

## **TIPS FOR APPLYING Residential Attic Insulation Rebate Program**

Naperville is offering residential electric customers an attic insulation rebate program.

The rebate an apply to attic insulation of at least R49 with the new insulation added and is limited to \$1 per square foot of the attic insulation area installed – \$3,000 max – and capped at 50% of the total eligible project cost.

### **Attic Insulation Rebate Requirements**

- The final level of insulation (pre-existing plus new) must have a minimum R-Value of R49.
- A final insulation depth of at least 15” or greater will be considered sufficient to reach the required R49 Value for this grant program.

Please submit the following items in addition to your application to Dian Klupshas at [klupshasd@naperville.il.us](mailto:klupshasd@naperville.il.us).

Some of the work on a paid invoice may not be covered by the attic insulation incentive. Please provide an itemized invoice that includes the following:

- Paid invoices from your installer showing an itemization of the attic insulation services performed and installed at your address;
- It should include a detailed description, specifications on services performed, R-Value of insulation added and final R-Value. It needs to itemize:
  - The cost (material and labor) for the R49 attic insulation,
  - The square footage of the attic where the insulation was added,
  - The cost for the air sealing,
  - The cost for the ventilation chutes,
  - How much R-Value insulation was added to achieve your final R 49 Insulation value.
- Applicants must be contributors to the Naperville Renewable Energy Program that funds this award (a minimum of \$5 per month), to be eligible for the grant.
  - A utility bill showing this contribution must be submitted for the application to be complete.

More information on how to sign up for the Naperville Renewable Energy Program is at: <https://www.naperville.il.us/services/electric-utility/powering-our-community-for-the-future/renewable-energy-program/>.
