COVID-19 Community Update regarding DuPage County

State officials announced Monday, Jan. 18, that the public health region containing DuPage County had met the necessary metrics to move into a less restrictive tier of mitigations to limit the spread of COVID-19, effective immediately.

The move to Tier 2 from Tier 3 allows those in the DuPage County portion of Naperville to re-open cultural institutions, hold indoor fitness classes up to 10 people and organize group recreational activities with 25 participants or 25% overall capacity, whichever is less. A complete list of mitigations is available on the [State's website](#).

Region 7, which includes the Will County portion of Naperville, remains in the more restrictive Tier 3 mitigations until metrics improve.

The metrics being used to determine mitigations, in addition to what is allowed under each tier of mitigations, are available on the [State's website](#).

Despite the loosening of some restrictions, however, ALL residents are encouraged to keep taking proven precautions to help slow the spread of COVID-19 and keep the two public health regions Naperville falls within moving toward even less-restrictive mitigations. Such precautions include:

- Wearing a mask in public
- Watching your distance from people you don't live with
- Washing your hands
- Avoiding unnecessary gatherings
- Getting vaccinated when it's your turn
