Street address of owner:		
City:	State:	
County:	Zip Code:	
Naperville Electric Utility account # serving the site location:		
Email address:	Contact phone:	
Site address of improvements (if different from above):		
Street:		
City:	Zip Code:	
Naperville Electric Utility account # serving the site location:		
Email address:	Contact phone:	
Rebate Requested: \$ _____		
ATTIC INSULATION*		
R-value of Materials and Depths: \$1 per square foot / \$3,000 maximum rebate		
Material	R-value per inch	R-value at 15"
Fiberglass (batt)	3.1-3.4	46.5-51.0
Fiberglass (blown)	2.2-4.3	33.0-64.5
Mineral Wool (batt)	3.1-3.4	46.5-51.0
Mineral Wool (blown)	3.1-4.0	46.5-60.0
Cellulose (blown)	3.2-3.7	48.0-55.5
<small>*The level of attic insulation, pre-existing and new, must have a minimum R-value of R-49. A final insulation depth level of at least 15" will be considered sufficient to reach R-49 for the rebate. It is strongly recommended that homeowners request their insulation contractor to include an Air Seal step as part of the attic insulation project.</small>		
WINDOW REPLACEMENTS		
\$300 per window; \$3,000 maximum rebate		U-Factor
Window rebate Requires close up pictures of ALL old windows proving they were Single-Pane.	Windows must separate a heated space from an unheated space. New windows must replace a single pane window with a double or triple pane window.	0.30 or lower
<i>Applicant Certification: I hereby certify that the information contained herein is true and correct and that the attic insulation and/or energy-efficient windows described here were installed on my property on the date shown.</i>		
Homeowner Signature: _____		Date: _____

These documents MUST be submitted after the project is completed:

1. Include this customer-signed application certifying that your energy-efficient project was **purchased and installed** on or after January 1, 2022. **Must be submitted within 120 days of Installation.**
2. **For attic insulation**, include manufacturer's spec sheets and installer invoices showing your attic insulation R-value, material type and installed quantity in square feet.
3. **For replacement windows**, show U-factor rating, manufacturer's spec sheets, installer invoices and installed quantity.
 - a. Windows must separate a heated space from an unheated space.
 - b. New windows must replace a single-pane window with a double or triple pane window (**Required: attach photos of ALL old single-pane windows**).
4. Include a copy of dated, marked paid invoices itemizing equipment components and work at the project location.
5. Prior purchases/installations are not eligible for the rebate.
6. Complete applications/documentation must be submitted within 120 days of Installation.
7. Rebates are limited to 50% off the project cost (material and installation) and \$3,000 for each program;\$6,000 if a customer does both attic insulation and window replacements.
8. Rebates will end when all funding is expended.
9. Homeowner must contribute to the Naperville Renewable Energy Program at the \$5/month or above level for a minimum of two years.
10. This rebate does not include new construction.
