

Naperville Owns its Electric Utility

Shedding some light on Reliability

105 Employees, 63,000 Customers, Outstanding Reliability, and Community Owned

Features of your locally-controlled utility:

In 2026, Naperville residents could expect to be without power for only 30 minutes per year.

95% of Infrastructure is underground.

This increases reliability because it is less prone to weather and other damage versus overhead.

Competitive Rates

Naperville's Electric Utility is at the forefront of new technologies designed to keep the power on and to respond to outages more quickly.

95,261,672 kilowatt hours of electricity purchased in March 2026.

Naperville buys its electricity through the Illinois Municipal Electric Agency (IMEA).
