties and the Electric Utility's future energy procurement); assisted staff with revisions to the City's Municipal Code; delivered legal orientation sessions to new City Council members; and provided training to board and commission chairs and staff liaisons.

2026 GOALS

- Provide legal updates, in-person consultations, and assistance to the Police Department for adopting public safety initiatives and delivering tailored scenario-based training on topics including the SAFE-T Act, use of force, search and seizure, report writing, and witness testimony, with the aim of enhancing safety and mitigating risk and potential liability.
 - o Priority addressed: Safety
- Assist City staff with local development projects and opportunities, including affordable housing initiatives.
 - o Priority addressed: Economy
- Negotiate with multiple bargaining units to secure successor collective bargaining agreements.
 - o Priorities addressed: Utilities, Safety, Economy
- Develop and implement strategies to reduce costs associated with work-related injuries, including internal negotiations with medical providers for employer-directed care and pursuit of legislative initiatives.
 - o Priorities addressed: Utilities, Safety, Economy
- Assist City staff in delivering training to the City's Boards and Commissions and in revising the City's Municipal Code.
 - o Priority addressed: Economy

FIRE
POLICE

PUBLIC SAFETY

DEPARTMENT OPERATING BUDGETS

SERVICES

- Provides fire suppression and all-hazards response to calls for services.
- Treats and transports, if necessary, medical patients needing 9-1-1 emergency services.
- Oversees City-owned alarm monitoring services and manages the maintenance and installation of new and existing customers.
- Coordinates and collaborates on emergency management needs among all City departments, partner agencies, and other community entities.
- Provides emergency response to Specialty Team incidents involving unique areas of expertise such as entrapment, high-angle rescue, structural collapse, confined space, water rescue, drone operations, tactical EMS, and other specialized areas.
- Provides support and resources to monitor and maintain special event activities and functions safely.
- Provides response, command, and control to mass casualty or mass violence incidents.
- Engages in community risk reduction efforts to minimize fire, medical, and any preventable risk in the community.
- Engages community stakeholders on priorities, assumptions, and service delivery expectations.
- Provides for mental health and quality of life needs through the Community Advocate Response Team (CART).

2025 ACCOMPLISHMENTS

- Completion of the station living quarters renovations at Fire Stations 1 and 3.
- The first phase of the department's in-house medical billing program began in Q4 2025.
- Completed the new five-year strategic plan for the department.
- Strengthened the Community Advocate Response Team and medical reimbursement for treat-on-scene calls for service.
- Implemented the new public safety radio system in Q4 of 2025.
- Worked to include additional burglar alarm services in the fire alarm monitoring program.
- Began the Pre-Hospital Registered Nurse (RN) recruitment and onboarding with the hire of 3 RNs in 2025.

2026 GOALS

- Begin work on the station living quarters renovations at Fire Station 4.
- Begin work on the Fire Academy Training Center's addition.
- Reorganize and strengthen the Office of Emergency Management.
- Continue to strengthen and enhance the Community Advocate Response Team Initiative.
- Continue to build the department's medical billing division to full-time.

SERVICES

- Responds to emergency calls for service.
- Enforces traffic laws to keep our roadways safe.
- Proactively responds to community problems, prevents crime, and arrests violators.
- Provides the community with emergency dispatching services.
- Provides technical traffic accident investigations and reconstruction services.
- Investigates adult crimes, including violent, property, financial, and cybercrimes.
- Investigates juvenile-related crimes and school-based incidents.
- Proactively enforces and investigates narcotics and vice crimes; develops preventive programs.
- Processes crime scenes and prepares evidence for laboratory analysis and court.
- Maintains police reports and processes Freedom of Information Act (FOIA) requests.

2025 ACCOMPLISHMENTS

- Finalized implementation of the new Motorola P25 radio system in Q4.
- Upgraded and remodeled the Community Services section and the Police Department (PD) locker room. Upgrading these areas was essential to improving functionality, technology, additional space for future growth, and overall employee well-being by modernizing a 34-year-old workspace.
- Researched and procured a Real Time Information Center software system that allows the PD to monitor incidents in real time, enabling a quicker and more effective response that increases officer/community safety during crimes or in-progress incidents.
- Worked with the procurement team to purchase and implement an Emergency Medical Dispatch program that standardizes the call-taking process for medical emergencies, ensures consistent information collection, and provides telecommunicators with up-to-date protocols for handling emergency medical calls.
- Procured a virtual reality training system to enhance training for Naperville's police officers. This will help better prepare them for the daily issues and incidents they encounter.

2026 GOALS

- In 2026, the PD aims to launch a Drone as a First Responder (DFR) program, positioning our community as a leader in innovative public safety. DFR will deploy drones to priority calls within minutes, streaming real-time video to officers and dispatchers before our officers arrive. This capability reduces response times, improves on-scene decision-making, and allows some calls to be handled without sending an officer, keeping them available for higher priority incidents and proactive policing that strengthens community trust. By combining this technology with strategic deployment of our personnel, the DFR program can help deliver safer outcomes, more efficient operations, and a model for modern policing that other cities will follow.
 - **Priority addressed: Safety**
- Continue the building update plan to improve PD work due to department growth and building age. Specifically, the Evidence/Crime Scene Area will be remodeled by upgrading technology, electricity,

and other working spaces to enhance functionality and accommodate future growth. The Executive Conference Room will be renovated by upgrading technology, electricity, and other working spaces to improve functionality and productivity.

- Implement the City’s new security camera system to enhance public safety, protect City assets, strengthen our ability to investigate and prevent crime, and secure infrastructure. Strategically placed cameras act as a visible deterrent to unlawful activity, while providing real-time situational awareness for first responders. The system’s high-resolution imaging and secure data storage improve evidence collection, helping resolve incidents more quickly and effectively. Beyond law enforcement, the technology supports traffic management, emergency response, and event safety.
 - **Priority addressed: Safety**
- In 2026, the department will explore and implement software solutions, leveraging existing software or exploring new ones, to improve operational efficiency in our administrative functions. This initiative will focus on streamlining data integration, helping to expedite our growing number of FOIA requests, and working to reduce processing times for internal and external requests.
 - **Priority addressed: Safety**
- In 2026, the department will continue to enhance its investment in training and professional development of its staff to meet the evolving demands of policing. This will include scenario-based, virtual reality, leadership development, and officer/employee wellness training. By prioritizing continual growth, we will strengthen individual skills, enhance team performance, and work to ensure our department is prepared to serve the community with excellence.
 - **Priority addressed: Safety**

OPERATIONAL SERVICES

DEPARTMENT OPERATING BUDGETS

SERVICES

- Maintain the utility's substations, transmission system, distribution system, fiber optic communication network, wireless communication networks, and Conservation Voltage Reduction (CVR) system to deliver energy safely, reliably, and effectively.
- Maintain equitable and competitive utility rates for all customer classes with sufficient operation, maintenance, and equipment replacement revenues.
- Minimize outage times through controlled procedures to isolate and restore electric services via the System Control and Data Acquisition (SCADA) system to maintain a System Average Interruption Duration Index (SAIDI) of less than 30 minutes. This means that each customer in Naperville would experience less than 30 minutes of interrupted power on average over 12 months.
- Complete electrical transmission, distribution, and communication system design, additions, replacements, and improvements.
- Design and install fiscally responsible, highly reliable electric facilities for new commercial and residential customers.
- Maintain the cyber and physical security of the utility's assets to industry standards, including those set by the North American Electric Reliability Corporation (NERC).
- Provide responsive service to customers 24 hours a day, seven days a week through timely response to outages, answering service-related questions, and performing field inspections to ensure public safety.
- Provide timely communication of planned and unplanned power outages, available energy efficiency programs, and grant opportunities.
- Continue asset management and proactive maintenance of utility equipment to ensure safe, reliable service.
- Ensure the availability of grid capacity for customers who wish to deploy distributed generation resources while reimbursing customers for energy delivered to the grid in an equitable manner.

2025 ACCOMPLISHMENTS

- Completed Olesen Estates and Hobson West cable replacement projects.
- Completed three substation remote terminal unit and relay protection upgrade projects. These projects removed obsolete equipment and will help ensure the reliability of substation assets.
- Completed a contractor-led Geographical Information System (GIS) Utility Network readiness assessment with IT and created a plan to update and upgrade software in accordance with the software manufacturer's end-of-life timelines.
- Completed transmission pole and underground asset inspections while replacing nearly 4,000 aging and obsolete electric meters.
- Completed major cybersecurity projects, including firewall architecture redesign and upgrades, which help ensure the security and reliability of the utility's IT systems.
- Completed network hardware upgrades at all water locations and installed approximately 37,700 feet of new fiber optic cable for Electric Utility and IT's use.

2026 GOALS

- Update the utility's hosting capacity study with new solar and battery resources to support future capital planning and Distributed Energy Management System deployment.
- Complete overhead to underground conversion projects along Ogden Avenue, which will improve reliability to 3,000 customers, including Naperville North High School.
- Complete cable replacement and remote terminal unit replacements at three substations to improve reliability for all customers connected to these substations.
- Begin replacement projects in Prairie Ridge, Knoch Knolls, and DuPage River East subdivisions.
- Complete baseline overhead asset inspections and perform primary cable testing on five main line feeders.

SERVICES

- Delivers cost-effective and environmentally sensitive solid waste and recycling services to the community, including administering the Household Hazardous Waste (HHW) Facility.
- Maintains the City's medians, parkways, and right-of-way (ROW) through mowing, herbicide, and landscaping services.
- Manages facility maintenance and custodial services for 58 City sites totaling 1.25 million square feet and 25 employee-occupied buildings.
- Maintains public assets, including repairing City streets and reconstructing alleys, stormwater, parking decks, and street lighting systems.
- Provides City departments with safe, reliable, economical, and environmentally sound fleet services, including repairing and maintaining all City vehicles to maximize service delivery.
- Manages landscape waste removal services, including the bagged leaf collection program, three annual curbside leaf collections, one annual curbside brush collection, and an optional curbside residential composting program.
- Provides snow and ice removal services to improve safety and driving conditions for over 1,500 lane miles of pavement, City parking lots, City parking decks, downtown sidewalks, and around the train station.
- Manages the City's urban forest with comprehensive forestry services, including parkway tree trimming, tree removal, tree planting, and containment of the emerald ash borer.
- Provides traffic operations, including sign installation and maintenance, banner program management, work zones, and special event traffic control.
- Maintains the department's work order, GIS, inventory control, and financial systems to support all programs and services.

2025 ACCOMPLISHMENTS

- Developed a multi-year maintenance program and completed tree and shrub clearing, tree trimming, tree removal, and stump grinding along Naper Boulevard from Ogden to Chicago avenues as part of City beautification efforts. In addition, ditch and storm sewer repair was completed to improve stormwater conveyance.
- Increased Forestry efforts, both in-house and contracted, to improve tree trimming cycle times. The City trimmed 20% more trees than in 2024.
- Continued focusing on technology initiatives to improve processes and communicate internally and with the community. Technology initiatives included expanding the use of technology during emergencies, online citizen service request capabilities, interactive maps, and internal data collection through customized applications.
- Continued the Native Vegetation Management Program, including a condition assessment of existing native landscape areas, recommendations on expansion and conversion of existing landscape areas to native landscape, and the development of a long-term maintenance program.
- Continued repairing and replacing building components, including salt conveyor replacement, roof replacements, parking deck repairs, garage floor repairs, and Municipal Center improvements.
- Improved recycling opportunities for residents by adding drop-off locations for compost material and textiles.

2026 GOALS

- Continue the citywide LED street light upgrade program with upgrades to specialty lighting in the downtown and Historic District.
 - **Priorities addressed: Natural Environment/Community Design**
- Continue increasing forestry efforts to move the City toward a shorter tree-trimming cycle.
 - **Priorities addressed: Natural Environment/Community Design**
- Continue the Native Vegetation Management Program, including additional site locations.
 - **Priorities addressed: Natural Environment/Community Design**
- Continue repairing and replacing building components, including roof replacements, parking deck repairs, municipal facility window and door replacements, and generator and transfer switch replacements to improve energy efficiency and prolong the life of the buildings.
 - **Priorities addressed: Natural Environment/Community Design**

SERVICES

- Coordinates and facilitates the development process from conception to completion.
- Processes development, building, and engineering permits.
- Performs building and site inspections and enforces health, welfare, safety, and property maintenance codes.
- Manages capital improvements within the City.
- Maintains City roadways, sidewalks, bikeways, and public parking lots through the Maintenance Improvement Program (MIP).
- Maintains and operates the City's traffic signal system.
- Addresses residential concerns related to traffic.
- Coordinates with partners to manage and maintain the Naperville Riverwalk and facilitates and manages the Riverwalk donation program.

2025 ACCOMPLISHMENTS

- Facilitated the development process for projects such as Life Time, Charleston Place, Tommy's Express Car Wash, Hines Diehl Redevelopment, Casey's, Chick-fil-A, and Jack in the Box.
- Completed the Washington Street Bridge reconstruction, Aurora and Washington intersection improvements, and Washington Street Streetscape and began construction on the North Aurora Road Underpass.
- Completed the Road Improvement Plan update and initiated the Bicycle & Pedestrian Plan update.
 - o Priority addressed: Mobility
- Engaged with the Urban Land Institute on an evaluation of the 5th Avenue area and participated in the I-88 Corridor Study completed by the Naperville Development Partnership (NDP).
 - o Priority addressed: Economy
- Constructed the Riverwalk Eagle Street Gateway and Accessibility Improvement Project and began design work towards completing the park improvements at 430 S. Washington in coordination with North Central College.
 - o Priority addressed: Natural Environment/Community Design

2026 GOALS

- Complete the update to the Bicycle & Pedestrian Plan.
 - o Priority addressed: Mobility
- Manage construction of numerous capital and maintenance projects, including the annual street maintenance program and the North Aurora Road Underpass, and conduct engineering on numerous other projects, including 248th Avenue and additional phases of downtown streetscape improvements.
- Construct the 430 S. Washington park improvements and South Riverwalk Extension (Hillside Road to Martin Avenue).
 - o Priority addressed: Natural Environment/Community Design
- Support City Council priorities for either the I-88 corridor or the 5th Avenue area by initiating one planning study.
 - o Priority addressed: Economy

SERVICES

- Efficiently supplies adequate quantities of drinking water in full compliance with all applicable U.S. Environmental Protection Agency (USEPA) and Illinois Environmental Protection Agency (IEPA) requirements.
- Provides proactive customer service to ensure all customers enjoy continuous, high-quality, reliable utility service.
- Provides effective and efficient wastewater treatment and biosolids processing in full compliance with USEPA and IEPA requirements.
- Plans, designs, coordinates, and reviews all utility infrastructure development and rehabilitation efforts.
- Develop cost-competitive utility rates to ensure adequate revenues for maintaining operations and funding the replacement of aging capital infrastructure.
- Ensures adequate pressure and water supply for fire protection within its service area.
- Minimizes sanitary sewer back-ups by effectively maintaining the City's sanitary sewer collection and transmission system.
- Accurately locates all underground water and sanitary sewer lines and accessories as part of the Joint Utility Location Information & Excavation System (J.U.L.I.E.).
- Provides construction management, resident engineering, and inspection services for all utility construction work.

2025 ACCOMPLISHMENTS

- Completed the first of two annual leak detection surveys covering Naperville's water distribution system. This survey revealed leaks that resulted in an estimated 80,640 gallons per day of water lost, resulting in \$761 per day in lost revenue.
- Replaced over four miles of water main, including an impactful project centered on Ogden Avenue and Washington Street. This project allows for greater water conveyance into the Saybrook subdivision and removes nine lead services from the distribution system.
- Work continued to address capacity increases, increased regulatory requirements, and aging infrastructure at the Springbrook Water Reclamation Center. Construction began on the South Plant Grit/RAS project, and the South Plant Capacity Upgrades and Improvements contract was awarded.
- Completed the rehabilitation of Northwest Pump Station's sanitary force main. This is the first of numerous force mains to be rehabilitated due to findings from condition assessments performed in 2024.

2026 GOALS

- With the help of a State Revolving Fund loan, remove the remaining identified lead service lines from Naperville's water distribution system. Removing these 200-plus lead service lines would place Naperville more than 10 years ahead of schedule.

- Begin construction of the East Highlands Sewer Replacement project. This project is the department's first large-scale replacement of sanitary pipes and replaces the failing rehabilitation of the original pipe.
- Continue the installation of additional acoustic-sounding devices with an emphasis on sensitive areas of the distribution system, allowing for the constant monitoring for leaks.
 - **Priority Addressed: Utilities**
- Bid and begin construction on the Nutrient Removal Upgrades and North Plant Aeration Improvements at the Springbrook Water Reclamation Center.
 - **Priority Addressed: Utilities**

26 MISCELLANEOUS SERVICES ...

EXPENSE TYPES

The City provides funding to outside agencies such as the Naperville Development Partnership (NDP), the Naperville Convention and Visitors Bureau (NCVB), and Naperville Community Television (NCTV17), which deliver direct services to the City. Additionally, this category covers the interfund transfer for two-thirds of maintenance costs for the Downtown Maintenance & Marketing Fund, with the other one-third funded by Special Service Area (SSA) 36.

Miscellaneous services also account for transfers from the Water Street TIF Fund and SSA 23 Fund (Naper Main) to the Debt Service Fund. These funds collect revenues directly through property taxes, and funds are transferred to pay debt service associated with each fund.

October 1, 2025

Dear City Council,

On behalf of the Board of Directors, staff, and myself, I'd like to thank you for your continued support of Naperville Community Television, Channel 17 (NCTV17) - your nonprofit community television station.

At NCTV17, we are proud to be the trusted source of information that connects and empowers our community. NCTV17 doesn't just keep residents informed—it amplifies Naperville's story to the region and beyond. By spotlighting local businesses like Block 59, nonprofits such as Loaves & Fishes, cultural celebrations like the Hispanic Festival, and community leadership through coverage of local elections, the station elevates Naperville's reputation as a thriving place to live, work, and visit—while fueling economic vitality and strengthening community connection.

Not only do we elevate Naperville's reputation we also believe what we do is an essential service that is often overlooked. Local news, like NCTV17, is just as vital as public safety or education. We keep a close watch on local government, reporting on everything from city budgets to school board decisions, while also highlighting the positive stories and events that make our community special. When there's an emergency, we are often on scene, sharing crucial information.

Supporting local news means supporting the foundation of community life. At NCTV17, we are committed to providing accurate, unbiased, and accessible information. Our coverage is free and available to everyone because an informed community is an empowered one.

For the last 20 years, NCTV17 has grown from a traditional PEG channel to a community news organization to meet the needs of the City and its residents.

Now, the economic model for cable television and local PEG channels has been disrupted, making it difficult for many outlets like NCTV17 to survive without community support.

NCTV17 is looking for additional investment from the City of Naperville to bring the PEG support up to 2025 economic levels. This support will help NCTV17 move into new revenue streams and stabilize both staff and budget going forward.

National research shows that about one in six Americans live in communities without any local news source, according to [Northwestern University's Medill School of Journalism's](#) State of Local News Report released in 2025. This absence of local coverage is more than an information gap. It has real consequences. Studies show that in areas without local news, voter turnout declines, municipal borrowing costs rise, and community divisions deepen.

“Put simply, the absence of local news affects our democracy, our economy, and the health of our communities,” John Palfrey, president of the [MacArthur Foundation](#), and Karen Rundlet, CEO of the [Institute for Nonprofit News](#), wrote in a July 2025 commentary.

Whatever issues matter most to you—education, public health, the environment or civic engagement—local news is the foundation that helps us all work toward solutions together. As Palfrey and Rundlet also wrote, “Whatever your first issue is, local news and journalism should be your second.” Without a shared set of facts, we cannot move forward together.

That is why your involvement matters. When you support NCTV17, you invest in a stronger Naperville, one where residents stay informed, participate in local decisions, and celebrate what unites us.

Thank you for your support,

Liz Spencer
Executive Director

Re: *FY 2026 Budget for Naperville Development Partnership, Naperville Convention & Visitors Bureau, and Naperville Restaurant Marketing*

Dear Mayor and City Council Members:

On behalf of the Naperville Development Partnership, a not for profit, public/private economic development organization, we respectfully submit our budget for FY 2026.

There have been many exciting economic development successes over the past year. Naperville has experienced a new vibrancy with the opening of the Block 59 Development, as well as continued investment in the Ogden Corridor with Northpond Partners upgrading the Iroquois Center and NewQuest completing a façade renovation at NPV City Market on N. Aurora, while their tenant, Ranch 99, is making progress on critical infrastructure needed to complete construction. Heinen's just opened its fifth Illinois store in Naperville last month. Ancho & Agave replaced Houlihan's in Showplace and Tollywood Lounge is opening on Springbrook Square Dr. New office leases have been signed in the I-88 Corridor and Naperville will be retaining Northern Trust and welcoming Liberty Mutual and Oceans Network next year. The CVB continues to bring new conferences to the City. This year Naperville hosted the Illinois Fraternal Order of Police as well as the Baptist General Women's Convention to name a few. The I-88 Corridor Study was released in May and work has begun to implement the recommendations.

Our attached summary will detail the request and the total amount requested is identical to last year's funding. NDP Board Members do respectfully request that I-88 Funding become a permanent part of the Economic Development funding. NDP budget includes non-city revenues to support economic development activities.

Thank you for your consideration of the NDP budget submittal and grant requests.

Sincerely,

Vince Rosanova
NDP Treasurer

Monica Conners
NDP President

FY 2026 Budget Overview

Organization Background: The Naperville Development Partnership (NDP) is a public-private not-for-profit (501 c 6) formed in 1995 celebrating its 30th year of service this year. Our mission is to enhance the economic well-being of Naperville, through job creation, capital investment and economic activity. By focusing on attracting, retaining and expanding businesses, as well as promoting tourism and dining in the City, NDP's efforts help to market the unique brand appeal of the City of Naperville.

Economic development activities are funded by a grant from the city, as well as contributions from each of the businesses and organizations that serve on the board of directors. In 1999, the NDP took on the operations of the Naperville Convention & Visitors Bureau (NCVB). This function is supported by a grant from the city's hotel tax. The NCVB does not sell memberships, nor does it charge a fee for services. If you are a hotel contributing to the hotel tax in Naperville, you are a member of the NCVB. All promotion activities for the NCVB occur under the "Visit Naperville" brand of NDP.

In 2005, the city established a food and beverage tax to fund the City's special events and cultural amenities. The NDP was provided with a grant from the Food & Beverage tax to promote Naperville as a dining destination. Dine Naperville was created to serve as the City's Restaurant trade organization. Today, "Dine Naperville" is a marketing brand that supports over 400 restaurants with special programming, targeted marketing and industry support through partnerships with entities like the Illinois Restaurant Association. Like the NCVB, Dine Naperville does not charge a membership. If a business contributes to the city's F&B tax, they are a member of Dine Naperville.

NDP Operations: The NDP has a staff of six (6) full-time employees. The positions include a President of the organization, a Director of Sales for the CVB and four employees that are cross trained in economic development, tourism and restaurant marketing. This reduces overhead costs, provides more opportunities for innovation, and enhances the employee experience by encouraging a team-based approach.

Our office is located in the River District in downtown Naperville and the NDP enjoys a below market value rent arrangement. In August of 2024, the River District building was sold to a local development firm out of Oakbrook. The current lease for NDP expires in 2028.

The NDP conducts an independent annual audit and holds quarterly meetings of the board of directors. NDP board members include members of the community as well as several ex-officio positions including elected officials and public-private partners such as school districts and representatives from the library and park district.

2026 Budget & Key Initiatives:

The NDP is requesting funding commensurate with last year's total request. The request is to approve a total of \$1,365,000 of funding, which matches 2025's allocation. The Board of NDP respectfully requests that the I-88 Corridor funding become a permanent source of funding by increasing the annual economic development grant from \$375,000 to \$525,000. Funding for the CVB would remain flat at \$655,000 from 2025 through Hotel/Motel tax. In addition, a SECA request to support restaurant marketing remains flat at \$185,000. It should be noted that NDP anticipates requesting a 40% increase from its board contributions to help support the activities of the organization. The 2024 Audit of NDP did state that economic development was only funded at 24% of budget and should be more in line with CVB funding. This request for permanence will help NDP deliver more services throughout the community and execute the I-88 corridor strategy which impacts residents and businesses throughout the City.

As a recap, the NDP launched an economic development study of the 88 Corridor with economic development consultant AECOM which began in 2024 and was delivered in 2025. This was supported by the City's 2024 contribution to market the I-88 Research & Development Corridor. Some notable outcomes of the study that will support economic development efforts include:

- Identifying 5 target industry clusters that leverage the City of Naperville's strengths in order to deliver an effective attraction, retention and expansion marketing strategy. These clusters are Ag/Food Tech, Life Sciences/Pharma, FinTech, Energy and Advanced Manufacturing, Computer Science/Quantum.
- Understanding the strengths and weaknesses of the corridor with respect to the financial viability of existing commercial real estate.
- Six recommended strategies included forming strategic partnerships, establishing an identity for the corridor, incentivizing high quality development and creating a sense of place, selected marketing strategies, leveraging assets to grow innovation and entrepreneurship and build capacity within the organization.

Benchmarking Naperville against several US innovation interstate corridors was completed to gain knowledge of best practices and develop a place-based marketing strategy, as well as identifying the health and wellness of real estate within the corridor.

The I-88 Funding for 2025 has been allocated to promote advertising in certain industry trade publications as well as multistate real estate channels, execute attraction activities which include national engagement with the site selection community, and develop industry roundtables for the target industry clusters identified in the study. In addition, resources will be deployed to engage in a branding campaign of the corridor.

By allowing for a permanent increase of economic development funding for 2026, more resources can be deployed for marketing to attract, retain and expand the businesses in Naperville which strengthen the economy and diversify the tax base. This helps all residents. In addition, we need to continue to cultivate entrepreneurship and workforce development initiatives which are much needed to effectively compete nationally. Lastly, retaining important tools like Placer AI will help continue to demonstrate data driven solutions for the City. The work of the 88 Plan will not continue without a permanent source of funding to continue to market the community.

Additionally, the CVB hopes to attend several conferences for meeting planners as well as execute market visits to organizations who may select a Chicagoland suburb for corporate meeting events. Sports tourism is also a goal of the new CVB Director of Sales, as well as promoting more day trips throughout the State of Illinois and neighboring areas to bring in outside sales tax revenue.

Dine Naperville plans to continue more digital marketing strategies to build from the momentum of last year's Restaurant Week. NDP strategically works collaboratively with Downtown Naperville Alliance to add and not repeat what Downtown is doing to attract visitors. Dine Naperville plans on hosting an inaugural Taste of Naperville in late 2026, pending restaurant participation.

The NDP thanks the City Council for their consideration of this budget request. NDP staff and board Treasurer are available to answer any questions or address any concerns you may have.

Respectfully submitted:

26 GLOSSARY OF TERMS ...

ABATEMENT: A complete or partial cancellation of a levy imposed by a government. Abatements usually apply to tax levies, special assessments, and service charges.

ACCOUNT: A term used to identify an individual asset, liability, expenditure control, revenue control, or fund balance.

ACCRUAL BASIS OF ACCOUNTING: A method of accounting that recognizes the financial effect of transactions, events, and interfund activities when they occur, regardless of the timing of related cash flows.

ACTUARIAL/ACTUARY: A person or methodology determining required contributions to achieve future funding levels that address risk and time.

ADOPTED BUDGET: The proposed budget as initially and formally approved by the City Council.

AD VALOREM TAX: A tax levied in proportion to the value of the property levied.

AMORTIZATION: The reduction of debt through regular payments of principal and interest, of which the principal payments are sufficient to retire the debt instrument at a predetermined date known as maturity.

ANNUAL COMPREHENSIVE FINANCIAL REPORT: This official audited annual report presents the status of the City's finances in a standardized format. The report is organized by funds and contains two basic types of information: a balance sheet that compares assets with liabilities and fund balance and an operating statement that compares revenues and expenditures.

APPRAISED VALUE: To make an estimate of value, generally for the purpose of taxation.

APPROPRIATION: An act or ordinance of the City Council allowing agencies and departments to incur obligations and to make payments out of a specific budget for specified purposes.

ARBITRAGE: Investment earnings representing the difference between interest paid on the bonds and the interest earned on the investments made utilizing the bond proceeds.

ASSESSED VALUE: A value set upon real estate or other property by a government, generally for the purpose of levying taxes.

ASSETS: Resources owned or held by a government that have monetary value.

AUDIT: An independent assessment of the fairness by which a company's financial statements are presented by its management.

BALANCED BUDGET: A budget where total expected revenues equal total planned spending. In other words, operating expenditures should not exceed the amount of operating revenues.

BENEFITS: Payments to which participants may be entitled under a pension plan, including pension, death, and those due on termination of employment.

BOND: A written promise, generally under seal, to pay a specified sum of money called the face value at a fixed time in the future called the date of maturity and carrying interest at a fixed rate, usually payable periodically.

BONDED DEBT: Debt for which general obligation bonds or revenue bonds are issued.

BUDGET: A plan of financial operation embodying an estimate of proposed expenditures for a given period and the proposed means of financing them. Used without any modifier, the term usually indicates a financial plan for a single fiscal year.

BUDGET AUTHORITY: Authority provided by law that permits City departments to incur obligations requiring either immediate or future payment of money.

BUDGET CALENDAR: The schedule of essential dates or milestones the City follows in preparing, adopting, and administering the budget.

BUDGET DEFICIT: The amount by which the government's budget outlays exceed its budget receipts for a given period, usually a fiscal year.

BUDGET MESSAGE: A general discussion of the proposed budget as presented in writing by the City Manager to the City Council.

BUDGET ORDINANCE: The official enactment by the City Council to legally authorize City staff to obligate and expend resources.

BUDGETARY CONTROL: The control or management of a government or enterprise in accordance with an approved budget to keep expenditures within the limits of available appropriations and revenues.

BUILDING PERMITS: Revenues derived from the issuance of building permits prior to construction with the City of Naperville.

CABLE TV FRANCHISE: Franchise tax levied on a cable television company.

CAPITAL EXPENDITURE: Expenditures that result in the acquisition of, or addition to, fixed assets.

CART PROGRAM: The Naperville Fire Department's Community Advocate Response Team is a 24/7 service designed to prevent mental health emergencies from escalating to life-threatening situations.

CAPITAL IMPROVEMENT PROGRAM: A plan for capital expenditures to be incurred each year over a fixed period of years to meet capital needs arising from the long-term work program or otherwise. It sets forth each project and specifies the full resources estimated to be available to finance the projected expenditures.

CHARGEBACKS: Accounting transactions that recover one fund's expenses from another that received the service.

CHART OF ACCOUNTS: A listing of the asset, liability, equity, expenditure, and revenue accounts used in the accounting, operations, and budgeting processes.

CONTINGENCY: An appropriation of funds to cover unforeseen events that occur during the fiscal year, such as emergencies, federal mandates, shortfalls in revenue, and similar eventualities.

COVID-19: The common name for the SARS-CoV-2 virus, whose spread resulted in a global pandemic in 2020.

DEBT PROCEEDS - BONDS: Funds available from the issuance of bonds.

DEBT SERVICE FUND: A fund used to account for the accumulation of resources for and the payment of general long-term debt principal, interest, and related costs.

DEFICIT: The excess of liabilities over assets or expenditures over revenues in a fund over an accounting period.

DEPARTMENT: The basic organizational unit of the City; it is functionally unique in its services.

DEPRECIATION: A calculation of the estimated decrease in value of physical assets due to usage and passage of time.

DISTINGUISHED BUDGET PRESENTATION PROGRAM: This is a voluntary program administered by the Government Finance Officers Association to encourage governments to publish efficiently organized and easily readable budget documents, providing peer recognition and technical assistance to the fiscal officers preparing them.

DIVISION: A unit of an organization that reports to a department.

ENCUMBRANCE ACCOUNTING: Refers to an accounting system in which purchase orders, contracts, and other commitments for the expenditures of monies are recorded to reserve that portion of the applicable appropriation.

ENTERPRISE FUNDS: Enterprise funds are used to account for operations that are financed and operated in a manner similar to private business enterprises. Enterprise funds are used when the governing body intends that the costs (expenses, including depreciation) of providing goods or services to the general public on a continuing basis are financed or recovered through user charges or where the governing body has decided that periodic determination of revenues earned, expenses incurred, and/or net income is appropriate for capital maintenance, public policy, management control, accountability, or other purposes.

EXPENDITURE: The actual outlay of or obligation to pay cash. This does not include encumbrances.

FIDUCIARY FUNDS (TRUST AND AGENCY FUNDS): These funds account for assets held by the City in a trustee capacity or as an agency for individuals, private organizations, other governments, and/or other funds. These include Expendable Trust, Nonexpendable Trust, Pension Trust, and Agency Funds. Nonexpendable Trust and Pension Trust Funds are accounted for essentially in the same manner as proprietary funds since capital maintenance is critical. Expendable Trust Funds are accounted for essentially in the same manner as governmental funds. Agency Funds are custodial in nature (assets equal liabilities) and do not involve measurement of results of operations.

FISCAL YEAR: A 12-month period to which the annual budget applies and at the end of which a municipality determines its financial position and results of operations. The City of Naperville has specified January 1 to December 31 as its fiscal year.

FIXED ASSETS: Assets of a long-term character, which are intended to be held or used, such as land, buildings, machinery, furniture, and other equipment.

FLEET: The vehicles owned and operated by the City.

FORECAST: A projection of future revenues and/or expenses based on historical and current economic, financial, and demographic information.

FORFEITURE: The automatic loss of property, including cash, as a penalty for breaking the law or as compensation for losses resulting from illegal activity. Once the property has been forfeited, the City may claim it, resulting in the confiscation of the property.

FULL-TIME EQUIVALENT (FTE): The number of positions calculated on the basis that one FTE equates to a 40-hour workweek for 12 months. For example, two part-time positions working 20 hours for 12 months equals one FTE.

FUNCTIONAL CLASSIFICATION: A means of presenting budgetary data in terms of the major purposes being served. Each program or activity is placed in the same category (e.g., administration, fire, police) that best represents its major purpose, regardless of the spending agency or department.

FUND: A fiscal and accounting entity with a self-balancing set of accounts, recording cash and other financial resources, together with all related liabilities and residual equities or balances and changes therein, which are segregated to carry on specific activities or attain certain objectives in accordance with special regulations, restrictions, or limitations.

FUND ACCOUNTING: The City's accounts are organized based on funds and account groups, and each is considered a separate accounting entity. A fund's operations are accounted for with separate sets of self-balancing accounts that comprise its asset, liability, fund equity, revenue, and expenditure accounts, as appropriate. Government resources are allocated to and accounted for in individual funds based on the purpose for which they are to be spent and how spending activities are to be controlled.

FUND BALANCE: The fund equity of governmental funds.

FUND EQUITY: Fund equity in governmental accounting is the difference between a governmental fund's assets and liabilities, also known as fund balance. It's a measure of the available financial resources that can be spent.

FUND TRANSFER: A budgeted transfer of funds to another fund.

GENERAL FUND: The General Fund is the City's general operating fund. It accounts for all financial resources except those that must be accounted for in another fund.

GOAL: A statement of broad direction, purpose, or intent based on the community's needs.

GENERAL OBLIGATION BONDS: Bonds in which the full faith and credit of the issuing government are pledged.

GENERALLY ACCEPTED ACCOUNTING PRINCIPLES (GAAP): Uniform minimum standards accounted for in another fund and guidelines for financial accounting and reporting.

GOVERNMENTAL ACCOUNTING: The composite of analyzing, recording, summarizing, reporting, and interpreting the financial transactions of governmental units and agencies.

GOVERNMENTAL FUNDS: General, Special Revenue, Debt Service, and Capital Project funds.

GRANT: A contribution by one governmental unit to another. The contribution is usually made to aid in the support of a specified function.

INFLATION: A substantial rise in the general level of prices related to an increase in the volume of money, resulting in the loss of value of currency.

INFRASTRUCTURE: Public domain fixed assets, including roads, bridges, curbs, gutters, sidewalks, drainage systems, lighting systems, and other items that have value only to the City.

INTERFUND TRANSFERS: Legally authorized transfers from a fund receiving revenue to the fund through which the resources are to be expended.

INTERGOVERNMENTAL NON-REVENUE RECEIPT: A fixed asset originating from one City department to another.

INTERGOVERNMENTAL REVENUE: Revenue received from or through the federal, state, or county government.

INTERNAL SERVICE FUND: A fund used to account for the financing of goods or services provided by one department or agency to other departments or agencies.

LIABILITIES: Debt or other obligations arising in the past which must be liquidated, renewed, or refunded at some future date.

LINE-ITEM BUDGET: A budget that allocates funds to specific cost centers, accounts, or objects, (e.g., salaries and office supplies).

LONG-TERM DEBT: Bonded debt and other long-term obligations, such as benefit accruals, due beyond one year.

MANDATE: A requirement from a higher level of government that a lower level of government performs a task in a particular way or by a particular standard.

MILL: A taxation unit equal to one dollar of tax obligations for every \$1,000 of assessed valuation of property.

MILLAGE: The tax rate on real property based on \$1.00 per \$1,000 of assessed property value.

MISCELLANEOUS REVENUE: Those revenues that are small in value and not individually categorized.

MISSION STATEMENT: The statement that identifies a department's purpose and function.

MODIFIED ACCRUAL BASIS OF ACCOUNTING: Basis of accounting in which revenues are recognized in the accounting period in which they become available and measurable, and expenditures are recognized in the accounting period in which the fund liability is incurred, if measurable, except for unmatured interest on general long-term debt and certain similar accrued obligations, which is recognized when due.

MUNICIPAL CODE: A collection of laws, rules, and regulations that apply to the City and its residents.

MUNICIPAL GROCERY TAX: A tax upon all persons engaged in the business of selling groceries at retail in the municipality. Starting Jan. 1, 2026, the State of Illinois' state grocery tax is eliminated. In 2025, the Naperville City Council approved a replacement 1% Municipal Grocery Tax to go into effect on Jan. 1, 2026, as a means of revenue replacement.

MUNICIPAL GROCERY SERVICE OCCUPATION TAX: A tax upon all persons engaged, in the municipality, in the business of making sales of service, who, as an incident to making those sales of service, transfer groceries. In Illinois, any municipality imposing a Municipal Grocery Tax must also impose a Service Occupation Tax at the same rate. In Naperville, this will be 1% effective on Jan. 1, 2026.

OBJECT CLASSIFICATION: A means of identifying and analyzing the obligations incurred by the City in terms of the nature of the goods or services purchased (e.g., personnel compensations, commodities, capital outlays, contractual services, and personnel benefits), regardless of the agency involved or purpose of the programs for which they are used.

OBJECTIVE: Something toward which effort is directed: an aim, goal, or end of action. Whereas goals are broader, objectives are typically measurable, specific, and have a time component.

OPERATING BUDGET: A financial plan that presents proposed expenditures for the fiscal year and estimates the revenues to fund them.

OPERATING EXPENSES: Fund expenses that are ordinary, recurring in nature, and directly related to the fund's primary service activities.

ORDINANCE: A formal legislative enactment by the City that carries the full force and effect of the law within the corporate boundaries of the City, unless in conflict with any higher form of law, such as state or federal.

OUTLAYS: Checks issued, interest accrued on public debt, or other payments made, offset by refunds and reimbursements.

PER CAPITA: A measurement of the proportion of some statistic to an individual resident determined by dividing the statistic by the current population.

PERFORMANCE INDICATORS: Specific quantitative and qualitative measures of work performed as an objective of the department.

PFAS: A group of synthetic chemicals that have been used in many products since the 1950s. They are also known as "forever chemicals" because they persist in the environment and do not break down easily.

PRODUCTIVITY: A measure of the increase in service output of City programs compared to the per unit of resource input invested.

PROPERTY TAXES: Used to describe all revenues received in a period from property taxes, both current and delinquent, including all related penalties and interest. Property taxes are levied on both real and personal property according to the property's valuation and tax rate.

PROPRIETARY FUND: Enterprise and internal service funds that are similar to corporate funds in that they are related to assets, liabilities, equities, revenues, expenses, and transfers determined by business or quasi-business activity.

RESERVE: An account used to earmark a portion of a fund balance to indicate that it is not appropriate for expenditure, and an account used to earmark a portion of fund equity as legally segregated for a specific future use.

RESOLUTION: A legislative act by the City with less legal formality than an ordinance.

RESTITUTION: Revenues collected as a payment for damage to City property.

RETAINED EARNINGS: An equity account reflecting the accumulated earnings of an Enterprise Fund.

REVENUES: Money received into a fund from outside the fund that, together with fund balances, provides the financial resources for a given fiscal year.

REVENUE BONDS: Bonds in which principal and interest are paid exclusively from enterprise fund earnings.

REVISED BUDGET: The adopted budget as formally adjusted by the City Council.

SALES TAX: Tax imposed on taxable sales of all final goods.

SPECIAL ASSESSMENT: A compulsory levy against certain properties to defray part or all of the cost of a specific improvement or service deemed to benefit those properties primarily.

SPECIAL ASSESSMENT FUNDS: A fund used to account for financing public improvements or services deemed to benefit the properties against which special assessments are levied.

STRATEGIC OBJECTIVE: Something to be accomplished in specific, well-defined, and measurable terms and is achievable within a specific time frame.

TAX LEVY: The total amount to be raised by general property taxes for a purpose specified in the Tax Levy Ordinance.

TRIAL BALANCE: A list of the balances by account in a ledger kept by double entry with the debit and credit balances shown in separate columns. If the totals of the debit and credit columns are equal or their net balance agrees with a control account, the ledger which uses total expenditures and transfers to other funds that decreases net financial resources.

USER CHARGES: The payment of a fee for direct receipt of public service by the party benefiting from the service.

VARIABLE RATE: A rate of interest subject to adjustment.
