Additional COVID-19 Mitigations Begin Friday in DuPage and Will Counties

Beginning Friday, Oct. 23, new and more stringent measures will be put in place in DuPage and Will counties to slow the spread of COVID-19.

The enhanced mitigation efforts were announced by the Governor's Office on Tuesday in response to Naperville's two health regions reporting three consecutive days of average test positivity rates exceeding 8%.

The additional prevention measures include a ban on indoor dining, an 11 p.m. closing time for all bars and restaurants, and a cap of 25 people or 25% room capacity for all gatherings, social events and meetings, among other restrictions. A complete summary of the changes can be found on the [State's website](#).

These additional mitigations will remain in effect for 14 days. During that time, health officials will continue to track the regions' positivity rate to determine if the mitigations should remain in place, if mitigations can be relaxed or if additional mitigations are required for one or both of the regions Naperville falls within. For more information about the state's mitigation plan, [click here](#).

Mask Up, Naperville

All Naperville residents are encouraged to follow the 3Ws to help stop the spread of COVID-19 in our community. Please **WEAR** a mask, **WATCH** your distance and **WASH** your hands. In a [video message to the community](#) released today, Mayor Steve Chirico urges residents to do their part to reverse the upward trajectory of COVID-19 cases and help our health regions return to business.

Local Data Available Online

Residents are reminded that Naperville-area charts and graphs showing the status of the virus in our area and its impact on our community can be found on the City of Naperville's [COVID-19 Resources webpage](#). The dashboard is powered by data from the DuPage and Will County Health Departments.
